Khouja, P. Sadler, 1979-06-17      Oil and Development in the Arab Gulf States Walid I. Sharif, 2023-10-12 Oil and Development in the Arab Gulf States 1985 brings together in one volume the manifold sources of information on the Arab Gulf region especially the impact of oil revenues on its economic political and social development It provides a balanced core of primary and secondary sources on various aspects of the economics of Arab oil between 1973 and 1983      **The Economic Development of the United Arab Emirates (RLE Economy of Middle East)** Ragaei el Mallakh, 2014-10-30 Since the early 1970s the oil producing countries of the Gulf have become a focus of intense interest worldwide Most of this interest has centred on the oil giants Saudi Arabia Iran even Iraq and Kuwait Yet the United Arab Emirates is also among the largest producers on a par with Kuwait Nigeria and Libya with reserves greater than the USA Given its high economic growth rate the UAE is an excellent laboratory in which to test and evaluate policies and programmes to effect rapid economic development The international stature of the UAE far exceeds what its physical size population and breadth of resources would seem to indicate As a member of OPEC the UAE has played a vital role within that body s price moderates With one of the world s highest per capita incomes and with ambitious development efforts under way the UAE not

surprisingly has become a major market for capital and consumer goods involving substantial foreign services banking business and industry Based on more than a decade of study on site research and interviews with key figures this book which mixes the practical with the academic approach will prove of great value to Middle Eastern and development specialists students and to the international business and financial communities First published in 1981      **Social and Economic**

**Development in the Arab Gulf (RLE Economy of Middle East)** Tim Niblock,2015-05-15 The crucial importance of the Gulf region today which may be defined as comprising the states of Saudi Arabia Iraq Kuwait Oman Bahrain Qatar and the United Arab Emirates with Iran as a non Arab onlooker has stimulated surprisingly little interest in academic circles Much of what has been written moreover focuses exclusively on those aspects of direct concern to external interests The focus of this book is on the Gulf region as an area with its own problems of social economic and political development It examines the dimensions of the attempts by the governments and peoples of the area to create new social economic and political structures stemming mainly of course from their new found oil wealth First published in 1980      Saudi Arabia: Rush to

Development Ragaei al Mallakh,2015-05-15 Saudi Arabia is one of the most controversial and least known of the Arab nations A land of massive contrasts between its densely populated cities and its vast expanses of desert between the recent poverty of its villages and the massive wealth created by oil which is drawing a labour force from most of the neighbouring countries between the aggressive technocratic and industrial thrust forward and the strongly traditionalist Islamic basis of the ruling ideologies it has progressed to world prominence in a matter of years after centuries of little or no change The change is not so much a surge or even a thrust as a rush into the industrialized and wealthy world This book analyzes the problems and achievements of Saudi development and provides the first detailed critique of the Third Development Plan First published in 1982      **Kuwait and the Gulf** Hassan Ali Al-Ebraheem,2016-04-14 A major result of the Second World War was the

emergence of small states which vastly increased the membership of the international system While a number of small states existed before the war many of these had made no effort to participate actively in the system since then the doctrine of equality of states has been established in theory at least through their admission to the UN This book first published in 1984 deals with the factors which have contributed to the emergence of such a large number of small states the difficulties which they have experienced in achieving statehood and their struggle to gain political integration A precise analysis of the foreign policy and economic factors governing the activity of small states particularly that of Kuwait and the other Gulf states is presented here      **Society and State in the Gulf and Arab Peninsula (RLE: The Arab Nation)** Khaldoun

Al-Naqeeb,2012-08-21 This book is both a history and contemporary analysis Charting the main turnpoints as the growth of cities trade routes the petroleum industry and growth of the authoritarian state the author argues that central bureaucratic control is limiting growth He describes the state as governed by the interests of the ruling family who continue to block opportunities for social mobility He is also critical of the lack of a broad productive base in the economy the export of capital

and its effect on investment in local resources as well as the technological dependence on the West **The Modernization of Poverty** Galal A. Amin, 2022-05-16 **Background Notes** United States. Department of State. Office of Media Services, 1970 **The Economies of the Arab World** Yusuf Sayigh, 2014-10-30 This book a comprehensive study of twelve of the economies of key countries of the Arab world has three main objectives to record the developmental achievements and failings of each country to examine the main issues arising in the drive for development and to assess the future outlook for development for each country Most of the countries studied only gained independence from their colonial masters in recent decades and the process of economic development has necessarily been accompanied by political development First published in 1978 **A History of Middle East Economies in the Twentieth Century** Roger Owen, Şevket Pamuk, 1998 This text offers an examination of the economic history of the principal Arab countries Turkey and Israel since 1918 Using the state as its major economic analysis it charts the growth of national income and issues of welfare and distribution over two periods 1918 1945 and 1945 1990 Important trends are explored including the patterns of colonial economic management import substitution the impact of the 1970s oil boom and the current process of liberalization and structural adjustment *Bulletin*, 1969 **The Making of Contemporary Kuwait** Mahjoob Zweiri, Sinem Cengiz, 2024-06-03 This book explores the contemporary history governance foreign policy political economy culture and society of Kuwait It highlights the dynamics of the country putting forward both an overview of each subject covered and new research findings It begins by providing a historical understanding of state formation and goes on to examine state structure including the ruling monarchy state legitimacy and the creation of the Constitution and the National Assembly It considers foreign policy including the tools of diplomacy the state's regional and international approach and the factors that have formed and reformed Kuwait's strategic policy in the global arena It assesses the economy including rentierism the labour market both for locals and for migrants the class system and the process of Kuwaitization and it discusses Kuwaiti society and national identity as well as investigates issues of women civil society youth and the Bidoon minority Overall the book provides a full and detailed analysis of contemporary Kuwait and of the factors which are bringing about new developments [Qatar \(RLE Economy of Middle East\)](#) Ragaei el Mallakh, 2015-05-15 No region in the world has seen so much development activity in the last ten years as the Gulf area Since black gold catapulted the oil producing countries into the limelight of the international political and economic scene there has been a proliferation of studies on the larger exporting states However many of the so called small countries have been neglected in this exercise This book presents the first detailed examination of the bases and extent of economic development in Qatar and considers the need to translate the petroleum generated growth into viable self sustained development Qatar though not one of the oil giants was first in the field of oil development and exhibits a number of special features not shared by its Gulf neighbours for example in pre oil boom days it was already in advance of many other Gulf states in the field of education it has a modest agriculture sector and there is a comparatively strong attachment

to the land and finally it has played an important role in OPEC as a member of the moderate price camp The individual chapters trace the development of the oil industry outline public financing and economic policy and sketch the issues involved in industrialisation absorptive capacity and agricultural development Examination is made of the social and physical infrastructure as well as money and banking and the international linkages in trade foreign aid economic cooperation efforts and investment opportunities are elucidated Planners in Qatar know that their revenue base in petroleum is finite and thus investment of present surplus needs careful planning The book therefore also outlines current government priorities and suggests areas for future investments First published in 1979
