for educators researchers and managers interested in the advantages of this field      Encyclopedia of Developing Regional Communities with Information and Communication Technology Marshall, Stewart, Taylor, Wal, Yu, Xinghuo, 2005-06-30 This encyclopedia provides a thorough examination of concepts technologies policies training and applications of ICT in support of economic and regional developments around the globe Provided by publisher      **World Telecommunication/ICT Development Report** ,2006      *Small and Medium Enterprises: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2013-04-30 This book provides a comprehensive collection of research on current technological developments and organizational perspectives on the scale of small and medium enterprises Provided by publisher      *Information Economy Report 2007-2008* United Nations Conference on Trade and Development, 2007 The Information Economy Report 2008 Science and technology for development the new paradigm of ICT analyses the current and potential contribution of information technology to knowledge creation and diffusion It explores how ICTs help generate innovations that improve the livelihoods of the poor and support enterprise competitiveness The report examines how ICTs affect productivity and growth and reflects on the need for a development oriented approach to intellectual property rights in order to enable effective access to technology ICT has also given rise to new models for sharing knowledge and collective production      **Globalization** Hector Cuadra-Montiel, 2012-08-17 The book Globalization Education and Management Agendas takes the ambitious undertaking of presenting multidimensional approaches to those global issues It consists of 13 chapters divided into three sections Globalization and Education Globalization and Management Globalization and the Firm Its authors embody a global research culture One that is plural growing and dynamic as it is evidenced in their respective agendas and methodological approaches The value of this book lies in its diversity and its merit will be appreciated by a global community of scholars      **E-commerce and Development Report** UNCTAD., 2004      World Sustainable Development Outlook 2007 Allam Ahmed, 2017-09-29 The World Sustainable Development Outlook series has been developed to provide an overview of sustainable development to discuss why it is important and to provoke forward thinking on the development of a more coherent approach to solving global problems related to sustainability through science and technology In doing so a holistic approach is used to critically examine the interrelationship between the natural governmental economic and social dimensions of our world and how science and technology can contribute to solutions This is a truly global source book which is reflected in the varied national and cultural origins of the contributors as well as the topics and case studies covered Each year a different theme will be covered The theme of World Sustainable Development Outlook 2007 is the different dimensions of knowledge and technology management in the new era of information revolution and how they relate to sustainable development Rapid innovation in information and communication technologies ICTs is clearly reshaping the world we live in Countries are increasingly judged by whether they are information rich or information poor It is estimated that 30 40% of the world s economic growth and 40 50% of all new jobs will be IT driven Education and

knowledge are the chief currencies of the modern age and can also be a strategic resource and a lifeline for sustainable development Yet in Africa millions of people have never made a telephone call The technological gulf between developed and developing countries DCs is likely to widen further with the rapid expansion of the internet and the speedy transition to digitalisation in the West The impacts on DCs may include an increase in the so called brain drain and growing dependence on foreign aid of a different kind knowledge aid There are fears that knowledge imperialism is already with us What is clear is that most of the technological innovations in ICTs are Western designed and fail to address the needs of the most disadvantaged The interest of industrialised countries in the use of ICTs in DCs has largely been more concerned with the profitability of their own business enterprises than with any broader goals concerning the development of the host countries DCs face the challenge of either becoming an integral part of the knowledge based global economy or the very real danger of finding themselves on the wrong side of the digital divide Successful management in the new millennium requires developing new methods and approaches to meet the challenges and opportunities of this information revolution while at the same time fostering sustainable development Adopting a holistic approach this book aims to critically examine the interrelationship between these different issues in order to reach solutions and a consensus for a better future taking into account a variety of international institutional and intellectual perspectives It uses case and country studies in technological innovation and experience so that lessons in effective management of ICTs can be learned from successful initiatives ideas and innovations
