Economics Of Healthcare Financing:

The Law and Policy of Healthcare Financing Wolf Sauter, Jos Boertjens, Johan van Manen, Misja Mikkers, 2019 Examining the ways and extent to which systemic factors affect health outcomes with regard to quality affordability and access to curative healthcare this explorative book compares tax funded Beveridge systems and insurance based Bismarck systems Containing contributions from national experts The Law and Policy of Healthcare Financing charts and compares the merits of healthcare systems throughout 11 countries from the UK to Colombia

Economics of Health Care Financing Cam Donaldson, Karen Gerard, 1993 This new edition examines the economics of health care systems in a non technical manner highly accessible for economists and non economists alike It is very timely and includes the latest evidence of health care reforms and their implications from a number of countries with different systems

Health Care Financing and Insurance Francesco Paolucci, 2010-10-28 As a contribution to the search for suitable and sustainable solutions to finance rising medical care expenditures the book proposes a typology of healthcare financing and insurance schemes based on the dimensions of basic vs supplementary services and mandatory vs voluntary coverage to analyse the design and the complex interactions between various financing and insurance arrangements in several OECD countries This study provides a better understanding of the strengths and weaknesses of the financial and organisational structures of different countries healthcare financing and insurance schemes Its main contributions are the development of a novel and rigorous theoretical framework analysing the economic rationales for the optimal design of healthcare financing and insurance schemes and an empirical and institutional analysis investigating the consequences for efficiency and affordability of the complex interactions between basic and supplementary sources of financing

Health Economics and Financing Thomas E. Getzen, Michael S. Kobernick, 2022-02-08 The latest edition of the gold standard in the economics and financing of health care In the newly revised Sixth Edition of Health Economics and Financing an expert team of authors delivers an authoritative discussion of key topics in the economic and finance issues relevant to health care From cost benefit and cost effectiveness analyses to the economic considerations driving the choices of physicians hospitals and pharmaceutical companies the book explores the influence of financial considerations both public and private that remain front of mind for modern health care decision makers

Theory and Practice of Managed Competition in Health Care Finance A.C. Enthoven, 2014-04-23 These lectures review the research and experience on the subject of health care economy The author also sets down a moderately rigorous statement of the economic concepts underlying the kind of competition that he regards as the most promising way to achieve a reasonable degree of equity and efficiency in health care The first lecture is on the public policy goals of health care financing and delivery and discusses efficiency in health care The second presents an economic analysis of the systems for organizing and financing medical care systems in the United States The third lecture is about managed competition and the fourth reviews American experience with efforts to convert from the traditional system to a competitive system The book is

addressed primarily to economists health policy makers and health services researchers It explains how market forces may be managed in pursuit of equity and efficiency in health care It addresses systematically many of the causes of market failure and proposes a strategy managed competition for overcoming them It should be of interest to policy makers in any country interested in incentives for more efficient health care delivery It should also be very useful supplemental reading for courses in health care economics

Serious and Unstable Condition Henry Aaron,2010-12-01 The United States spends more on health care than any other nation in the world yet millions of Americans cannot afford basic care for acute illnesses few are insured against the costs of long term care and many frequently used medical procedures have never been fully evaluated The goals of controlling spiraling health care costs and extending insurance coverage or even maintaining current insurance coverage seem to be in conflict But progress can be made on both goals if they are tacked together Henry Aaron evaluates these critical issues and explores how adequate care can be provided without fueling inflation Because the current arrangements for financing America s health care cannot endure Aaron contends that a major national debate on the restructuring of the U S system of financing health care is inescapable and major legislation is likely Serious and Unstable Condition offers a guide that is crucial to understanding the reform debate It explains the important economic issues of health care as a background for evaluating both the current system and proposals for change Aaron compares the U S system of health care financing with certain foreign systems and reviews major options for reform He cautions that unless the health insurance system is radically changed the number of uninsured will continue to increase and costs will continue to escalate He then offers his own comprehensive plan to address these problems

Financing Health Care Mingshan Lu,2008-04-09 Discussing international issues of health care financing this is the first volume in a completely new public health book series edited by the Institute of Health Economics IHE in Edmonton Canada Starting with various funding methods the reference also features sections on different health care payment and purchasing mechanisms as well as equity issues Of interest to medical and allied health professionals and those working in health care industries insurance and economics

