S. Thomas Daniel Westover, 2011-09-15 R S Thomas 1913 2000 is the most recognizable literary figure in twentieth century Wales His controversial politics and public personality made him a cultural icon during his life and the merits of his poetry have continued to be debated in the years after his death Yet these debates have too often circled familiar ground returning to the assumed personality of the poet or to the received narrative of his experience Even the best studies have focused almost exclusively on ideas and themes As a result the poetry itself has frequently been marginalized This book argues that Thomas's reputation must be grounded in poetry not personality Unlike traditional literary biography which combines historical facts with the conventions of narrative in an attempt to understand the life of a literary figure this stylistic biography focuses on the essential relationship between the maker and the made object giving priority to the latter R S Thomas began his career

by writing sugary derivative lyrics inspired by Palgrave's Golden Treasury yet he ended it as a form seeking experimentalist. This study guides the reader through that journey tracing Thomas's stylistic evolution over six decades. In so doing it asserts a priority not to look at poetry as many have as a way of affirming existing notions about an iconic R S Thomas but to come to terms with the tensions within him as they reveal themselves in the tensions rhythmic linguistic structural of the poetry itself.

This title was originally published in 1975. *Literature as History* Simon Barker, Jo Gill, 2009-11-26 Literature as History presents a selection of specially commissioned essays by a range of key contemporary thinkers on the interdisciplinary study of literature and history. The unifying theme is the interrelationship between literary cultural production and its historical moment. The essays in the collection are astute and exciting in terms of their engagement with ever changing developments in critical and theoretical practice while retaining an invaluable focus on familiar and engaging texts and authors. The contributors offer a reappraisal of the nature of literary studies today looking back over the thirty five years of Peter Widdowson's career a career which has coincided with the emergence of challenges to and reformulations of critical theory and ask what the future holds particularly for the interdisciplinary ways of working which Widdowson pioneered. Bringing together distinguished scholars in the interdisciplinary study of English and History it seizes the opportunity to take stock of the current field of literary studies and to ask searching questions about its future development. Drawing upon a diverse range of previously unpublished archival sources including juvenilia correspondence and drafts of poems Robert Frost and Northern Irish Poetry takes as its particular focus the triangular dynamic of Frost Seamus Heaney and Paul Muldoon. Buxton explores the differing strengths which each Irish poet finds in Frost's work while Heaney is drawn primarily to the Frost persona and to the sound of sense it is the studied slyness and wryness of the American's poetry the complicating undertow which Muldoon values. This appraisal of Frost in a non American context not only enables a fuller appreciation of Heaney's and Muldoon's poetry but also provides valuable insight into the nature of trans national and trans generational poetic influence.

Engaging with the politics of Irish American literary connections while providing a subtle analysis of the intertextual relationships between these three key twentieth century poets Robert Frost and Northern Irish Poetry is a pioneering work
