Economic Inequality Who Gets What In Australia:

Economic Inequality Frank Stilwell,1993-01-01 Who Gets What? Frank Stilwell,Kirrily Jordan,2007-09-17 This 2007 book addresses important contemporary concerns about social justice It presents detailed economic evidence but analyses it in a manner that is engaging and readily accessible to the non specialist reader Who Gets What examines what has been happening to incomes and wealth in Australia what causes increased economic inequality and the possibility of creating a more egalitarian society It looks at who is rich which social groups are still in poverty and the policies that could redistribute income and wealth more effectively **Australia in the Global Economy** Barrie Dyster,David Meredith,2012-09-28 With the global economy in crisis there is great need for a deeper understanding of Australia s economic place in the world both today and throughout history This new edition of Barrie Dyster and David Meredith s highly successful book is fully updated and includes three new chapters covering until the end of 2011 The book explores the evolution of Australia s position in the global economy from the start of the twentieth century through to the present day examining the international and local economies of five key historical periods With a focus on trade foreign investment and immigration the book considers periods both of growth and decline By using historical perspectives to explain the present and give direction to the future this unique book presents a rich account of Australia s position within a global economic context It is an essential resource for students and lecturers of Australian economic history Who Gets What? Analysing Economic Inequality in Australia Frank J. B. Stilwell,Kirrily Jordan,2014-05-14 Addresses important contemporary concerns about social justice It presents detailed economic evidence but analyses it in a manner that is engaging and readily accessible to the non specialist reader Who Gets What examines what has been happening to incomes and wealth in Australia what causes increased economic inequality and the possibility of creating a more egalitarian society It looks at who is rich which social groups are still in poverty and the policies that could redistribute income and wealth more effectively *Property, Institutions, and Social Stratification in Africa* Franklin Obeng-Odoom,2020-03-26 In this book Franklin Obeng Odoom seeks to debunk the existing explanations of inequalities within Africa and between Africa and the rest of the world using insights from the emerging field of stratification economics Using multiple sources including archival and historical material and a wide range of survey data he develops a distinctive approach that combines traditional institutional economics such as social protection and reasonable value property and the distribution of wealth with other insights into Africa s development While looking at the Africa wide situation Obeng Odoom also analyses the experiences of inequalities within specific countries he primarily focuses on Ghana while also drawing on experiences in Botswana and Mauritius Comprehensive and engaging *Property Institutions and Social Stratification in Africa* is a useful resource for teaching and research on Africa and the Global South **Making Social Policy in Australia** John Wiseman,2020-09-28 Social policy affects everyone and is everyone s business Even if you do not receive welfare payments directly or indirectly you benefit from government services and funding Yet how are policies and

programs actually developed Can social policy help us create a more just society This book offers an introduction to the theory and practice of social policy making in Australia Using detailed case studies it covers the ideas and values which inform the social policy process how different groups can influence policy making how social policy making takes place in social and political organisations the political nature of policy making Making Social Policy in Australia is the most up to date introduction to Australian social policy currently available and is essential reading for students and practitioners in human and community service work and government Tony Dalton Mary Draper and John Wiseman lecture in Social Work and Social Sciences at Rmit Melbourne Wendy Weeks lectures in Social Work and Social Policy at the University of Melbourne and is author in collaboration of Women Working Together Lessons from feminist women s services Each of the authors has been involved in policy debate and development for many years *Australia's Unintended Cities* Richard Tomlinson,2012-11-23 Australia s Unintended Cities identifies and researches housing and housing related urban outcomes that are unintended consequences of other policies the structure of incentives and disincentives for the housing market and governance arrangements for metropolitan areas and planning and service delivery It is argued that unintended consequences have a greater impact on the housing market and Australia s cities and their future than policies directly concerned with housing urban policy and metropolitan strategic planning The book will inform policy makers including government officials consultants and politicians It will also be used by academics and students in various areas of urban policy such as housing and urban planning as well as environment public policy and economics *Contemporary Politics in Australia* Rodney Smith,Ariadne Vromen,Ian Cook,2012-02-02 A diverse range of experts provide a comprehensive introduction to current theories debates and research in Australian political science *Challenging the Orthodoxy* Susan K. Schroeder,Lynne Chester,2013-11-19 Political economy focuses on issues that are fundamental to individual and collective well being and rests on the proposition that economic phenomena do not occur in isolation from social and political processes One leading Australian political economist is Frank Stilwell Highlights of his work include concerns with the creation and use of wealth inequalities between rich and poor the spatial implications of economic growth and the tensions between economic growth and the environment Stilwell has been especially prominent in developing alternative economic policies with seminal contributions to understanding the radical shift in Australian economic and social policies since the early 1980s He has also been a leader in the teaching of political economy to many cohorts of first year university students This collection spanning these themes honours Stilwell s contribution to Australian political economy after more than 40 years teaching at the University of Sydney The book provides not only an opportunity to appreciate his contribution but also a greater understanding of these themes which remain of crucial contemporary relevance *Land Of Plenty* Mark Davis,2008-09-01 There is an Australian dream that is collective It goes to the roots of what it means to be Australian since it s imprinted in Australia s history the collective acts of its peoples their attitudes their gestures what and how they eat how they spend their

