Economic And Political Change In Tunisia:

Economic and Political change in Tunisia E. Murphy, 1999-03-08 This book examines the processes of economic and political reform in Tunisia placing the current policies of Zine el Abidine Ben Ali within their historical context The book develops a theoretical understanding of the relationship between economic liberalisation and political change in the Arab world developing the concept of the disarticulation of the corporatist state and concluding that despite efforts at democratization an authoritarian political system is a more likely successor in the era of economic transformation

Economic Crisis and Political Change in North Africa Azzedine Layachi, 1998-10-28 A collective effort by American and North African scholars this volume provides a comprehensive analysis of recent economic social and political events in North Africa It shows how the Maghrebi states and societies are currently at a very important junction as they try to adjust to different ways of doing things in new regional and international orders Using a political economy approach the book focuses on a series of issues raised by the interaction between economic crisis and reform on the one hand and political change or stagnation on the other The author and his contributors provide a comprehensive and up to date survey of particular value to scholars and researchers of the Arab world in general and North Africa in particular Tunisia's Economic Development

Mustapha K. Nabli, Jeffrey B. Nugent, 2022-09-16 This book identifies the differences in growth and development and the various factors lying behind them across both Middle East and North African MENA and East Asian countries over the 1960 2020 period It considers a very wide range of factors compares initial situations institutions and government policies the dynamic responses to changing circumstances and discusses the inability of the governments of the MENA region to achieve not only political reform but also the kinds of economic reform that would allow their citizens to prosper in an increasingly globalized world The book focuses on Tunisia Since its independence in 1956 until 2010 Tunisia had considerable success relative to many other MENA countries but was somewhat less successful relative to East Asian countries Since 2010 however while transitioning away from autocracy to democracy it has been in rather serious economic decline The book highlights how both the factors identified as enabling Tunisia's initial success and those leading to its subsequent decline can provide many useful insights for improving the management of economic development across the whole MENA region and perhaps also to developing countries throughout the world *Party and People: a Study of Political Change in Tunisia* Lars Rudebeck, 1969 *Understanding The Political Economy Of The Arab Uprisings* Ishac Diwan, 2014-05-26 For the millions of citizens in the Arab World who came together in 2010 2011 to discover their common yearning for dignity and liberty the real revolutions only began after the wave of protests Understanding the Political Economy of the Arab Uprisings reassess the interests potential and constraints of various socio political players and their importance in the building of a constructive environment for democratic progress in the Middle East Initiated by the Cairo based Economic Research Forum and edited by Ishac Diwan this invaluable volume features contributions by Middle East academics across the world They examine the

reasons behind the uprisings how democratic transitions transpire the role of Arab capitalism in the crises and how the experiences of other countries such as Indonesia Turkey and Iran can forecast where these uprisings may lead the Middle East in the years to come **Economic and Political Impediments to Middle East Peace** L. Drake,1999-11-09 The accords and protocols that underlie the Arab and Israeli peace agreements set into place economic policies and political processes so flawed that they are bound to fail The chapters in this volume look at the diplomatic and historical precedents that have led to this situation and they debate some cynically and some sympathetically the reasons why the institutional structures and trade regimes the process has created are so weak But for whatever reason the structural flaws built into the Middle East peace process are not only biased toward the dominant players but against the people who most want peace