Financing Universal Access To Healthcare: A Comparative Review Of Landmark Legislative Health Reforms In The Oecd Alexander S Preker,2018-03-20 The recent expansion of health insurance coverage in the USA under the Affordable Health Care Act and current threats to reverse the benefits of this reform have once again focused the world s attention on the difficult challenges faced by other countries trying to provide better access to healthcare to their population at an affordable cost This textbook provides a comparative review of financing universal access to healthcare in the Organisation for Economic Co operation and Development OECD countries The first two chapters of the book provide a framework for financing universal access to healthcare The remaining eight chapters present case studies of eight OECD countries that have successfully introduced reforms to finance universal access to healthcare for their population through landmark legislative reforms A concluding chapter focuses on the lessons learned from the OECD and recommendations from policymakers and others who are planning

similar reforms The book is designed as a learning tool for students and as a user guide for policymakers

Health Financing in the Developing World Guy Carrin, 2011 A collection of peer reviewed articles and contributions to books this overview of the finance of health insurance concentrates on developing countries The material covers various financing strategies and explains how each can or cannot help improve the transition toward universal coverage The model plans shown here are particularly useful for policy makers and technical advisers who have to decide upon health financing policies or are engaged in a debate about them and the sample forms can be adjusted to the particular economic and political context of the developing countries involved In addition there are reminders that this process varies in some countries universal coverage may take time and require a step by step approach In other developing countries a swift transition to universal coverage may be quite feasible

The Economics of New Health Technologies Joan Costa-Font, Christophe Courbage, Alistair McGuire, 2009-05-14 Technological change in healthcare has led to huge improvements in health services and the health status of populations It is also pinpointed as the main driver of healthcare expenditure Although offering remarkable benefits changes in technology are not free and often entail significant financial as well as physical or social risks These need to be balanced out in the setting of government regulations insurance contracts and individuals decisions to use and consume certain technologies With this in mind this book addresses the following important objectives to provide a detailed analysis of what technological change is to identify drivers of innovation in several healthcare areas to present existing mechanisms and processes for ensuring and valuing efficiency and development in the use of medical technologies and to analyse the impact of advances in medical technology on health healthcare expenditure and health insurance Each of the seventeen chapters summarizes an important issue concerning the innovation debate and contributes to a better understanding of the role innovation has both at the macro level and at the delivery meso and micro level in the healthcare sector The effectiveness of innovation in improving people s welfare depends on its diffusion and inception by the relevant agents in the health production process and this book recognizes the multi faceted contribution of policy makers regulators managers technicians consumers and patients to this technology change This book offers the first truly global economic analysis of healthcare technologies taking the subject beyond simply economic evaluation and exploring the behavioural aspects organization and incentives for new technology developments and the adoption and diffusion of these technologies

Health Financing and Spending in Low- and Middle-Income Countries Mihajlo (Michael) Jakovljevic, Zafer Çaliskan, Paula Odete Fernandes, Sulaiman Mouselli, Michael Ekubu Otim, 2022-02-09

An International Assessment of Health Care Financing David W. Dunlop, Jo. M. Martins, 1995-01-01 World Bank Discussion Paper No 308 A major obstacle in creating secure banks in

transitional economies is the absence of political will and the lack of traditions and techniques for governing and regulating financial intermediaries This paper provides a comprehensive annotated model contract for policymakers and bank executives to help them discipline troubled banks

Financing Micro Health Insurance: Theory, Methods And Evidence David M Dror,2018-12-27 Healthcare for all at affordable prices is still a major but universally elusive goal Everyone spends money on healthcare and it is the most impoverishing consumption item Thus most governments and the United Nations promote Universal Health Coverage each country s unique blend of tools for healthcare financing including taxes subsidies and market controls Most people in low and middle income countries LMICs have no health insurance of any kind And most LMIC governments lack the political will information or resources to require their citizens to buy health insurance themselves or to subsidize insurance for all who cannot afford the price This book deals with financing voluntary and contributory health insurance for resource poor and rural groups in LMICs This book addresses three issues The first is how to catalyse demand for health insurance and develop insurance literacy among the largely illiterate and innumerate target population using training programs to build an enabling consensus allowing locals to create and administer such schemes The second involves the process of developing simplified methods for risk assessment which can help to underwrite risks price the micro health insurance schemes and ensure proper implementation The third issue is formulating a compelling business case which would make this health insurance affordable financially sustainable and operationally scalable This book develops insurance education and financial literacy for students of economics business administration insurance development studies and social work to prepare them for practical work as implementers policymakers or evaluators A supplementary section for teachers and students includes comprehension questions