leisure time and the way such things reflect upon and derive from who they are In The Land of Plenty Mark Davis argues that this dream has been forsaken Over the past few decades Australians have felt the ground shift beneath their feet Many people are asking why Australia is no longer the egalitarian place it once was While the airwaves sing and newspaper front pages burst with news of how prosperous Australians are many people wonder why they are working harder and longer for so little while important social agendas have fallen by the wayside The Land of Plenty is at once a devastating record of the changes that have taken place in Australian society since the 1980s and a goldmine of ideas for change Insightful provocative and thoroughly original The Land of Plenty is a manifesto for our times **Australian Public Policy** Chris Miller, Lionel Orchard, 2016-02-17 Australian public policy engages with the values and dilemmas of progressive public policy in Australia bringing together leading authors to explore a wide range of issues which challenge and extend current thinking about Australian public policy Food Poverty and Insecurity: International Food Inequalities Martin Caraher, John Coveney, 2015-10-23 This volume is concerned with food poverty and action on food in security The context is a global one as the developed world faces a problem with overconsumption and chronic diseases the developing world is addressing the double burden of hunger and over consumption Even in the developed world nation states are facing the rise of modern malnutrition which is over consumption but also the re emergence of hunger as there are growing levels of poverty and inequality due to the financial crises Food insecurity is in many people s minds associated with hunger and while this is true the modern food system has introduced new complexities to food insecurity with the growth of micro nutrient inequalities Hunger and obesity are not being faced by two different groups but often the same group or cohort These are features of modern malnutrition that are often not recognized A critical examination of food poverty and food security is undertaken with a view to clarifying taken for granted assumptions in present discourses The book addresses food charity and the rise of solutions such as foodbanks as appropriate social responses The final chapters explore the solutions from real life situations The concluding chapter from the editors draws together the issues and locates solutions within a food policy framework of the total food system The various definitions of food insecurity will be examined Hunger and its modern manifestations hunger and obesity is another focus with particular explorations of developed and developing countries experiences Some of the chapters cover how food poverty insecurity is being addressed and provide examples of work in progress **Inclusive Growth in Australia** John Buchanan, 2020-07-16 Inclusive Growth in Australia overturns two decades of assumptions that social policy is wasteful and a source of dependency It reflects a global resurgence of the understanding that an active and effective social policy regime is vital not only for a flourishing society but also for a strong economy It explains this new paradigm of inclusive growth and shows how it can be implemented in Australia Inclusive growth dismantles the idea that social development will automatically trickle down from untrammelled market based growth Rather growth must be managed so that it is employment centred broad based across sectors and with a social security system promoting sustainability and

