Economic Re-examination of the Philippines Salvador Araneta,2000 *The Philippine Archipelago* Yves

Boquet,2017-04-19 This book presents an updated view of the Philippines focusing on thematic issues rather than a description region by region Topics include typhoons population growth economic difficulties agrarian reform migration as an economic strategy the growth of Manila the Muslim question in Mindanao the South China Sea tensions with China and the challenges of risk vulnerability and sustainable development **Central Banking as State Building** Yusuke

Takagi,2016-03-21 From its creation in 1949 until the 1960s the Central Bank of the Philippines dominated industrial policy by means of exchange controls becoming a symbol of nationalism for a newly independent state The pre war Philippine National Bank was closely linked to the colonial administration and plagued by corruption scandals As the country moved toward independence ambitious young politicians colonial bureaucrats and private sector professionals concluded that economic decolonization required a new bank at the heart of the country s finances in order to break away from the individuals and institutions that dominated the colonial economy Positioning this bank within broader political structures Yusuke Takagi concludes that the Filipino policy makers behind the Central Bank worked not for vested interests associated with colonial or neo colonial rule but for structural reform based on particular policy ideas *Economic Re-examination of*
