**The Oxford History of Poland-Lithuania** Robert I. Frost, 2018-07-16 The history of eastern Europe is dominated by the story of the rise of the Russian empire yet Russia only emerged as a major power after 1700 For 300 years the greatest power in Eastern Europe was the union between the kingdom of Poland and the grand duchy of Lithuania one of the longest lasting political unions in European history Yet because it ended in the late eighteenth century in what are misleadingly termed the Partitions of Poland it barely features in standard accounts of European history The Making of the Polish Lithuanian Union 1385 1569 tells the story of the formation of a consensual decentralised multinational and religiously plural state built from below as much as above that was founded by peaceful negotiation not war and conquest From its inception in 1385 a vision of political union was developed that proved attractive to Poles Lithuanians Ruthenians and Germans a union which was extended to include Prussia in the 1450s and Livonia in the 1560s Despite the

often bitter disagreements over the nature of the union these were nevertheless overcome by a republican vision of a union of peoples in one political community of citizens under an elected monarch Robert Frost challenges interpretations of the union informed by the idea that the emergence of the sovereign nation state represents the essence of political modernity and presents the Polish Lithuanian union as a case study of a composite state The modern history of Poland Lithuania Ukraine and Belarus cannot be understood without an understanding of the legacy of the Polish Lithuanian union This volume is the first detailed study of the making of that union ever published in English *A Cultural History of Shopping in the Middle Ages* James Davis, 2022-06-02 A Cultural History of Shopping was a Library Journal Best in Reference selection for 2022 Throughout Europe the collapse of Roman authority from the 5th century fractured existing networks of commerce and trade including shopping The infrastructure of trade was slowly rebuilt over the centuries that followed with the growth of beach markets emporia seasonal fairs and periodic markets until in the late Middle Ages the permanent shop re emerged as an established part of market spaces both in towns and larger urban centers Medieval society was a display culture and by the 14th century there was a marked increase in the consumption of manufactures and imported goods among the lower classes as well as the elite This volume surveys our understanding of medieval retail markets shops and shopping from a range of perspectives spatial material culture literary archaeological and economic A Cultural History of Shopping in the Middle Ages presents an overview of the period with themes addressing practices and processes spaces and places shoppers and identities luxury and everyday home and family visual and literary representations reputation trust and credit and governance regulation and the state **Historical Dictionary of Poland, 966-1945** Halina Lerski, 1996-01-19 The first authoritative comprehensive historical dictionary of Poland in English this volume includes over 2 000 entries on people events places and terms important to Poland's history from 966 to 1945 Entries include English and Polish language bibliographic sources The student of Polish history seeking specific information on a person or event in medieval times the troubled era leading to the late 18th century partitions of Poland and the Polish nationalist struggles before 1919 reborn Poland in the interwar years or the trauma of World War II will be amply rewarded by the accurate concise information provided in this unique historical dictionary Each of the alphabetically arranged entries is followed by pertinent bibliographic sources in both English and Polish languages A list of abbreviations a note on the Polish alphabet and a series of historical maps precede the entries Helpful cross references are provided throughout the text and in the index A general bibliography precedes the index After five years of work George Lerski completed the original manuscript in 1992 shortly before his untimely death The special editing subsequently undertaken preparatory to publication has remained faithful to the original work its concept organization and purpose A Concise History of Poland Jerzy Lukowski, Hubert Zawadzki, 2019-01-24 This new edition has been fully updated to reflect recent developments within Poland Eastern Europe and the wider world

Garver, 2020-09-17 Winner of the 2020 PROSE Award for Multivolume Reference Humanities Work was central to medieval life Religious and secular authorities generally expected almost everyone to work Artistic and literary depictions underlined work's cultural value The vast majority of medieval people engaged in agriculture because it was the only way they could obtain food Yet their work led to innovations in technology and production and allowed others to engage in specialized labor helping to drive the growth of cities Many workers moved to seek employment and to improve their living conditions For those who could not work charity was often available and many individuals and institutions provided forms of social welfare Guilds protected their members and created means for the transmission of skills When they were not at work medieval Christians were to meet their religious obligations yet many also enjoyed various pastimes A consideration of medieval work is therefore one of medieval society in all its creativity and complexity and that is precisely what this volume provides A Cultural History of Work in the Medieval Age presents an overview of the period with essays on economies representations of work workplaces work cultures technology mobility society politics and leisure

