## **Efficient Society Why Canada Is As Close To Utopia As It Gets:**

**The Efficient Society** Joseph Heath, 2002-05-21 In this fascinating account of what makes Canada such a successful society Joseph Heath celebrates the much maligned value of efficiency and asks some searching questions about the forces that threaten to undermine our quality of life Canada is an efficient society much more efficient than our neighbour to the south where personal liberty takes precedence over collective well being This is one of the reasons Heath argues that the United Nations Annual Human Development Report consistently ranks Canada as the best place in the world to live But this efficiency is under siege Can we resist the allure of short sighted tax cuts Can we maintain our quality of life in the face of relentless pressure to increase our productivity both at work and at home This is a profound and important look at how government and business conspire to improve our lives and at the dramatic changes that will decide our social and economic future

**Efficient Society** Joseph Heath, 2002      **Efficient Society** Joseph Heath, 2005-05-16      *Social Policy and the Ethic of Care* Olena Hankivsky, 2004 In this book Hankivsky considers the implications of this ethic for a range of Canadian social policy issues Through a series of case studies she demonstrates the extent to which a care orientation differs from a justice orientation and provides an alternative normative framework for interpreting understanding and evaluating social policy She reveals why Canadian social policy is lacking and how it could be made more effective and robust by the inclusion of an ethic of care Jacket

**Hockey and Philosophy** Normand Baillargeon, Christian Boissinot, 2015-11-19 No detailed description available for Hockey and Philosophy      You and the State Jan Narveson, 2008-04-04 Jan Narveson asks the provocative philosophical question is the state necessary In this unusual introduction to political philosophy Narveson draws on the history of political philosophy and discusses its main theories \_classic liberal democratic socialist radical\_with reference to how each sees the place of the individual in the political order Narveson s critique is situated within issues of freedom authority economic welfare international relations and others to explore how and whether the state is necessary His argument is ultimately anti statist and takes seriously the question of whether and how some version of anarchism might make sense

Charles Blattberg, 2003 Charles Blattberg shows that while a just politics based on dialogue is at the core of Canadians sense of ourselves as citizens our current forms of dialogue are inadequate To some we should be

pleading before authorities responsible for upholding a unified foundation for our politics Pierre Trudeau and his followers for example advocate a Charter of Rights and Freedoms that trumps any values not contained within it To others we ought to be true to the longstanding Canadian political tradition of compromise and so negotiate our conflicts a form of dialogue that strives for accommodation rather than trumping Blattberg argues however that both of these approaches have largely failed us To him the preferred form of dialogue in Canadian politics today should be that of conversation As he shows only conversation aims for the genuine reconciliation of conflict only it will help us realize the common good that is at the heart of a truly patriotic Canadian politics

two of the most frequent areas of debate and dispute in multinational federations recognition and redistribution. The authors address questions such as the following: What are the most appropriate forms of institutional recognition for sub state national groups? How is the concept of redistributive justice affected by the presence of federal institutions and autonomous sub state nationalities? And what are the potential sources of stability that fractious federations can call upon? As well as extensive theoretical analyses, the book is peppered throughout with examples drawn from actual multinational states including Canada, Belgium, Spain and the United Kingdom.

**The Death and Life of the Urban Commonwealth** Margaret Kohn, 2016-09-21

The city is a paradoxical space in theory belonging to everyone in practice inaccessible to people who cannot afford the high price of urban real estate. Within these urban spaces are public and social goods including roads, policing, transit, public education and culture, all of which have been created through multiple hands and generations but that are effectively only for the use of those able to acquire private property. Why should this be the case? As Margaret Kohn argues, when people lose access to the urban commons, they are dispossessed of something to which they have a rightful claim: the right to the city. Political theory has much to say about individual rights, equality and redistribution but it has largely ignored the city. In response, Kohn turns to a mostly forgotten political theory called solidarism to interpret the city as a form of common wealth. In this view, the city is a concentration of value created by past generations and current residents, streets, squares, community centers, schools and local churches. Although the legal title to these mixed spaces includes a patchwork of corporate, private and public ownership, if we think of the spaces as the common wealth of many actors, the creation of a new framework of value becomes possible. Through its novel mix of political and urban theory, *The Death and Life of the Urban Commonwealth* proposes a productive way to rethink struggles over gentrification, public housing, transit and public space.

**Justice and Reciprocity** Andrew Lister, 2024-11-15

*Justice and Reciprocity* examines the place of reciprocity in egalitarianism, focusing on John Rawls's conception of justice as fairness. Reciprocity was a central element of justice as fairness, but Rawls wasn't explicit about the different forms of reciprocity nor the diverse roles reciprocity played in his theory. The book's main thesis is threefold: First, reciprocity is not simply a fact of human psychology or a duty but a limiting condition on other duties. Second, such conditions are a natural consequence of thinking of equality as a relational value. However, third, we can identify limits on this conditionality, which explains how some duties of justice can be unconditional. The book explores the ramifications of this argument in a series of debates about distributive justice, productive incentives, duties to future generations, unconditional basic income and global justice. In each

domain thinking about reciprocity as a limiting condition helps explain otherwise puzzling aspects of justice as fairness in some cases making the view more plausible but in others underlining limits that will be unappealing to egalitarians of a more unilateral bent Lister ultimately shows that reciprocity involves more than returning benefits and that limiting justice with reciprocity conditions need not make justice implausibly undemanding In this way the book rehabilitates reciprocity for egalitarianism

**The Globalization of Addiction** Bruce Alexander,2010-03-04 Addiction is increasing all around the world and the conventional remedies don t work The Globalization of Addiction argues that the cause of this failure to control addiction is that past treatments have focused too single mindedly on the afflicted individual addict This book presents a radical rethink about the nature of addiction

Deep Cultural Diversity Gilles Paquet,2008-04-22 Political commentator and public policy analyst Gilles Paquet examines the benefits and drawbacks of Canada s multiculturalism policy He rejects the current policy which perpetuates difference and articulates a model for Canadian transculturalism a more fluid understanding of multiculturalism based on the philosophy of cosmopolitanism which would strengthen moral contracts and encourage the social engagement of all Canadians
