Economic Transformation Of Eastern Europe Views From Within:

The Economic Transformation of Eastern Europe Bernard S. Katz, Libby Rittenberg, 1992-10-26 This volume provides an up to date account of how the process of economic transition in Eastern Europe is unfolding from the point of view of Eastern European economists assessing their native economies The authors have personally experienced the frustrations of the previous Stalinist system of central planning and public ownership as well as the difficulties and pitfalls of designing new systems based on markets and private ownership The book focuses on the three countries of Eastern Europe leading the reform efforts Czechoslovakia Hungary and Poland and points out similarities and differences in their reform strategies Although the stories of economic change in Eastern Europe have dominated news headlines the real challenges of designing and maintaining viable economies are just beginning The analysis in this volume will be of interest to those in the academic and policy making communities

Economic Transformation in Eastern Europe and East Asia Herbert Hax, Wolfgang Klenner, Willi Kraus, Tomoo Matsuda, Takafusa Nakamura, 2012-12-06 The economic transformation taking place in Eastern Europe and Asia is in particular a challenge for Japan and Germany because these two states as the immediate neighbors of the developing regions are directly affected and also because they are the strongest economic powers in their regions and have the necessary potential to influence developments there Japan and Germany are affected in many ways both positively and negatively Should the economic and social transformation run into difficulties leading to economic and political chaos perhaps even to armed conflicts then economy and social fabric of the prosperous neighbors would doubtlessly suffer In the past Japan and the South East Asian region have already experienced how economic problems in China caused millions of Chinese to seek their fortunes in other countries An economic and political destabilization of China would today probably have even greater effects on migration flows Similar effects can be expected in Europe if the transformation process in Eastern Europe should fail But even less dramatic developments in Eastern Europe and East Asia can have deleterious consequences for Germany and Japan Both nations are linked closely to the transforming economies near them though at a fairly low level A reduction in trade with them a refusal to service debts and other economic frictions ensuing out of economic and political troubles would of necessity hamper the prosperity of Japan and Germany A successful transformation process would without doubt benefit all economic partners to a considerable extent

Economic Transformation in Eastern Europe and the Distribution of Income Anthony Barnes Atkinson, John Micklewright, 1992-10 This book first published in 1992 examines the distribution of income under Communism in Eastern Europe and its implications for economic transformation

The American Bibliography of Slavic and East European Studies Pat Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology

Central and Eastern Europe Mary E. Lassanyi, 1993 Work

Employment and Transition Al Rainnie, Adrian Smith, Adam Swain, 2005-07-28 Since the late 1980s the experiences of work and employment in the former communist world have been profoundly transformed Work Employment and Transition brings together a series of essays by leading international scholars which highlights the varied and complex forms that work and employment restructuring are taking in the post soviet world and makes important theoretical contributions to our understanding of these transformations

Economic Transformations in East and Central Europe David F. Good, 1994-09-22 This book provides an invaluable guide to understanding the current problems of this volatile region demonstrating that the area s economic history over the last century has vital legacies for its economic future

The Czech Republic and Economic Transition in Eastern Europe Jan Svejnar, 2013-10-22 The Czech Republic and Economic Transition in Eastern Europe is the first in depth comparative analysis of the Czech Republic s economic transition after the fall of the Communist bloc Edited by Jan Svejnar a principal architect of the Czech economic transformation and Economic Advisor to President Vaclav Havel the book poses important questions about the Republic and its partners in Central and Eastern Europe The thirty five essayists describe the country s macroeconomic performance its development of capital markets the structure and performance of its industries its unemployment household behavior and income distribution and the environmental and health issues it faces In this in depth comparative analysis of the Czech Republic s economic transition an international team of thirty five economists examine the Republic and its partners in Central and Eastern Europe Important questions and issues permeate the essays For example prior to 1939 the Czech Republic possessed the most advanced economy in the region is it capable of reestablishing its dominance Relative to its neighbors the Republic ranks especially high on some transition related performance indicators but low on others What economic effects are related to the 1993 dissolution of the Czech and Slovak governments And what can be learned by comparing the economic outcomes of two countries that shared legal and institutional frameworks Data describe the country s macroeconomic performance its development of capital markets the structure and performance of its industries its unemployment household behavior and income distribution and the environmental and health issues facing it Its most important contributions are its clarifications of the transition process The authors included in Transforming Czechoslovakia combine the best available data and techniques of economic analysis to assess the replacement of the inefficient but internally consistent central planning system with a more efficient market system These authors among whom are central European economic analysts senior U S economists and Czechoslovakian professors and economic researchers discuss the country s macroeconomic performance its development of capital markets the structure and performance of its industries its unemployment household behavior and income distribution and the environmental and health issues facing it The essays vary between presentations of history and policy and technical examinations of data Together they offer the most comprehensive and detailed assessment of the country s economic transformation in print This book is important because its essayists compile results and reach conclusions that are

