Economic Strategy Labour Party Hc:

The Labour Party and the Planned Economy, 1931-1951 Richard Toye, 2003 An exploration of Labour's 1931 pledge to create a planned socialist economy and the reasons for its failure to do so In the general election of 1931 the Labour Party campaigned on the slogan Plan or Perish The party's pledge to create a planned socialist economy was a novelty and marked the rejection of the gradualist evolutionary socialism to which Labour had adhered under the leadership of Ramsay MacDonald Although heavily defeated in that election Labour stuck to its commitment The Attlee government came to power in 1945 determined to plan comprehensively Yet the aspiration to create a fully planned economy was not met This book explores the origins and evolution of the promise in order to explain why it was not fulfilled RICHARD TOYE lectures in history at Homerton College Cambridge

The Labour Party in Opposition, 1970-1974 Patrick Bell, 2004 This book shows how the Labour Party responded to electoral defeat in 1970 and to what extent its political and policy activity in opposition was directed to the recovery of power at the following general election

Labour's Economic Policies 1974-1979 Michael J. Artis, 1991

A neoliberal revolution? Hugh Pemberton, James Freeman, Aled Davies, 2024-07-09 This book examines the Thatcher government's attempt to revolutionise Britain's pensions system in the 1980s and create a nation of risk taking savers with an individual stake in capitalism Drawing upon recently released archival records it shows how the ideas motivating these reforms journeyed from the writings of neoliberal intellectuals into government and became the centrepiece of a plan to abolish significant parts of the UK's welfare state and replace these with privatised personal pensions Revealing a government that veered between political caution and radicalism the book explains why this revolution failed and charts the malign legacy left by the evolutionary changes that ministers salvaged from the wreckage of their reforms The book contributes to understanding of policy change Thatcherism and international neoliberalism by showing how major reforms to social security could reflect neoliberal thought and yet profoundly disappoint their architects

Cognitive Rhetoric Sam Browse, 2018-10-15 This book sets out a framework for investigating audience responses to political discourse It starts from the premise that audiences are active participants who bring their own background knowledge and political standpoint to the communicative event To operationalise this perspective the volume draws on concepts from classical rhetoric alongside contemporary research in cognitive stylistics and cognitive linguistics including schema theory Text World Theory Cognitive Grammar and mind modelling amongst others It examines the role played by the speaker's identity the arguments they make and the emotions of the audience in the often critical reception of political text and talk using a diversity of examples to illustrate this three dimensional approach from political speeches interviews and newspaper articles to more creative text types such as politicised rap music television satire and filmic drama The result of this wide ranging application is a holistic and systematic account of the rhetorical and ideological effects of political discourse in reception

The British left and the defence economy Keith Mc Loughlin, 2022-03-29 Forty years before COVID 19 socialists in Britain campaigned for

workers to have the right to make socially useful products from hospital equipment to sustain the NHS to affordable heating systems for the impoverished elderly This movement held one thing responsible above all else for the nation's problems the burden of defence spending In the middle of the Cold War the left put a direct challenge to the defence industry the Labour government and trade unions The response it received revealed much about a military industrial state that prioritised the making and exporting of arms for political favour and profit Looking at peace activism from the early 1970s to Labour's landslide defeat in the 1983 general election this book examines the conflict over the cost of Britain's commitment to the Cold War and asserts that the wider left presented a comprehensive and implementable alternative to the stark choice between making weapons and joining the dole queue

The London Underground Public Private Partnership

1997-2010 Stephen Glaister, 2025-01-09 This book provides an inside account of the intense battle between London Mayor Ken Livingstone Chancellor Gordon Brown and Prime Minister Tony Blair over control of the London Underground and the failed implementation of the UK's largest Private Finance Initiative and Public Private Partnership deal Despite spending over 450 million on consultancy and five years of government effort the project collapsed after just seven of its intended 30 years Using documents released under confidentiality the book details New Labour's persistence even as the plan fell apart under scrutiny It reveals personal struggles political spin and character assassinations while analysing technical issues and expert predictions of failure The book offers lessons on large scale public service procurement comparing private and public ownership efficient borrowing consultant use and the importance of scrutiny and accountability

