**Economic Restructuring And Social Exclusion** Canterbury. Phillip Brown; Rosemary Crompton both of the University of Kent, 2020-04-03 This book is intended for undergraduate and postgraduate courses in social structure and political sociology as well as academic sociologists and libraries It should have significant appeal to researchers and students in European studies and others interested in European integration A New Europe? , The Globalized City Frank Moulaert, Arantxa Rodriguez, Erik Swyngedouw, 2003-03-27 This book explores the dynamics that have accompanied the implementation of large scale Urban Development Projects UDPs in nine European cities within the European Union EU It contributes to the analysis of the relationship between urban restructuring and social exclusion integration in the context of the emergence of the European wide new regimes of urban governance These regimes reflect the reawakening of neo liberal policy and the rise of a New Urban Policy favouring private investments and deregulation of property and labour markets The selected UDPs further reflect global pressures and changing systems of local regional and or national regulation and governance These projects while being decidedly local capture global trends and new national and local policies as they are expressed in particular institutional forms and strategic practices The large scale urban interventions were deliberately chosen as reflections of a particular hegemonic and dominant expression of urban policy as pursued during the 1990s The book provides a panoramic view of urban change in some of Europe s greatest cities The nine case studies include The Europeanization of Brussels The Guggenheim museum in Bilbao the new financial district in Dublin the science university technology complex Adlershof in Berlin the 1998 World Expo in Lisbon Athens s bid to stage the Olympic Games Vienna s Donau City Copenhagen s Oresund project and Naples new business district These case studies testify to the unshakable belief the city elites hold in the healing effects that the production of new urban mega projects and events has on their city s vitality and development potential The book also analyses the down side of this development in terms of social exclusion the formation of new urban elites and the consolidation of less democratic forms of urban governance The principal aim is to show how the production of these new urban spaces is actually also part of the production of a new polity a new economy and new forms of living urban life that are not very promising for a socially harmonious and just future for metropolitan urban Europe *Economic Restructuring and Social Exclusion* Phillip Brown, Rosemary Crompton, 2018-05-11 Economic Restructuring and Social Exclusion provides a timely reminder of persisting inequalities of class race and gender as a consequence of the changes which have engulfed Europe in less than a decade The contributors consider key debates including democracy social justice and citizenship The book also examines evidence that social and economic polarization is increasing and the prospect of a conspicuous and growing underclass in Europe s urban centres is fast becoming a reality This volume will be particularly valuable for undergraduate and postgraduate students in sociology **The New Europe: Evolving Economic and Financial Systems in East and West** D.E. Fair, R. Raymond, 2012-12-06 The papers collected in

this volume are those presented at the seventeenth Colloquium arranged by the Societe Universitaire Europeenne de Recherches Financieres SUERF which took place in Berlin in October 1992 The Society is supported by a large number of central banks and commercial banks by other financial and business institutions and by personal subscriptions from academics and others interested in monetary and financial problems Since its establishment in 1963 it has developed as a forum for the exchange of information research results and ideas among academics and practitioners in these fields including central bank officials and civil servants responsible for formulating and applying monetary and financial policies national and international A major activity of SUERF is to organise and conduct Colloquia on subjects of topical interest to its members The titles places and dates of previous Colloquia for which volumes of the collected papers were published are noted on the last page of this volume

Economic Restructuring and Social Exclusion Rosemary Crompton, 1994

The Political Economy of the European Social Model Philip Whyman, Mark Baimbridge, Andrew Mullen, 2012-05-31 This book seeks to analyse the development of the European Union EU which was founded upon the principle of the free movement of capital goods services and people in 1957 Its central thesis is that from a practical and theoretical point of view such a basis is fundamentally at odds with the creation of an interventionist regime that the construction of a social Europe would require The authors argue convincingly that economically the EU does not currently possess the budget or the economic tools to pursue such a strategy politically close to none of the institutions of the EU have backed such a policy practically conservative and neo liberal forces among member states and the institutions of the EU have repeatedly thwarted any moves in this direction In reality the Single Internal Market Economic and Monetary Union enlargement the Lisbon Agenda and European Constitution projects all prioritise supply side measures and expanding the scope of the market rather than the boosting of demand and other economic intervention Consequently constructing a social Europe in the face of this would appear problematic Hence in both theory and practice the idea that there can be a social Europe vis vis neoliberalisation is a contradiction in terms This controversial book will be an educating and refreshing read for advanced students and academics involved with European politics the European Union European Economics and Economic institutions
