*Economic Interdependence in Southern Africa, 1961-1989* ,1990      **Regionalization and Security in Southern Africa** N. Poku,2001-02-02 Once torn by ideological conflicts and the dominance of command economies Southern Africa is now moving towards economic liberalism and openness In general the ascendancy of market economics is acknowledged by its governments albeit with different degrees of enthusiasm Theoretically rich and empirically engaging this timely book offers a critical insight into the ensuing debate on regionalism and the process of regionalization in southern Africa      **South Africa's Destabilisation of Zimbabwe, 1980-89** J. Dzimba,1998-01-01 South Africa s Apartheid regime saw Zimbabwean independence and black majority rule in 1980 as a major threat to its interests security and regional hegemony John Dzimba explains how and why Pretoria sought to destabilise Zimbabwe and other front line states examining the successes and failures of destabilisation against Zimbabwe s economic and political vulnerabilities and attempted responses He shows why P W Botha s crisis ridden regime had to drop the policy in 1989      **Sustainable Development for a Democratic South Africa** Ken Cole,2014-04-08 After the multi racial elections in April 1994 South Africa has been set on a new course For a country emerging from 45 years of apartheid democracy should prove to be the vital first step on the path to sustainability and equitability There are sure to be pitfalls along the way but the potential offered by long awaited equality is enormous and realising that potential is the key to the country s chances of achieving sustainable development This book analyses the changes which are needed and which might result from the new political culture It discusses the policy requirements necessary for sustainable development and looks at how the economy regional integration land reform the law local government NGOs health care and AIDs prevention education and the media will all be affected drawing on the experience of other countries in Africa which have witnessed the transition to black majority rule Accessible to general readers as well as to specialists it provides a comprehensive overview of the issues involved and a basis for understanding what prospects the future holds for South Africa      Understanding World Order and Structural Change H. Abrahamsson,2015-12-22 Hans Abrahamsson assesses the current world order and structural change within an historical framework He analyzes the interaction of Pax American and the Bretton Woods system in the postwar period and its impact specifically on the development of Southern Africa The author also proposed an analytical model and a methodological framework for the study of the international political economy and its global and local implications Finally he addresses the circumstances behind the current opportunity for global change and the social forces and political action required in order to seize it      *Regional Blocs* A.S. Bhalla,2016-07-27 A topical study of regional arrangements covering ASEAN SAARC and APEC in Asia NAFTA and

MERCOSUR in the Americas SADC SACU and ECOWAS in Africa and the European Union EFTA and Eastern Europe The book argues that foreign direct investment is complementary to trade and most regional arrangements can create trade and induce growth so long as they remain open and non discriminatory But they could also become stumbling blocks to globalization The book demonstrates how US and EU trade policy will be crucial in shaping the world economy *Migration and Development in Southern Africa* K. T. Matlosa,2001 *African International Relations* Mark W. DeLancey,2019-03-13 African International Relations is a thoroughly revised and updated bibliography that contains annotated entries for international books and journal articles in the field of African international relations International Bibliography of Economics British Library of Political and Economic Science,1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences *The WTO, Economic Interdependence, and Conflict* Marc Lawrence Busch,Edward D. various issues confronting the Southern African Development Community SADC and its institutions such as HIV AIDS migration and xenophobia land grabbing and climate change and the role of the main external actors involved with the region including the United Nations the European Union the United States and China The book also looks at the Southern African Customs Union and Southern African Development Finance Institutions including the Development Bank of Southern Africa and Industrial Development Corporation and issues of gender and peacebuilding In doing so the book goes to the heart of analyzing the effectiveness of SADC and other regional organisation suggesting how region building in Southern Africa may be compared with similar attempts elsewhere in Africa and other parts of the world

**Regional Economic Institutions and Conflict Mitigation** Yoram Z. Haftel, 2012-05-21 Economic integration fosters regional peace

