The Poems of Edward Taylor Rosemary F. Guruswamy, 2003-04-30 Edward Taylor 1642 1729 was one of the most influential ministers in Puritan New England He was also a prolific but unpublished poet With the discovery of his poetry in 1936 and the publication of a nearly complete volume in 1960 his reputation as the premiere early American poet has grown immensely His widely anthologized work is taught in most introductory American literature courses and nearly all courses on early American literature This reference is a convenient guide to his poetry including a summarization of the current state of scholarship on his work Beginning with an overview of his life and times this reference analyzes Taylor's Preparatory Meditations and Gods Determinations along with his other poems in light of Puritan doctrine and his thoughts about poetry The book traces the genesis of his works their editorial and publication history and the complex cultural and historical background of his writings Later chapters discuss his themes his poetic art and the reception of his works A brief bibliographical essay completes the volume Twayne's United States Authors Series ,1971 The Word Made Flesh Made Word David G. Miller, 1995 Edward Taylor's dilemma as Puritan preacher and poet was to discover a way in human language to express the ineffable Divine This first book length study of Edward Taylor's prose suggests that Taylor's use of language illustrates the very theological truths he struggled with as a minister and a writer Taylor's poetic metaphors have long been noted for their vitality and linguistic absurdity This penetrating study of Taylor's Christographia sermons concludes that Taylor intentionally forces his types and metaphors into failure to illustrate how necessary it is for the incarnate Christ to redeem both the medium and the messenger The author places Taylor in historical theological and stylistic contexts and then looks at how both types and metaphors used by Taylor tend to follow the pattern of establishment failure and redemption By focusing on the typological images of Moses David and the Jewish religious ceremonies for example Taylor shows how such images both point toward Christ and obscure the truth of Christ By using metaphorical images of light plants and living buildings Taylor attempts to paint a portrait of Christ for his congregation all the while insisting that human language can never illustrate the Divine Catalog of Copyright Entries. Woodrow McCree, 2021-06-24 Washington Irving's Critique of American Culture Sketching a Vision of World Citizenship challenges long standing views of Washington Irving He has been portrayed as writing in the 18th century style of Addison and Goldsmith without having much substance of his own Irving has also been accused of being insufficiently American and adrift in an identity crisis The author argues that Irving addressed the American cultural context very extensively he was a writer of substance who articulated an ethic of world citizenship that was found in the philosophy of ancient Greek cynics and stoics This ethic was united with a love of picturesque travel which emphasized variety and texture in experience resulting in an extraordinary affirmation of the value of cultural diversity in the new Republic Irving was in fact a liminal figure straddling Romantic and neoclassical modes of writing and acting The author draws attention to Irving s success as a writer in the pictorial mode Irving also expressed a critique of cultural loss and environmental destruction like that articulated by the artist Thomas Cole The work embraces an interdisciplinary approach where insights from philosophy religion art history and social history shed light on an underestimated writer A Study Guide for W.