A Comparative Political Economy of Tunisia and Morocco Gregory White,2001-07-26 This book examines the profound impact of European integration on two North African countries Tunisia and Morocco Confronting the theoretical literatures on the entanglements of the domestic and international realms and the intricate role played by the middle income state in the international arena White provides the first detailed comparison of Tunisia and Morocco s post independence political economies especially in the context of the Euro Mediterranean Partnerships signed with the European Union in the late 1990s North African states must act on the one hand as entrepreneurs seeking to encourage trade and attract foreign investment within the domestic economy in the process of crafting foreign economic policy with the European Union On the other hand such states are constrained by domestic pressures such as imperatives to secure job creation and maintain internal security Countries on the periphery are therefore faced with two distinct questions first how does a middle income state balance its conflicting roles and manage its relations with a regional power and second how does the relationship with the outside world affect key domestic actors Answering these questions is one of the primary challenges facing Tunisia and Morocco in the new decade *Political Islam in Tunisia* Anne Wolf,2017-07-15 Political Islam in Tunisia uncovers the secret history of Tunisia s main Islamist movement Ennahda from its origins in the 1960s to the present Banned until the popular uprisings of 2010 11 and the overthrow of Ben Ali s dictatorship Ennahda has until now been impossible to investigate This is the first in depth account of the movement one of Tunisia s most influential political actors Drawing on more than four years of field research over 400 interviews and access to private archives Anne Wolf masterfully unveils the evolution of Ennahda s ideological and strategic orientations within changing political contexts and at times conflicting ambitions amongst its leading cadres She also explores the challenges to Ennahda s quest for power from both secularists and Salafis As the first full history of Ennahda this book is a major contribution to the literature on Tunisia Islamist movements and political Islam in the Arab world It will be indispensable reading for anyone seeking to understand the forces driving a key player in the country most hopeful of pursuing a democratic trajectory in the wake of the Arab Spring **Political and Socio-Economic Change in the Middle East and North Africa** Roksana Bahramitash,Hadi Salehi Esfahani,2016-04-29 Political and Socio

Economic Change in the Middle East and North Africa examines the shortcomings of the economic development policies in the region before and after the Arab uprisings. Many MENA countries tried to pursue neoliberal policies to boost economic growth. However, the outcome was associated with rising and disproportionate unemployment among the youth and women. The focal point of the book is the role of gender and the ways in which policies translate into economic outcomes. Particular attention is paid to women's entrepreneurship, especially as owners of small and medium enterprises, which, as the authors argue, can potentially reduce unemployment and poverty for the population as a whole. The book offers perspectives on wholesome policies that take account of issues concerning gender and youth and thus contribute to lower unemployment and reduced poverty and inequity.

Government and Politics of the Middle East and North Africa Sean Yom, 2019-10-30. The latest edition of this renowned textbook explores the states and regimes of the Middle East and North Africa. Presenting heavily revised, fully updated chapters contributed by the world's leading experts, it analyzes the historical trajectory, political institutions, economic development, and foreign policies of the region's nearly two dozen countries. The volume can be used in conjunction with its sister volume, *The Societies of the Middle East and North Africa*, for a comprehensive overview of the region. Chapters are organized and structured identically, giving insightful windows into the nuances of each country's domestic politics and foreign relations. Data tables and extensive annotated bibliographies orient readers towards further research. Whether used in conjunction with its sister volume or on its own, this book provides the most comprehensive and detailed overview of the region's varied politics. Five new experts cover the critical country cases of Turkey, Lebanon, Jordan, Saudi Arabia, and Iran. All chapters cover the latest events, including trends that have remarkably changed in just a few years, like the gradual end of the Syrian civil war. As such, this textbook is invaluable to students of Middle Eastern politics. The ninth edition brings substantial changes. All chapters also have a uniform, streamlined structure that explores the historical context, social and economic environment, political institutions, regime dynamics, and foreign policy of each country. Fact boxes and political maps are now far more extensive, and photographs and images also help illustrate key points. Annotated bibliographies are vastly expanded, providing nothing short of the best list of research references for each country.

Politics of Change in Middle East and North Africa since Arab Spring Md. Muddassir Quamar, 2022-12-29. A decade since the eruption of Arab Spring protests in the Middle East and North Africa, the region continues to confront the primary causes of the popular disenchantment, including economic deprivation, bad governance, corruption, and limited avenues for political expression. Democratisation, the buzzword in 2011, has given way to debates around conflict management and resolution. Simultaneously, there are mounting economic challenges throughout the region that have been aggravated by the COVID-19 pandemic. But there are some silver linings, such as a focus on reforms, greater scrutiny against corruption, demand for better governance, and awareness regarding women empowerment and rights of minorities. The volume *Politics of Change in the Middle East and North Africa since Arab Spring: A Lost Decade* commemorates the ten years of the eruption of Arab Spring.
