Prokofieff, 2017-04-24 Anyone who embarks upon the study of anthroposophy will soon recognise that the mystery of the human ego lies at its very heart This mystery is one of the central questions of anthroposophical Christology and at the same time forms one of the most difficult cognitive challenges presented by anthroposophy Sergei O Prokofieff The question of the true nature of the human I or individuality is one of the

key issues of our time but it is also one of the most complex riddles of existence This booklet doesn't give simple answers but adds perspectives that deepen the theme offering a picture of its manifold mysteries In three great panoramas the author develops central aspects of the topic beginning with the threefold nature of human individuality followed by an illumination of the cosmic dimension of the ego and finally an encapsulation of the significance of the earthly ego With his usual thoroughness and clarity Sergei O Prokofieff throws light on one of the fundamental questions of our time

Dynamism of Character in Shakespeare's Mature Tragedies Piotr Sadowski,2003 The theory considers human behavior in terms of functional equilibrium between the stable properties of the mind independent from the pressures of the sociocultural environment and the immediate situational context What we call character thus denotes an autonomous configuration of psychological elements which remains stable despite the changing external circumstances

The Structure and Dynamics of the Psyche C. G. Jung,2014-12-18 The Structure and Dynamics of the Psyche first appeared in the Collected Works in 1960 In this new edition bibliographical citations and entries have been revised in the light of subsequent publications in the Collected Works and essential corrections have been made The book traces an important line of development in Jung's thought from 1912 onwards The earliest of the papers elaborates Freud's concept of sexual libido into that of psychic energy In those that follow we see how Jung discarding one by one the traditional philosophical hypotheses gradually arrived at a concept which is even more controversial than psychic energy was in its day DDL namely psychic reality The book contains the first mention of the archetype in Jung's writings as well as his later views on its nature There is also a valuable account of the therapeutic uses of active imagination first described in an essay written in 1916

Thinking on Thresholds Subha Mukherji,2011 Through a combination of case studies and theoretical investigations the essays in this book address the imaginative power of the threshold as a productive space in literature and art

Transpersonal Psychology in Psychoanalytic Perspective Michael Washburn,1994-07-01 In this book Michael Washburn provides a psychoanalytic foundation for transpersonal psychology Using psychoanalytic theory Washburn explains how ego development both prepares for and creates obstacles to ego transcendence Spiritual development he proposes can be properly understood only in terms of the ego development that precedes it For example many difficulties encountered in spiritual development can be traced to repressive underpinnings of ego development and significant gender differences in spiritual development can be traced to corresponding gender differences that emerge during ego development Washburn draws on a wide range of psychoanalytic perspectives in discussing ego development and uses both Eastern and Western sources in discussing spiritual development In rethinking transpersonal psychology in psychoanalytic terms he explains how essential elements of Jungian thought can be grounded in psychoanalytic theory
