**The Eiffel Tower, and Other Mythologies** Roland Barthes, 1997 In this appealing and luminous collection of essays Roland Barthes examines the mundane and exposes hidden texts causing the reader to look afresh at the famous landmark and symbol of Paris and also at the Tour de France the visit to Paris of Billy Graham the flooding of the Seine and other shared events and aspects of everyday experience *The Eiffel Tower, and Other Mythologies* Roland Barthes, 1979 In this appealing and luminous collection of essays Roland Barthes examines the mundane and exposes hidden texts causing the reader to look afresh at the famous landmark and symbol of Paris and also at the Tour de France the visit to Paris of Billy Graham the flooding of the Seine and other shared events and aspects of everyday experience **The Eiffel Tower, and Other Mythologies** Roland Barthes, 1979 In this appealing and luminous collection of essays Roland Barthes examines the mundane and exposes hidden texts causing the reader to look afresh at the famous landmark and symbol of Paris and also at the Tour de France the visit to Paris of Billy Graham the flooding of the Seine and other shared events and aspects of everyday experience Reading Graphic Design in Cultural Context Grace Lees-Maffei, Nicolas P. Maffei, 2019-02-07 Reading Graphic Design in Cultural Context explains key ways of understanding and interpreting the graphic designs we see all around us in advertising branding packaging and fashion It situates these designs in their cultural and social contexts Drawing examples from a range of design genres leading design historians Grace Lees Maffei and Nicolas P Maffei explain theories of semiotics postmodernism and globalisation and consider issues and debates within visual communication theory such as legibility the relationship of word and image gender and identity and the impact of digital forms on design Their discussion takes in well known brands like Alessi Nike Unilever and Tate and everyday designed things including slogan t shirts car advertising ebooks corporate logos posters and music packaging *The Poverty of Structuralism* Leonard Jackson, 2014-09-11 The Poverty of Structuralism is the first in a sequence of volumes which examine in turn the basic ideas of Saussure Marx and Freud and analyse the way in which they have been developed and applied to art culture and modern textual theory The text offers a critical introduction to the structuralist foundations of modern literary theory It gives an account of the way such foundations have been developed twisted and distorted to become part of the language that contemporary literary and cultural theoreticians use It also addresses some of the fundamental issues about language and society that are presupposed by the often difficult language of modern literary and cultural theory *Barthes' Mythologies Today* Pete Bennett, Julian McDougall, 2013-09-11 This is Barthes seminal text reimagined in a contemporary context by contemporary academics Through a revisiting of Mythologies a key text in cultural and media studies this volume explores the value these disciplines can add to an understanding of contemporary society and culture Leading academics in media English education and cultural studies here are tasked with identifying the new mythologies some fifty or so years on from Barthes original interventions The contributions in this volume then are readings of contemporary culture each engaging

with a cultural event practice or text as mythological These readings are then contextualized by an introduction which reflects on the how of these engaging responses and an essay at the back of the book which replaces Myth Today with a reflection on the contemporary provenance of both Barthes and his most famous book Thus the book is at least two things at once whichever way you look a new Mythologies and a book about Barthes legacy an exploration of the place of theory in critical writing and a book about contemporary culture      Cultural Studies Theorists on Power, Psyche and Society Arthur Asa Berger, 2022-10-17 This book offers a cultural studies analysis of politics in the broadest understanding of the term dealing with the ideas of more than 50 thinkers from Aristotle to Pierre Bourdieu It argues that power manifests itself in all human relationships and is not confined to governmental matters It considers topics such as ideas people have about raising children imprinting children with culture specific beliefs and the importance of place belief systems codes of behavior cultural imperatives certain historical figures and historical periods among others      Myths and Milestones in the History of Sport S. Wagg, 2011-11-29 The conventional history of sport as conveyed by television and the sports press has thrown up a great many apparent turning points but knowledge of these apparently defining moments is often slight This book offers readable in depth studies of a series of these watersheds in sport history and of the circumstances in which they came about

The Personality of Paris Alan R. H. Baker, 2021-01-28 What was the personality of 19th century Paris To answer that question this book eschews the conventional narrative and chronological route taken by most histories of Paris Instead it thematically analyses the complex personality traits of Paris from the onset of the Revolution of 1789 to the beginning of the Great War Starting with the topographical and cultural legacies that late 18th century Paris inherited from its foundation in pre Roman and Roman times and from its medieval infancy and early modern adolescence The Personality of Paris unpacks the social and material complexity of the 19th century city It considers the role of immigration in the making of Parisians and in the city's growth from half a million in 1801 to almost three million in 1911 It examines the making of its distinctive landscape through the construction of monuments and architectural icons through its massive re modelling by Napoléon III and Baron Haussmann through its five world exhibitions through its emphasis on food fashion and leisure and through the ways in which Parisians sought rural release from urban pressure Finally the book considers the self harm done to the person of 19th century Paris by revolutions and wars and the damage inflicted on it by 20th century hubristic politicians and architects