The Labour Party in Crisis Paul Whiteley, 2018-12-07 First published in 1983 This study draws upon empirical findings on party activists members and voters It examines the origins and nature of Labour's crisis in the 1980s showing how the split leading to the formation of the SDP was merely a manifestation of deeply rooted problems which went back many years It argues that this crisis had three distinct but interrelated aspects first the ideological schism within the party which had grown in intensity over time second the electoral crisis which produced the worst electoral performance at the 1983 general election since 1918 and third the membership crisis arising from the fact that the party had been losing more than 11 000 individual members per year on average since 1945 Using elite and mass surveys the book demonstrates the link between these crises and Labour's policy performance in office set against a background of rapid economic decline

Parties, Elections, and Policy Reforms in Western Europe

Kerstin Hamann, John Kelly, 2010-08-30 This book provides a comparative assessment of social pacts between governments labor unions and employer organizations in Western Europe Using a dataset covering 16 European countries as well as eight in depth country case studies the authors argue that governments choice of social pacts or legislation is less influenced by economic problems but is strongly influenced by electoral competition

The Treasury and Social Policy N. Deakin, R. Parry, 2000-01-28 What is the power of the Treasury in controlling the policies and development of the welfare state Drawing on in depth interviews with officials of the Treasury and the spending departments this book traces

the developing role of the Treasury in setting social policy especially under Gordon Brown's chancellorship

The Making of Eurosceptic Britain Chris Gifford, 2017-11-30 Offering a radical interpretation of a major political issue Chris Gifford moves beyond existing narrative and institutional accounts of Britain and Europe to present a theoretically coherent and unique perspective on this troubled relationship He acknowledges that populist Euroscepticism has become fundamental to constituting Britain and Britishness in a post imperial context despite membership of the European Union Organized chronologically this interesting study provides lucid overviews of key periods in the British European Union relationship It combines political economy with political identity to illustrate how forms of Euroscepticism have become embedded across the British political class and culture The book focuses not on outlining history or the impact of British integration on British institutions but on the ways in which elite behaviour towards European integration should be analyzed as practices and discourses that use Euroscepticism to construct Britain and distinctive British political projects

Managing the Economy, Managing the People Jim Tomlinson, 2017-09-29 This study offers a distinctive new account of British economic life since the Second World War focussing upon the ways in which successive governments in seeking to manage the economy have sought simultaneously to manage the people to try and manage popular understanding of economic issues In doing so governments have sought not only to shape expectations for electoral purposes but to construct broader narratives about how the economy should be understood The starting point of this work is to ask why these goals have been focussed upon and differentially over time how they have been constructed to appeal to the population and insofar as this can be assessed how far the population has accepted these narratives The first half of the book analyses the development of the major narratives from the 1940s onwards addressing the notion of austerity and its particular meaning in the 1940s the rise of a narrative of economic decline from the late 1950s and the subsequent attempts to modernize the economy the attempts to roll back the state from the 1970s the impact of ideas of globalization in the 1990s and finally the way the crisis of 2008 onwards was constructed as a problem of debts and deficits The second part of the book focuses on four key issues in attempts to manage the people productivity the balance of payments inflation and unemployment It shows how in each case governments sought to get the populace to understand these issues in a particular light and shaped strategies to that end

Ten Years of New Labour M. Beech, S. Lee, 2015-12-04 Evaluates the Blair government from 1997-2007 conducting high quality research into aspects of British politics with particular emphasis on parties policies and ideologies With contributions from key figures in the field further topics include New Labour's record on social policy defence policy constitutional reform and public expenditure

