A New Economic History of Colonial India Latika Chaudhary, Bishnupriya Gupta, Tirthankar Roy, Anand V. Swamy, 2015-08-20 *A New Economic History of Colonial India* provides a new perspective on Indian economic history Using economic theory and quantitative methods it shows how the discipline is being redefined and how new scholarship on India is beginning to embrace and make use of concepts from the larger field of global economic history and economics The book discusses the impact of property rights the standard of living the labour market and the aftermath of the Partition It also addresses how education and work changed and provides a rethinking of traditional topics including de industrialization industrialization railways balance of payments and the East India Company Written in an accessible way the contributors all leading experts in their fields firmly place Indian history in the context of world history An up to date critical survey and novel resource on Indian Economic History this book will be useful for undergraduate and postgraduate courses on Economic History Indian and South Asian Studies Economics and Comparative and Global History **A New Economic History of**

Colonial India Latika Chaudhary, Bishnupriya Gupta, Tirthankar Roy, Anand V. Swamy, 2015-08-20 A New Economic History of Colonial India provides a new perspective on Indian economic history Using economic theory and quantitative methods it shows how the discipline is being redefined and how new scholarship on India is beginning to embrace and make use of concepts from the larger field of global economic history and economics The book discusses the impact of property rights the standard of living the labour market and the aftermath of the Partition It also addresses how education and work changed and provides a rethinking of traditional topics including de industrialization industrialization railways balance of payments and the East India Company Written in an accessible way the contributors all leading experts in their fields firmly place Indian history in the context of world history An up to date critical survey and novel resource on Indian Economic History this book will be useful for undergraduate and postgraduate courses on Economic History Indian and South Asian Studies Economics and Comparative and Global History *An Economic History of India 1707-1857* TIRTHANKAR. ROY, 2021-09-17 This new edition of An Economic History of Early Modern India extends the timespan of the analysis to incorporate further research This allows for a more detailed discussion of the rise of the British Empire in South Asia and gives a fuller context for the historiography In the years between the death of the emperor Aurangzeb 1707 and the Great Rebellion 1857 the Mughal Empire and the states that rose from its ashes declined in wealth and power and a British Empire emerged in South Asia This book asks three key questions about the transition Why did it happen What did it mean How did it shape economic change The book shows that during these years a merchant friendly regime among warlord ruled states emerged and state structure transformed to allow taxes and military capacity to be held by one central power the British East India Company The author demonstrates that the fall of warlord ruled states and the empowerment of the merchant in consequence shaped the course of Indian and world economic history Reconstructing South Asia s transition starting with the Mughal Empire s collapse and ending with the great rebellion of 1857 this book is the first systematic account of the economic history of early modern India It is an essential reference for students and scholars of Economics and South Asian History **An Economic History of Tropical Africa: The pre-colonial period** Zbigniew A. Konczacki, Janina M. Konczacki, 1977 These articles cover early agricultural development history of agricultural crops patterns of land use and tenure introduction and use of metals economic and technological aspects of the Iron Age patterns of trade trade routes and centres and media of exchange *The Settler Economies* Paul Mosley, 2009-03-12 The economic history of developing countries particularly the former colonies has become polarized between two ideologies The apologists for colonialism have emphasized the stimulus given to the indigenous economy by the introduction of foreign capital the underdevelopment theorists have turned this interpretation on its head and represented the relationship as being particularly in settler colonies such as Kenya and Zimbabwe one not of stimulus but of rape and plunder In this study Dr Mosley considers the economies of colonial Kenya and Southern Rhodesia and argues in the light of recently assembled statistical data that the truth is more complex than either of these simple

interpretations allows At the level of policy most white producers acknowledged that they could not afford to let white mate black in a very few moves they needed his cheap labour cattle and maize too much to wish to damage seriously the peasant economy that sustained them *Economic History Of Colonialism* Sadananda Choudhury,1979 This work deals exclusively with salt its manufacture monopoly trade administration taxation and the agitation against British Policy While doing so this book highlights certain hitherto unexplored aspects of the economic history of Orissa during the nineteenth century Here is a painstaking account of the steady and systematic destruction of the indigenous salt industry by a ruthless allied government The ensuing miseries of the masses at large and the manufacturers and trade in particular unveil the terrible face of colonialism Popular discontent soon grew into a tempestuous onslaught that shook the British empire The arrival of Mahatma Gandhi on the scene added a sense of direction to the agitation A well researched and documented treatise on an article of general consumption describing how it was made the tool of economic exploitation and eventually became the symbol of a people's craving for liberation *An Economic History of India 1707-1857* Tirthankar Roy,2021-09-09 This new edition of *An Economic History of Early Modern India* extends the timespan of the analysis to incorporate further research This allows for a more detailed discussion of the rise of the British Empire in South Asia and gives a fuller context for the historiography In the years between the death of the emperor Aurangzeb 1707 and the Great Rebellion 1857 the Mughal Empire and the states that rose from its ashes declined in wealth and power and a British Empire emerged in South Asia This book asks three key questions about the transition Why did it happen What did it mean How did it shape economic change The book shows that during these years a merchant friendly regime among warlord ruled states emerged and state structure transformed to allow taxes and military capacity to be held by one central power the British East India Company The author demonstrates that the fall of warlord ruled states and the empowerment of the merchant in consequence shaped the course of Indian and world economic history Reconstructing South Asia's transition starting with the Mughal Empire's collapse and ending with the great rebellion of 1857 this book is the first systematic account of the economic history of early modern India It is an essential reference for students and scholars of Economics and South Asian History **Colonialism in Africa 1870-1960: Volume 4** L. H. Gann,Peter Duignan,1969 A comprehensive study of recent African history examining the political social and economic effects of colonialism **The Cambridge Economic History of the Modern World: Volume 2, 1870 to the Present** Stephen Broadberry,Kyoji Fukao,2021-06-24 The second volume of *The Cambridge Economic History of the Modern World* explores the development of modern economic growth from 1870 to the present Leading experts in economic history offer a series of regional studies from around the world as well as thematic analyses of key factors governing the differential outcomes in different parts of the global economy Topics covered include human capital capital and technology geography and institutions living standards and inequality trade and immigration international finance and warfare and empire **The Cambridge Economic History of Latin America: Volume 1, The Colonial Era and the Short Nineteenth Century** V.