equality of opportunity The editors argue that productivity is nearly everything when it comes to raising living standards So while social policies will be about goals other than the economy they must demonstrate their compatibility with an economic growth strategy With contributions from leading national and international experts in the field including Marian Baird Grant Belchamber Gerald Burke Saul Eslake Roy Green and Peter Whiteford *Inclusive Growth in Australia* shows that welfare state spending is as much an economic investment as a measure of social protection Written for policy makers industry and NGOs as well as students *Inclusive Growth in Australia* locates Australian economic and social policy within the most important emergent themes shaping international debate Fair Share Stephen Bell, Michael Keating, 2018-02-26 Winners and losers it s the brutal reality in most advanced economies Increased inequality economic stagnation and financial instability are the consequences of technological change globalisation and the massive increase in financial systems Governments struggle to deal with the unrest this creates and to resolve competing claims for the spoils of growth Australia s egalitarian traditions and past reforms have served the country well but the risks of weakening demand stagnating living standards and structural unemployment are growing and require urgent attention Does Australia have the fiscal and political capacity to achieve a reform agenda Can the Australian political system manage these vital changes Will voters support them *Fair Share* ignites the necessary debate to instigate action *The Journal of Australian Political Economy* ,2007 **Jacaranda Key Concepts in VCE Economics 1 Units 1 and 2 12e learnON and Print** Richard Morris, 2023-01-10 This combined print and digital title provides 100% coverage of the VCE Study Design for Economics The textbook comes with a complimentary activation code for learnON the powerful digital learning platform making learning personalised and visible for both students and teachers Students can start preparing from lesson one with past VCAA exam questions embedded in every lesson Practice customisable SACs available for all Units to build student competence and confidence **Captured** Phillip Toner, Michael Rafferty, 2024-08-01 Four decades ago faced with a series of economic political and social crises business and government leaders in Australia and many other nations were convinced by a well organised ideological insurgency of the need for what at first was presented as a series of technical changes in economic policy However neoliberalism quickly became a revolutionary agenda for re ordering the social democratic state *Captured* How neoliberalism transformed the Australian state directs attention to the central role of state power not just to remake markets but also to remake a broad swathe of political life social policy and citizenship In seeking to undermine the power of organised labour and unleash market capitalism neoliberalism promised a surge of competition productivity and common prosperity For the wealthy few this has indeed been an historically unprecedented time of capital accumulation but for most the results have been profoundly disappointing Today neoliberalism is in crisis We are living through an age of great instability disillusionment and despair Inequality of income and wealth has been rising a majority of workers have experienced long term declining relative living standards corporate political and market power has reached historic levels and younger generations are increasingly giving

up the expectation of attaining the living standards of their parents The status of prevailing neoliberal ideas and policy is in increasing disarray But without a coherent understanding of the ideas and interests driving neoliberalism many people have turned to incoherent populism for an explanation and salvation and failing that even to forms of nihilism Disillusion and anxiety constitute the dominant mood among the economic and policy elites within Australia and internationally Captured presents a series of case studies from leading public policy experts building critical new insights into the malaise that has characterised the neoliberal era This book tells the story of how a small group of economists and lobby groups with a universalising agenda of radical change used neoliberalism to transform the state and of the destructive effects of those policies on everyday life Captured includes critical accounts of neoliberal policy and speculates on the likely future of neoliberalism as a form of political power and governmentality in Australia *Economics* Douglas McTaggart, Christopher Findlay, Michael Parkin, 2015-05-20 High quality engaging content for students ultimate flexibility for educators The seventh edition of this benchmark Australian text continues to offer students a comprehensive and relevant introduction to economics whilst offering educators the ability to customise and deliver content your way Economics 7th edition provides a streamlined approach to study and recognises the difficulties some students may face in comprehending key concepts By leaving the more technical content and application until later students can enjoy the more exciting policy material from the beginning and engage with the content early Through compelling examples clear explanations and the latest instructive on line resources the text draws students into the content and reinforces learning through practice and solving problems which are relevant to them The authors train students to think about issues in the way real economists do and learn how to explore difficult policy problems and make more informed decisions by offering a clear introduction to theory and applying the concepts to today s events news and research Rethinking Care in Education Babak Dadvand, 2024-11-27 This book examines some of the most pressing challenges facing care equity and inclusion in education in the age of globalising neoliberal capitalism Drawing on empirical data collected using a case study of a government secondary school in a low socio economic status suburb in Melbourne Australia this book interrogates the impacts of dominant performative policies and practices on students who have more complex needs or are from socio economically marginalised backgrounds It reviews these policies and practices which are increasingly driven by the discourses of learning achievement and outcomes measured via high stakes testing This book examines how these developments have created in visible geographies of exclusion for marginalised students in mainstream schools It uses notions of belonging ethics of care and emotional labour as theoretical tools to provide critical analyses of the practices that differentiate and divide among students This book s narrative approach is built around recounting deep stories of the participants their dilemmas and predicaments it synthesises intimate narrative accounts with research informed analysis and discussions Australian Politics at a Crossroads Matteo Bonotti, Narelle Miragliotta, 2024-02-29 As the 21st century proceeds apace Australia faces new and old challenges both domestically and

internationally These include managing complex governance issues preventing democratic fracture balancing an ever shifting geopolitical strategic order addressing the recognition and identity demands of marginalised groups and responding to crises and urgent policy challenges such as climate change Bonotti Miragliotta and the other contributors to this volume analyse and evaluate the challenges which confront Australia by locating them in their national and comparative context The various contributions reveal that while these challenges are neither novel nor unique to Australia the way in which they manifest and Australia s responses to them are shaped by the country s distinctive history culture geography location and size The chapters offer a cutting edge analysis of these pressing challenges faced by Australia and offer reflections on how to address them The book is a valuable resource for scholars and students of Australian politics and of comparative politics in a global perspective