**Rulers and Rulership in the Arc of Medieval Europe, 1000-1200** Christian Raffensperger, 2023-08-24 *Rulers and Rulership in the Arc of Medieval Europe* challenges the dominant paradigm of what

rulership is and who rulers are by decentering the narrative and providing a broad swath of examples from throughout medieval Europe Within that territory the prevalent idea of monarchy and kingship is overturned in favor of a broad definition of rulership This book will demonstrate to the reader that the way in which medieval Europe has been constructed in both the popular and scholarly imaginations is incorrect Instead of a king we have multiple rulers male and female ruling concurrently Instead of an independent church or a church striving for supremacy under the Gregorian Reform we have a pope and ecclesiastical leaders making deals with secular rulers and an in depth interconnection between the two Finally instead of a strong centralizing polity growing into statehood we see weak rulers working hand in glove with weak subordinates to make the polity as a whole function Medievalists Byzantinists and Slavists typically operate in isolation from one another They do not read each other's books or engage with each other's work This book requires engagement from all of them to point out that the medieval Europe that they work in is one and the same and demands collaboration to best understand it

**Medieval East Central and Eastern Europe** Florin Curta, Sebastien Rossignol, 2025-07-15 From Bohemia to Rus and from the White Sea to the Balkans Medieval East Central and Eastern Europe by Florin Curta and Sebastien Rossignol covers the medieval history of a large area This groundbreaking textbook is an important introduction for students and an essential tool for instructors of courses on the Middle Ages and the entire eastern half of Europe With elements of medieval archaeology Medieval East Central and Eastern Europe includes dynastic characters political legacies and a list of suggested readings for anyone interested in learning more about the history of these regions Written in an accessible style that appeals to a general reader this textbook explicates the diversity of historical experiences available in these parts of Europe during the Middle Ages from the influence of Byzantine traditions in the Balkans to the integration of Western cultures and the impact of the Eurasian steppe lands This text highlights the distinct social and cultural characteristics that shaped these societies including the persistence of nomadic groups the limited reach of feudalism and the enduring presence of pagan Jewish and Muslim communities Structured with chronological overviews and thematic chapters Medieval East Central and Eastern Europe is an invaluable resource on underrepresented regions for specialists and non specialists alike

**"The Making of Europe"**, 2016-05-09 In The Making of Europe Essays in Honour of Robert Bartlett a group of distinguished contributors analyse processes of conquest colonization and cultural change in Europe in the tenth to fourteenth centuries They assess and develop theses presented by Robert Bartlett in his famous book of that name The geographical scope extends from Iceland to the Islamic Mediterranean from Spain to Poland Themes covered range from law to salt production from aristocratic culture in the Christian West to Islamic views of Christendom Like the volume that it honours the present book extends our understanding of both medieval and present day Europe Contributors are Sverre Bagge Piotr Grecki John Hudson Hugh Kennedy Simon MacLean William Ian Miller Esther Pascua Echegaray Ana Rodriguez Matthew Strickland John Tolan Bjorn Weiler and Stephen D White This is an excellent collection of essays that do justice to

Rob Bartlett's inexhaustible book *The Making of Europe* Rather than merely repeating and venerating Bartlett's ideas the essays engage creatively and critically with them and spark new ideas and insights that cast a flood of light on the culture of medieval Europe The result is a worthy tribute that will send readers scurrying back to Bartlett to quarry yet more nuggets from *The Making of Europe* still fizzing with intellectual brio some twenty years after its publication Stuart Airlie University of Glasgow October 2015 *The Bioarchaeology of Urbanization* Tracy K. Betsinger, Sharon N. DeWitte, 2020-11-05

Urbanization has long been a focus of bioarchaeological research but what is missing from the literature is an exploration of the geographic and temporal range of human biological demographic and sociocultural responses to this major shift in settlement pattern Urbanization is characterized by increased population size and density and is frequently assumed to produce negative biological effects However the relationship between urbanization and human health requires careful examination given the heterogeneity that exists within and between urban contexts Studies of contemporary urbanization have found both positive and negative outcomes which likely have parallels in past human societies This volume is unique as there is no current bioarchaeological book addressing urbanization despite various studies of urbanization having been conducted Collectively this volume provides a more holistic understanding of the relationships between urbanization and various aspects of human population health The insight gained from this volume will provide not only a better understanding of urbanization in our past but it will also have potential implications for those studying urbanization in contemporary communities **Medieval Europe** Chris Wickham, 2016-01-01 Chapter nine 1204 the failure of alternatives chapter ten Defining society gender and community in late medieval Europe chapter eleven Money war and death 1350 1500 chapter twelve Rethinking politics 1350 1500 chapter thirteen Conclusion Notes Bibliography Index
