New York Public Library. Research Libraries,1981      *Economic Transition in Eastern Europe* Michael Ellman,Egor  
Timurovich Gaïdar,Grzegorz W. Kołodko,1993-01-01 The transition from state socialism to modern capitalism in Eastern  
Europe is one of the main challenges facing economics in the 1990s Combining the detached analysis of a Western specialist  
with the detailed knowledge of two Eastern European academics Economic Transition in Eastern Europe avoids a priori  
assumptions and superficial description to give a rigorous empirical analysis of the process of transition Professor Ellman  
begins with a discussion of the general aspects of transition He explains the difference between the current transition and  
the former reform and examines the reasons for the collapse of the old system He also discusses different approaches to  
transition and the economic issues raised Dr Gaidar presents an analysis of the economic catastrophe inherited by the  
independent Russian government and the measures needed to stabilize the situation Professor Kolodko s contribution  
examines the stabilization policy pursued in Poland since 1990 He explains its aims and results and considers the future of  
the Polish economy The authors provide up to date empirical material and combine this with surveys of the relevant  
theoretical literature The book offers students academics and professionals a valuable and informed insight into the  
momentous economic transition currently under way in Eastern Europe      **A London Bibliography of the Social
