**The Eight Essential Steps to Conflict Resolution** Dudley Weeks,1994-01-04 Problems that just won't go away can be settled through methods developed by one of America's leading experts in conflict resolution In clear language Weeks shows readers how to turn conflict into lasting partnerships and ensure a fruitful outcome [The Eight Essential Steps to Conflict Resolution](#) Dudley Weeks,1992-01-01 Offers a new perspective on the nature of conflict outlines a proven eight step method for resolving differences and discusses how to handle frequent problem areas [Land Grabbing and Conflict in the North West Region of Cameroon](#) René Ngek Monteh,2024-01-03 In Cameroon conflicts emerging from land ownership and boundary discrepancies have reached record heights with the North West Region serving as the theatre of land and boundary conflicts These conflicts are not just rampant but have taken shifting positions making the much cherished desire for peaceful cohabitation a far fetched possibility As this book shows the ordinances of the 1970s which stopped traditional communities from making claims of ownership of land the unwillingness of the traditional elite to understand and accept the arbitrary colonial imposed boundaries and the dubious role played by those in authority in an attempt to solve or identify the root causes of these conflicts constituted the bed rock for the emergence of multi dimensional problems This book argues that conflicts in the North West Region have been promoted by the colonial factor the authorities insistence on focusing on the consequences rather than on the deep causes land laws administrative orders and formally made arrangements It argues very strongly that conflicts in the North West Region have become so protracted that solving them has been an uphill task

*National Conference as a Strategy for Conflict Transformation and Peacemaking* Jacques L. Koko, 2008-03-30

Events in the post Cold War era have challenged the notions of realism and realpolitik with an upsurge in intrastate conflicts involving other actors than just the state During this period the international community has witnessed the limitations of the tenets of realism for addressing disastrous civil wars or ethno political conflicts internal to the states Largely because of this and alongside the emerging field of conflict resolution in western countries transitional conflict resolution mechanisms emerged with characteristic multi track diplomacy orientations for solving national problems within African countries By the end of the 1980s and early 1990s several African countries including South Africa Burundi and Sierra Leone resorted to either a Truth and Reconciliation Commission or an international tribunal to handle violence and restore peace and justice In the same period other African countries opted for what was called national conference to solve their national problems and transform conflict into an opportunity for structural change In February 1990 the Republic of Benin a small nation state in West Africa achieved peace through a national conference The national conference in Benin was a national gathering for crisis resolution through social debates on critical issues facing the nation and political decision making for constructive changes As a pioneer Benin led the political change movement of the national conference and was later followed by eight other African countries namely Chad Congo Brazzaville Gabon Mali Niger Togo the Central African Republic and the former Zaire now known as the Democratic Republic of Congo To date most of the existing literature on the subject explores the phenomenon of national conference as something of a prelude to political transition to multipartyism and democracy Part of the literature depicts the national conference as a civil coup d etat and recommends its institutionalization as a system for democratic transitions This book takes a different approach by conceptualizing the national conference phenomenon as a multi track diplomacy tool or as a process for conflict transformation and peacemaking Building upon theories of conflict and conflict resolution the author analyzes the national conference as a unique diplomatic approach to transforming national crisis which expands the scope of strategies for peacemaking

**Principled Negotiation and Mediation in the International Arena** Paul J. Zwier, 2013-04-22

This book argues that it can be beneficial for the United States to talk with evil terrorists and other bad actors if it engages a mediator who shares the United States principles yet is pragmatic It shows how the US can make better foreign policy decisions and demonstrate its integrity for promoting

democracy and human rights by employing a mediator who facilitates disputes between international actors by moving them along a continuum of principles as political parties act for a country's citizens. This is the first book to integrate theories of rule of law development with conflict resolution methods and it examines ongoing disputes in the Middle East, North Korea, South America and Africa. It draws on the author's experiences with The Carter Center and judicial and legal advocacy training to provide a sophisticated understanding of the current situation in these countries and of how a strategy of principled pragmatism will give better direction to US foreign policy abroad.