Donald Barthelme Jerome Klinkowitz, 1991-05-22 Donald Barthelme 1931-1989 is regarded as one of the most imitated and influential American fiction writers since the early 1960s In *Donald Barthelme: An Exhibition* Jerome Klinkowitz presents both an appreciation and a comprehensive examination of the life work of this pathbreaking contemporary writer A blend of close reading biography and theory this retrospective informed by Klinkowitz's expert command of postmodern American fiction contributes significantly to a new understanding of Barthelme's work Klinkowitz argues that the central piece in the Barthelme canon and the key to his artistic method is his widely acknowledged masterpiece *The Dead Father* In turning to this pivotal work as well as to Barthelme's short stories and other novels Klinkowitz explores the way in which Barthelme reinvented the tools of narration characterization and thematics at a time when fictive techniques were largely believed to be exhausted Klinkowitz who was one of the first scholars to study Barthelme's work and became its definitive bibliographer

situates Barthelme's life and work within a broad spectrum of influences and affinities. A consideration of developments in painting and sculpture for example as well as those of contemporaneous fiction contribute to Klinkowitz's analysis. This astute reading will provide great insight for readers, writers and critics of contemporary American fiction seeking explanations and justifications of Barthelme's critical importance in the literature of our times.

**The Father of Lights (Theology for the Life of the World)** Junius Johnson, 2020-09-29 Every good giving and every perfect gift is from on high coming down from the Father of lights with whom there is no variation or shadow of turning James 1:17. This verse conveys a powerful image of God as the source and referent of all beauty. This book demonstrates how the experience of beauty is related to our inherent longing for the God who is reflected in such moments. Richly informed by Junius Johnson's expertise on Bonaventure and von Balthasar, the book offers a robust, full-orbed theology of beauty showing how it has functioned as a theological concept from biblical times to the present day.

**Rebuilding Babel** Mark Crinson, 2017-06-30 Much of modernist architecture was inspired by the emergence of internationalism, the ethics and politics of world peace, justice and unity through global collaboration. Mark Crinson here shows how the ideals represented by the Tower of Babel, built so the story goes by people united by one language, were effectively adapted by internationalist architecture, its styles and practices in the modern period. Focusing particularly on the points of convergence between modernist and internationalist trends in the 1920s and again in the immediate post-war years, he underlines how such architecture utilised the themes of a cooperative community of builders and a common language of forms. The International Style was one manifestation of this new way of thinking, but Crinson shows how the aims of modernist architecture frequently engaged with the substance of an internationalist mindset, in addition to sharing surface similarities. Bringing together the visionaries of internationalist projects including Le Corbusier, Bruno Taut, Berthold Lubetkin, Walter Gropius and Mies van der Rohe, Crinson interweaves ideas of evolution, ecology, utopia, regionalism, socialism, free trade and anti-colonialism to reveal the possibilities heralded by modernist architecture. Furthermore, he re-connects pivotal figures in architecture with a cast of polymath internationalists such as Patrick Geddes, Lewis Mumford, Julian Huxley, Rabindranath Tagore and H.G. Wells to provide a richly detailed socio-cultural framework. This is a book crafted for students and scholars of architecture and art theory as well as for those interested in the history of twentieth-century optimism about the world and its architecture.

**Pour le Sport** Roxanna Curto, Rebecca Wines, 2021-11-03 This edited volume gathers together studies examining various aspects of physical culture in literature written in French from Europe and around the Francophone world. We define physical culture as the systematic care for and development of the physique and interpret it to include not only sport in the modern sense but also all the athletic activities that preceded it or relate to it, such as bodily forms of exercise, leisure and artistic creation. Our essays pursue diverse interpretive approaches and focus on texts from a wide variety of periods, medieval to the present, and genres: short stories, novels, essays, poetry, in order to consider the fundamental yet highly neglected place of physical activities in literature and culture from the French

speaking world Some of the questions the essays explore include Does the genre sports literature exist in French and if so what are its characteristics How do governments or other political entities mobilize sports literature What role do narratives about sports especially the creation of teams play in the construction of national regional and or local identities How is physical culture used in literary works for pedagogical or ideological purposes To what extent do sports performances provide a metaphorical and figurative discourse for discussing literature and culture     *A Companion to Art Theory* Paul Smith,Carolyn Wilde,2008-04-15 The Companion provides an accessible critical survey of Western visual art theory from sources in Classical Medieval and Renaissance thought through to contemporary writings
