**Integrating Differentiated Instruction and Understanding by Design** Carol Ann Tomlinson, Jay McTighe, 2006-01-15 Teachers struggle every day to bring quality instruction to their students Beset by lists of content standards and accompanying high stakes accountability tests many educators sense that both teaching and learning have been redirected in ways that are potentially impoverishing for those who teach and those who learn Educators need a model that acknowledges the centrality of standards but also ensures that students truly understand content and can apply it in meaningful ways For many educators Understanding by Design addresses that need Simultaneously teachers find it increasingly difficult to ignore the diversity of the learners who populate their classrooms Few teachers find their work effective or satisfying when they simply serve up a curriculum even an elegant one to students with no regard for their varied learning needs For many educators Differentiated Instruction offers a framework for addressing learner variance as a critical component of instructional planning In this book the two models converge providing readers fresh perspectives on two of the greatest contemporary challenges for educators crafting powerful curriculum in a standards dominated era and ensuring academic success for the full spectrum of learners Each model strengthens the other Understanding by Design is predominantly a curriculum design model that focuses on what we teach Differentiated Instruction focuses on whom we teach where we teach and how we teach Carol Ann Tomlinson and Jay McTighe show you how to use the principles of backward design and differentiation together to craft lesson plans that will teach essential knowledge and skills for the full spectrum of learners Connecting content and kids in meaningful ways is what teachers strive to do every day In tandem UbD and DI help

educators meet that goal by providing structures tools and guidance for developing curriculum and instruction that bring to students the best of what we know about effective teaching and learning