Bulmer-Thomas, John Coatsworth, Roberto Cortes-Conde, 2006 An indispensable reference work for anyone interested in Latin America's economic development *The Economy of Colonial America* Edwin J. Perkins, 1988 The colonial era is especially appealing in regard to economic history because it represents a study in contrasts The economy was exceptionally dynamic in terms of population growth and geographical expansion No major famines epidemics or extended wars intervened to reverse or even slow down appreciably the tide of vigorous economic growth Despite this broad expansion however the fundamental patterns of economic behavior remained fairly constant The members of the main occupational groups farmers planters merchants artisans indentured servants and slaves performed similar functions throughout the period In comparison with the vast number of institutional innovations in the nineteenth and twentieth centuries structural change in the colonial economy evolved gradually With the exception of the adoption of the pernicious system of black slavery few new economic institutions and no revolutionary new technologies emerged to disrupt the stability of this remarkably affluent commercial agricultural society Living standards rose slowly but fairly steadily at a rate of 3 to 5 percent a decade after 1650 Monetary sums are converted into 1980 dollars so that the figures will be relevant to modern readers For the most part this book describes the economic life styles of free white society The term colonists is virtually synonymous here with inhabitants of European origin Thus statements about very high living standards and the benefits of land ownership pertain only to whites One chapter does focus exclusively however on indentured servants and slaves This book represents the author's best judgment about the most important features of the colonial economy and their relationship to the general society and to the movement for independence It should be a good starting point for all undergraduate to scholar interested in learning more about the seventeenth and eighteenth centuries This popular study lauded by professors and scholars alike has been diligently revised to reflect the tremendous amount of new research conducted during the last decade and now includes a totally new chapter on women in the economy Presenting a great deal of up to date information in a concise and lively style the book surveys the main aspects of the colonial economy population and economic expansion the six main occupational groups family farmers indentured servants slaves artisans great planters and merchants women in the economy domestic and imperial taxes the colonial monetary system living standards for the typical family *Colonialism and Development* Michael A. Havinden, David Meredith, 2002-06-01 British colonial rule of the tropics is the critical background to contemporary development issues This study of Britain's economic and political relationship with its tropical colonies provides detailed analyses of trade and policy The considerations of past successes and failures elucidate current opportunities and developments No other book covers this broad topic with such detail and clarity **Colonialism, Institutional Change, and Shifts in Global Labour Relations** Karin Hofmeester, Pim Zwart, 2025-10-01 This book offers a view of shifts in labour relations in various parts of the world over a breathtaking span from 1500 to 2000 with a particular emphasis on colonial institutions How did growing demand for colonial commodities affect labour in the Global South How did colonial interference with land and labour

markets affect developments in labour relations And what were the effects of the introduction of colonial currencies The contributors to this volume answer those questions and more combining global perspectives with impressively detailed case studies

Global Economic History Tirthankar Roy, Giorgio Riello, 2024-09-05 Guiding the reader through the many guises of global economic history this book uncovers its key issues debates and subjects With contributions from leading scholars around the world it delves into the economic histories of Africa Europe Asia and the Americas from the 16th to the 20th centuries From the environment to The Great Divergence finance consumption trade industrialisation commodities and labour regimes it demonstrates the global nature of economic history and highlights how indispensable it is and has been Updated throughout this new edition boasts an expanded introduction and four new chapters on capitalism and political economy European empires and colonialism North Africa and the Middle East and the North American Economy A comprehensive introduction to global economic history this textbook provides students with a confident grasp of the field its key debates and essential issues

Colonialism, Environment and Tribals in South India, 1792-1947 Velayutham Saravanan, 2016-08-12 This book offers a bird's eye view of the economic and environmental history of the Indian peninsula during colonial era It analyses the nature of colonial land revenue policy commercialisation of forest resources consequences of coffee plantations intrusion into tribal private forests and tribal controlled geographical regions and disintegration of their socio cultural political administrative and judicial systems during the British Raj It explores the economic history of the region through regional and non market economies and addresses the issues concerning local communities Comprehensive systematic and rich in archival material this book will be useful to scholars and researchers in history especially those concerned with economic and environmental history

Wage Earners in India 1500-1900 Lucassen, Jan, Seshan, Radhika, 2022-01-01 The study of wage levels and the purchasing power of wages is often viewed as a specialized academic topic of little concern to the wider public This is far from being the case as this book demonstrates The study of wages opens up vistas of the daily life of the working people of their standards of living and therefore addresses questions of larger economic developments and unequal power relationships in a region Wage Earners in India 1500 1900 Regional Approaches in an International Context brings together several scholars young and veteran to study new data and reinterpret older data from a fresh methodological perspective to locate India within global economic systems more effectively This book identifies previously unused and unpublished material for the study of wages underlines the importance of wages as a source of income for Indians from early times demonstrates the trends in wages over the period under review stresses the need to take women into account for the reconstruction of household income