broad and credible The empirical data were gathered on the ground and have been subjected to advanced methodologies including game theory industrial organization and Granger Sims causality *Special Reference Briefs*, 1983 **Human rights and change in Eastern Europe** John C. Whitehead, 1988 **Towards a Market Economy in Central and Eastern Europe** Herbert Giersch, 2012-12-06 In 1990 the countries of Central and Eastern Europe began or accelerated their transition to a market economy This book addresses among others the following questions I What are the fundamental causes of the collapse of the Soviet type economic systems II What major steps could be taken to make the transition process to a market economy irreversible and less painful III What can be learned from West Germany's outstandingly successful postwar economic reforms IV Is the issue of gradualism versus shock therapy still relevant V If macroeconomic stability is a precondition what is the role of privatization deregulation and trade liberalization VI What is the optimal sequence of steps in privatization deregulation liberalization and currency convertibility VII How quickly may privatization be achieved VIII Is the USSR really a special case and if so in what respects and for what fundamental reasons IX How long in the transition period may the initial phase of disorder chaos and decline last X What can be learned from the experiences gathered so far in the major ex communist countries *Political And Economic Transformation In East Central Europe* Hanspeter Neuhold, Peter Havlik, Arnold Suppan, 2019-05-28 This is an examination of the progress that Croatia the Czech Republic Hungary Poland Slovakia and Slovenia have made in the process of transformation since the collapse of the Soviet bloc Looking at issues such as democratization the transition to a market economy and the new orientations in foreign policy this book provides a report of the Crisis and Reform in Eastern Europe Ferenc Feher, 2020-02-13 Communism in Eastern Europe is in crisis Its dimensions are social and economic its manifestation is political This volume a collection of essays by leading authorities describes the symptoms of the crisis diagnoses the causes of the malady and offers alternative scenarios for therapy A unique dimension of this collection is its avoidance of one dimensional explanations The contributors approach the subject from very different angles and start from very distinct sociopolitical premises The volume includes original accounts of unexplored aspects of East European communism as well as classic interpretations of the economic crisis and social stagnation that characterize the area Contributions not only examine the sociopolitical behavior of the ruling apparatus but also analyze its strategies political culture and the opposition Both the professional and the general reader seeking more information about Eastern Europe will find this volume an extensive in depth portrait of the current situation in what many observers predict may develop into the major area of tension in post World War II Europe Economic Reforms in Eastern Europe and Prospects for the 1980s Sam Stuart, 2014-05-09 Economic Reforms in Eastern Europe and Prospects for the 1980s focuses on the institution of economic reforms and prospects in Eastern Europe including manpower availability scarce and expensive energy and raw materials deficiency of technological innovation and inflexibilities in management The selection first offers information on the economic reforms in Bulgaria Romanian economic reforms and the economic reforms in Czechoslovakia

Discussions focus on the problem and its resolution evaluation of the Bulgarian model Romanian economic development and principles contained in the directives The text then examines the reform of the system of economic management in Poland economic reforms and consumers in Eastern Europe and the prospects for the 1980s of the economic reforms in Bulgaria and Romania The publication takes a look at the economic prospects for the 1980s of Czechoslovakia and the German Democratic Republic Topics include factors impeding economic growth overemployment increases in consumer good prices welfare of consumers and decreasing economic growth The book further elaborates on the economic prospects for the 1980s of Hungary and Poland and the effects of energy development on East European economic prospects The selection is a vital reference for economists and readers interested in the prospects for the 1980s of the economic reforms in Eastern Europe

Public Opinion, Party Competition, and the European Union in Post-Communist Europe R.

