Time, Narrative & the Fixed Image / Temps, narration & image fixe, 2021-10-18 This volume focuses on the relationship between time narrative and the fixed image As such it highlights renewed interest in the temporality of the fixed image probably one of the most important trends in the formal and semiotic analysis of visual media in the past decade The various essays discuss paintings the illustrated covers of books comics or graphic novels photo stories postcards television and video art as well as aesthetic practices that defy categorization such as Chris Marker's masterpiece *La Jetée* The range of works and practices examined is reflected in the different theoretical approaches and methods used with an emphasis on semiology and narratology and to a lesser extent aesthetics and psychoanalysis The interest of this book however does not stem exclusively from the range and scope of the artefacts examined or the methodological issues that are addressed its fundamental importance rests in the contributors' readiness to question the differentiation between fixed and moving images which all too often provides a convenient if not altogether convincing starting point for image analysis The originality and value of the contribution that *Time Narrative and the Fixed Image Temps Narration et image fixe* makes to the body of theoretical writing on visual media lies in this challenging and comprehensive approach *The Concise New Makers of Modern Culture* Justin Wintle, 2008-11-28 A Who's Who of Western culture from Woody Allen to Emile Zola Containing four hundred essay style entries and covering the period from 1850 to the present *The Concise New Makers of Modern Culture* includes artists writers dramatists architects philosophers anthropologists scientists sociologists major political figures composers film makers and many other culturally significant individuals and is thoroughly international in its purview Next to Karl Marx is Bob Marley with John Ruskin is Salman Rushdie alongside Darwin is Luigi Dallapiccola Deng Xiaoping rubs shoulders with Jacques Derrida as do Julia Kristeva and Kropotkin With its global reach *The Concise New Makers of Modern Culture* provides a multi-voiced witness of the contemporary thinking world The entries carry short bibliographies and there

Theisen,2007-04-01 A fascinating study of Edward Hopper s iconic Nighthawks painting and its deep significance for understanding American culture Staying up Much Too Late discusses the painting Nighthawks and the painter Edward Hopper and their central importance to twentieth century American culture Topics include individualism New York City Arthur Weegee Fellig diners pornography capitalism advertising cigarettes American philosophy World War II Gravity s Rainbow Blade Runner Pulp Fiction Russ Meyer R Crumb David Lynch and film noir What links these together is the painting s pessimistic take on American culture which it also seems to epitomize Despite its desolate feel Nighthawks has become a familiar icon reproduced on posters and postcards in movies and on television shows But Nighthawks is more than just a masterful painting It is a portal into that rarely acknowledged but pervasive dark side of the American psyche      **Light as Experience and Imagination from Medieval to Modern Times** David S. Herrstrom,2022-11-21 In Light as Experience and Imagination from Medieval to Modern Times David S Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of

the individual's relationship with light rather than the investigation of light's essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times. Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light, optical science but rather with subjective reactions as reflected in art, architecture and literature. Instead of its evolution, this book celebrates the complexity of our relation to light's character. No individual experience of light being truer than any other.
