Assessing the Evidence on Indigenous Socioeconomic Outcomes Boyd Hunter, 2006-06-01 Aboriginal Australian Social conditions Economic conditions *The Economic Status of Australian Aborigines* Jon C. Altman, John Nieuwenhuysen, 2006-11-02 In recent years there has been a substantial growth in the literature of Australian Aboriginal Studies While much of this has touched on past and present economic issues from a historical political or social viewpoint its result has been to emphasize the need for a synthesis of the available information on the economic status of Aborigines in Australia This book provides a survey of studies so far made on various aspects of current Aboriginal economic life in different environments in Australia and raises questions of economic policy which follow from their results In this the authors break new ground in the breadth of their canvass and by their extension of issues previously limited to the realm of social welfare to that of economic policy This book is prefaced by a brief description of the historical background to the Aboriginal economy and introduced by an overview of the relatively unequal economic status of Aborigines in the Australian economy today **The Australian People** James Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century the island continent is home to people from all over the globe Each new wave of settlers has had a profound impact on Australian society and culture The Australian People documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people It is one of the largest reference works of its kind with approximately 250 expert contributors and almost one million words Illustrated in colour and black and white the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation Culture, Economy and Governance in Aboriginal Australia Diane J. Austin-Broos, Gaynor Macdonald, 2005 Aboriginal and Torres Strait Islander peoples are advised that this resource may contain images transcripts or names of Aboriginal and Torres Strait Islander peoples now deceased It may also contain historically and culturally sensitive words terms and descriptions **Social Anthropology and Australian Aboriginal Studies** Robert Tonks, Ronald Berndt, 1988-11 This volume summaries major developments in the social anthropology of Aboriginal studies in the 1960s 80s It is valuable as an overview of five important and interrelated topics economy kinship gender religion and law It also contains stimulating comment and criticism and raised important issues for future research as well as current debate in Aboriginal studies **Population Mobility and Indigenous Peoples in Australasia and North America** Martin Bell, John Taylor, 2003-12-25 Focusing on the four New World countries Australia New Zealand Canada and the United States this book explores key themes and issues in indigenous mobility **The Cambridge Economic History of Australia** Simon Ville, Glenn Withers, 2014-10-08 Australia's economic history is the story of the transformation of an indigenous economy and a small convict settlement into a nation of

nearly 23 million people with advanced economic social and political structures It is a history of vast lands with rich exploitable resources of adversity in war and of prosperity and nation building It is also a history of human behaviour and the institutions created to harness and govern human endeavour This account provides a systematic and comprehensive treatment of the nation s economic foundations growth resilience and future in an engaging contemporary narrative It examines key themes such as the centrality of land and its usage the role of migrant human capital the tension between development and the environment and Australia s interaction with the international economy Written by a team of eminent economic historians The Cambridge Economic History of Australia is the definitive study of Australia s economic past and present

Engaging Indigenous Economy Will Sanders,2016-04-20 The engagement of Indigenous Australians in economic activity is a matter of long standing public concern and debate Jon Altman has been intellectually engaged with Indigenous economic activity for almost 40 years most prominently through his elaboration of the concept of the hybrid economy and most recently through his sustained and trenchant critique of policy He has inspired others also to engage with these important issues both through his writing and through his position as the foundation Director of The Australian National University s Centre for Aboriginal Economic Policy research from 1990 to 2010 The year 2014 saw both Jon s 60th birthday and his retirement from CAEPR This collection of essays marks those events Contributors include long standing colleagues from the disciplines of economics anthropology and political science and younger scholars who have been inspired by Jon s approach in developing their own research projects All point to the complexity as well as the importance of engaging with Indigenous economic activity conceptually empirically and as a strategic concern for public policy

Demographic and Socioeconomic Outcomes Across the Indigenous Australian Lifecourse Nicholas Biddle,Mandy Yap,2010-12-01 Across almost all standard indicators the Indigenous population of Australia has worse outcomes than the non Indigenous population Despite the abundance of statistics and a plethora of government reports on Indigenous outcomes there is very little information on how Indigenous disadvantage accumulates or is mitigated through time at the individual level The research that is available highlights two key findings Firstly that Indigenous disadvantage starts from a very early age and widens over time Secondly that the timing of key life events including

education attendance marriage childbirth and retirement occur on average at different ages for the Indigenous compared to the non Indigenous population To target policy interventions that will contribute to meeting the Council of Australian Governments COAG Closing the Gap targets it is important to understand and acknowledge the differences between the Indigenous and non Indigenous lifecourse in Australia as well as the factors that lead to variation within the Indigenous population *Australian National Bibliography: 1992* National Library of Australia,1988

Growing up Indigenous: Developing Effective Pedagogy for Education and Development R.M. Nichol, 2011-07-23 This is a fascinating account of traditional socialisation and Indigenous forms of learning in Australia and Melanesia It draws from rich ethnographic historical and educational material There has never been a greater need for a socially and historically informed yet critical account of the mismatch between traditional ways realities of life in Indigenous communities villages and enclaves and the forms of education provided in schools Raymond Nichol a specialist in Indigenous education and pedagogy surveys the links too often disparities between ethnographic detail of life on the ground and the schooling provided by nation states in this vast region Most importantly he explores and suggests ways community developers and educators Indigenous and non Indigenous may work to bridge the gaps in social rights educational and economic development This is relevant for all Indigenous communities their survival and development Many vexed issues are discussed such as race ethnicity identity discrimination self determination development and relevant effective pedagogical learning and schooling strategies

Indigenous in the City Evelyn Peters, Chris Andersen, 2013-04-22 Research on Indigenous issues rarely focuses on life in major metropolitan centres Instead there is a tendency to frame rural and remote locations as emblematic of authentic or real Indigeneity and as central to the survival of Indigenous cultures and societies While such a perspective may support Indigenous struggles for territory and recognition as distinct peoples it fails to account for large swaths of contemporary Indigenous realities not the least of which is the increased presence of Indigenous people and communities in cities The chapters in this volume explore the implications of urbanization on the production of distinctive Indigenous identities in Canada the United States New Zealand and Australia Instead of viewing urban experiences in terms of assimilation and social and cultural disruption this

book demonstrates the resilience creativity and complexity of the urban Indigenous presence both in Canada and internationally