Rohrschneider, S. Whitefield, 2016-04-30 Investigating public scepticism in Eastern Europe towards the EU this book examines how citizens and parties responses to integration have been affected by economic social institutional and historical circumstances Focusing on the importance of normative and instrumental bases of support and opposition for integration provides great insight

Economic Reform and Structural Adjustment in East European Industry Mr. Eduardo

Borensztein, Mr. Jonathan David Ostry, 1994-06-01 A consistent set of disaggregated industrial output data for four Eastern European countries is examined In order to determine the extent to which structural adjustment has taken place since the initiation of market oriented reform The latter created a massive relative price shock whose affects on the structure of the industrial sectors of these economies is shown to have been relatively small at least one to two years after the reforms An implication is that one argument in favor of more gradualist reform based on the premise that more gradualism implies a smaller output cost in the short run is questionable By and large in these economies the output cost associated with the removal of relative price distortions may still have to be faced

Economic Transition in Central and Eastern Europe Daniel Gros, Alfred Steinherr, 2004-03-25 Analysing the key problems facing the transition countries in Central and Eastern Europe this accessible book describes the legacy of the central planners the progress achieved so far and the need for further reforms It documents the outstanding successes and failures and analyses why certain approaches to transition have worked and others have not It tests where transition is over and shows how some countries have graduated from transition to integration through their efforts to join the European Union EU It discusses the costs and benefits of the eastern enlargement of the EU The specific experiences of German unification the Soviet Union's disintegration and Russia's complex reforms are examined as are the specific issues that need to be addressed in the Balkans The book concludes by indicating how the expanding EU could help the poor performers through inclusion in a continent wide integrated economic area

Economic Development E. Wayne Nafziger, 2012-03-26 Nafziger explains the reasons for the recent fast growth of

India Poland Brazil China and other Pacific Rim countries and the slow yet essential growth for a turnaround of sub Saharan

Africa The book is suitable for those with a background in economics principles The fifth edition of the text written by a scholar of developing countries is replete with real world examples and up to date information Nafziger discusses poverty income inequality hunger unemployment the environment and carbon dioxide emissions and the widening gap between rich including middle income and poor countries Other new components include the rise and fall of models based on Russia Japan China Taiwan Korea and North America randomized experiments to assess aid an exploration of whether information technology and mobile phones can provide poor countries with a shortcut to prosperity and a discussion of how worldwide financial crises debt and trade and capital markets affect developing countries

East-Central European Economies in Transition, 1994 Distributed to some depository libraries in microfiche *Democratic and Capitalist Transitions in Eastern Europe* M. Dobry, 2012-12-06 here of exchange and borrowing in debates between these disciplines all the more so as we shall see a little further on as the analysis of the Central and East European transformations has also contributed to introduce into political science and sociology theoretical systematizations first formulated in economics In addition to this opening up to the objects and theories of economics the pseudo dilemma of simultaneity produced by a kind of feedback another series of effects on transitology and the related research domains Contrary to most expectations and predictions in the wake of the 1989 upheavals affirmations that the dilemmas problems or challenges of the transitions in Central and Eastern Europe ought to have been dealt with and resolved one after the other in sequence in the manner of the more or less idealized trajectories of Great Britain or Spain trajectories significantly enough promoted far beyond the circles of scholars as a model of transition and above all contrary to the assumption that superposing a radical economic transformation upon a transition to democracy would make the whole edifice thoroughly unworkable unstable or dangerous it must be stated clearly out that the two processes in their simultaneity are not necessarily incompatible This is one of the main findings stressed upon in several chapters of this book