The Economics of New Health Technologies Joan Costa-Font,Christophe Courbage,Alistair McGuire,2009-05-14 Technological change in healthcare has led to huge improvements in health services and the health status of populations Although offering remarkable benefits these changes often entail significant financial physical and social risks This book analyses the impact of advances in medical technology from an economic perspective

Providing Health Care Alistair McGuire,Paul Fenn,1991 This text presents economic arguments which suggest why market failure is no extensive in this sector and consequently why regulation in both financing and provision is necessary There is full discussion of various problems in the health care sector output measurement the definition of efficiency and the problems of monitoring performance The reforms of the UK health care sector are discussed in the light of these difficulties and the volume provides an analytical perspective within which the choice of various means of financing and providing health care can be evaluated A number of chapters compare the UK health care system with alternative systems in Europe and the USA and an historical perspective of previous UK systems is given

Health Economics and Financing Kesavan Sreekantan Nair,2019-11-15 Healthcare is essential for the well being of individuals families and societies in accordance with human rights Healthcare systems are vital to establish promote and

strengthen delivery of preventive promotive and curative health services to all sections of society in a fair and equitable manner Economic principles play an important role in making rational decisions in health sector Better understanding of health economics and financing by health policy makers can lead to more effective efficient and equitable health systems Economic considerations influence the performance of healthcare settings both in public and private sectors This book provides an introduction to the conceptual underpinnings of economics of health It focuses on health financing and understanding of how resources for healthcare are generated pooled and used to deliver effective and equitable health services Major models of healthcare financing including health insurance and its implications for the structure planning and delivery of healthcare services have also been set forth The work also provides useful information on economic evaluation methods used to make decisions by health planners to allocate resources in the health sector This book has been designed to help students of medicine public health health management and other related courses who wish to understand the central economic issues in healthcare sector without much mathematical or analytical techniques Health Economics Barbara McPake, Charles Normand, Samantha Smith, Anne Nolan, 2013-06-07 This third edition of Barbara McPake and Charles Normand's textbook confirms it as providing the only properly international treatment of health economics on the market A key tenet of the book is its analysis of comparative health systems across borders and the text has been updated and revised to take account of changes in a host of countries Barack Obama's reforms in the United States are considered alongside the provision of healthcare in China providing a unique overview of these different approaches The introduction of performance related payment in various forms is appraised with the experience of developing countries such as Cambodia Rwanda and Uganda important in this regard An overview of the range of mathematical techniques available to perform economic evaluation in healthcare is also introduced although the text avoids becoming too technical In all the text builds on the success of the first edition and provides the perfect introduction to the fast changing world of health economics **Political economy analysis for health financing** World Health Organization, 2024-07-04 This Political Economy of Health Financing How to Guide lays out a structured way to organize and analyze key political economy factors that can impact a health financing reform This Guide along with WHO's broader programme of work on Political Economy of Health Financing Reform explicitly recognizes the importance of political economy factors in influencing health financing reform trajectories This Guide is not intended as a toolbox or comprehensive mapping of all the potential political economy factors and strategies related to health financing reform Rather it provides a stepwise process for analysis and structured thinking about issues related to health financing and political economy By understanding the various stakeholders involved in health financing reform their relative power interests and position along with the institutions that shape the bargaining process and the related contextual and economic factors strategies can be developed to overcome or take into account stakeholders resistance or support The objective of incorporating political economy analysis in this way is to support a more strategic

approach to reform as a way to increase the likelihood of effective design adoption and implementation and ultimately progress towards UHC Introduction to Health Care Economics & Financial Management Susan J.