The Geopolitics Of Southern Africa Kent H Butts, Paul R Thomas, 2019-07-09 South Africa is the dominant force in an area that is of increasing strategic importance to the West yet few studies address the geopolitical pressures that dictate the course of events there Analyzing South Africa's base of power the authors argue that because South Africa's relationships with other states in Southern Africa are asymmetrical in nature the country has substantial economic and political leverage in the region Control of Southern Africa's transport infrastructure and the ability to project a conventional or surrogate military presence throughout the region for example gives South Africa the power to affect the economic and political stability of virtually all regional states Asymmetry also characterizes relationships at the global level Because the West depends upon South Africa for access to the region's strategic minerals for the security of the Cape oil route and for the country's ability to counterbalance the Soviet presence in Southern Africa South Africa exercises considerable influence over the African foreign policies of the superpowers Focusing on the major geopolitical variables affecting South Africa's ability to sustain power the authors analyze the economic and geographic factors that contribute to asymmetrical relationships and examine the pluralism that divides South African society Pretoria's successful foreign policy which has created a security corridor of new buffer states is given particular emphasis In addition the authors provide a detailed analysis of South Africa's minerals based economy and discuss the implications for regional stability of economic sanctions against South Africa Finally they outline a policy framework that takes regional economic political and geographic realities into account

**South Africa and Africa** Adebayo Adedeji, 1996 The New Democratic South Africa led by the African National Congress is in the process of making fundamental choices Will South Africa's future be one where the needs of the majority population are at last addressed A future where its hegemonic relations with neighbouring states are restructured in an equitable direction A future where South Africa stands up for its own interests and those of Africa Or alternatively will the new leadership become distanced from its popular roots and pushed into a globalizing perspective which marginalizes its own immiserated classes and an immiserated continent These are some of the inter related questions which the contributors to this volume South African African and Western scholars and participants in the process explore In a context which portrays the current state of Africa's

political economy and the legacy of apartheid within South Africa itself the political security and in particular economic dimensions of South Africa's present and possible future relations with the rest of the Continent are examined This book's wealth of concrete information cogent analysis and informed clarification of the choices available make it a valuable policy relevant contribution It also marks the start of ACDESS's ambitious research programme on this theme

**A Strategic Vision for Africa** Francis M. Deng, I. William Zartman, 2004-06-23 Increasingly marginalized since the end of the Cold War the continent of Africa is struggling to identify both the root causes and possible solutions to the maladies that continue to plague it The problems read like a laundry list of misrule in the aftermath of decolonization rampant political corruption internecine wars widespread disease underdevelopment and economic collapse In the early 1990s a group of statesmen academics and civil leaders from all over Africa gathered to put together a comprehensive plan to make the continent become less dependent on the rest of the world and prepare it to compete in the new globalizing economy Those who gathered to write what would come to be known as the Kampala Document envisioned an organization which would succeed where the Organization for African Unity OAU had failed This new organization the Conference on Security Stability Development and Cooperation in Africa CSSDCA will provide a forum for discussion of democratization security issues and sustainable development This new book by noted scholars Francis Deng and I William Zartman provides a mid course appraisal of the progress of the CSSDCA as well as charting its future in relation to other regional organizations With a preface by President Olusegun Obasanjo this book will undoubtedly become an important tool in understanding Africa's present and future Francis Deng is a nonresident senior fellow in the Foreign Policy Studies program at the Brookings Institution His books include *Masses in Flight The Global Crisis of Internal Displacement* Brookings 1998 with Roberta Cohen *The Forsaken People Case Studies of the Internally Displaced* Brookings 1998 co edited with Roberta Cohen I William Zartman is Jacob Blaustein Professor of International Organizations and Conflict Resolution and Director of African Studies at the Paul H Nitze School of Advanced International Studies

*Political Economy Of The Brics Countries, The (In 3 Volumes)*, 2020-03-03 Over the past 20 years social scientists government officials and investors have expressed mounting interest in the BRICS countries which include Brazil Russia India China and South Africa These countries are widely viewed as both key actors in the global economy and important regional powers The Political Economy of the BRICS Countries is a three volume set that aims to address various crucial issues regarding these countries Volume 1 analyzes whether economic growth in the BRICS countries has been broad based and promoted equitable economic and social outcomes The authors examine specific dimensions of growth in these five economies that constrain their ability to act effectively and cohesively in international affairs Volume 2 considers how the BRICS have affected global economic governance and the international political economy Volume 3 provides various approaches to economic informality in the BRICS Moreover the chapters deal with several connections between informality and important political economic and institutional phenomena such as