Labour's European Dilemmas R. Broad, 2001-09-12 For thirty years the Labour Party was wracked by conflict over membership of the European Community swinging back and forth pro and anti when in and out of office It was a conflict that helped keep the party in opposition for eighteen years until it abandoned its socialist basis under New Labour The author as journalist and European Union official knew many of the major and minor players and brings this

experience to bear **Labour's Economic Strategy** Labour Party (Great Britain),1969 **Parliamentary Debates** New Zealand. Parliament,1978-06-14 **No solution** Stuart C. Aveyard,2016-10-22 Utilising a wide range of archival correspondence and diaries this monograph reconstructs the 1974-79 Labour government's policies in Northern Ireland. It covers the collapse of power sharing in May 1974, the secret dialogue with the Provisional IRA during the 1975 ceasefire, the acquiescence of Labour ministers in continuing indefinite direct rule from Westminster, efforts to mitigate conflict through industrial investment, a major shift in security policy emphasizing the police over the army, the adaptation of republicans to the threat of these new measures and their own adoption of a Long War strategy. In so doing it sheds light on the challenges faced by British ministers, civil servants, soldiers and policemen and the reasons why the conflict lasted so long. It will be a key text for researchers and students of both British and Northern Irish politics.

Disrupting the Speculative City Amy Horton, Joe Penny, 2024-09-24 In 2011 police violence triggered an uprising in Tottenham that laid bare decades of neglect and state violence against the area's racialised communities. In its aftermath local leaders and corporate developers devised an aggressive redevelopment agenda that would have demolished the homes, workspaces and communities of thousands of council tenants, private renters and traders. Their plan was to transform Tottenham and surrounding areas from a diverse working class place to a space for wealthy investors, residents and consumers. Available as a free open access download and in print *Disrupting the Speculative City* tells the story of how a community coalition defeated one of the most ambitious programmes of state-led gentrification in London. Known as the Haringey Development Vehicle (HDV) it would have been executed through an undemocratic and speculative joint venture between the local council and the notorious international developer Lendlease. Thanks to the political creativity, tactical nous and extraordinary commitment of ordinary people the HDV was scrapped by the local council in 2018. Drawing on the accounts of those at the heart of the struggle and analysing crucial developments in property investment, local statecraft and grassroots organising, this book explores a significant and inspirational success for campaigners in London where social cleansing has become the default outcome of redevelopment. Praise for *Disrupting the Speculative City* This book successfully combines rigorous research and political clarity. Through their chronicle of an important urban struggle in North London, the authors speak to broader issues about power, politics and development. The book will be of interest to students and scholars of urban planning, urban geography and social movements, as well as to anyone trying to understand the contradictions of urbanism today. David Madden, LSE. This important book narrates how a grassroots campaign successfully fought off one of the most appalling mega-gentrification schemes in London. It makes clear that the fight was not simply political: Momentum versus New Labour in Haringey, but a coming together of a broad coalition of people who used practices and tactics that will be of real value in other anti-gentrification struggles, locally, nationally and globally. Loretta Lees, Boston University. *Disrupting the Speculative City* represents an inspirational major contribution to urban regeneration scholarship in relation to understanding how and why grassroots activists were able to

successfully mount the StopHDV campaign in north London Paul Watt LSE *John Smith* Mark Stuart, 2005 When John Smith died in May 1994 a nation mourned for an immensely popular politician who would have gone on to become a great Labour Prime Minister Now over ten years later his family have granted Mark Stuart their full cooperation and unlimited access to John Smith's private papers to write the definitive authorised account of his life Stuart tells of Smith's strict Presbyterian upbringing and his youthful rebellion at Glasgow university where he started his lifelong friendship with Donald Dewar through his stellar career at the Scottish bar and onto his political journey to become the most popular Labour leader of modern times But the biography also reveals a darker side to personality his heavy drinking and explosive temper which threatened to ruin his marriage Peppered with insights and anecdotes culled from over three years of research and interviews Mark Stuart has written the most important political biography of 2005 *The British Government and the City of London in the Twentieth Century* Ranald Michie, Philip Williamson, 2004-10-21 The relationship between the British government and the City of London has become central to debates on modern British economic political and social life For some the City's financial and commercial interests have exercised a dominant influence over government economic policy creating a preoccupation with international markets and the strength of sterling which impaired domestic industrial and social well being Others have argued that government seriously constricted financial markets jeopardising Britain's most successful economic sector This collection of essays was the first book to address these issues over the entire twentieth century It brings together leading financial and political historians to assess the government City relationship from several directions and by examination of key episodes As such it will be indispensable not just for the study of modern British politics and finance but also for assessment of the worldwide problem of tensions between national governments and international financial centres
