Effective Communication Chase Kaiser, 2019-11-17 Effective Communication The doorway to new relations opportunities and overall better experiences with people The ability to communicate successfully with others is one of biggest determining factors to how successful you are in any career or endeavor Have you ever had that frustrating feeling that you simply cannot get your idea across to someone and you missed out on a great opportunity because of the miscommunication Do you every have trouble talking to associates or respected figures simply because you don t know how to respond or what to say Have you ever been in the company of a really good talker that was impressing everyone yet you have no clue how to chime in on this group conversation simply because you don t have the communication skills to get in Are you a parent and no matter how hard you try you can t seem to get through to your son or daughter Have you given up Maybe one small change in your approach can make all the difference Having effective communication skills is one of the most important personal skills you can have today simply because so many people are mis communicating now more than ever mostly due to mobile devices and media influences Communication skills do not involve just speaking clearly to someone but also has to do with the interaction that occurs while both speaking and listening to your intended audience Body language The way your body reacts while you are talking is a better indicator of your confidence than the strength and tone of your voice You could be extremely confident of your grasp of the facts but if you can t maintain eye contact or your body shies away from the person you are communicating with you look like you are not confident in your message When talking to anyone at work be it a boss co worker employee or customer remember to maintain your eye contact naturally while you are talking Also avoid crossing your arms when you are talking It is a classic defensive posture and people will unconsciously notice and feel uneasy around you Finally remember to relax Evident signs of nervousness will also distract the listener take the focus of your message and make you look less authoritative Listening The other side of effective communication skills is the ability to listen attentively Most people are great talkers but like to hear themselves talk so much they forget to listen to

other people Always try to avoid interrupting as this only shows that you are not listening or taking what others have to say seriously If you find are unclear about what was just said then wait for the speaker to finish and repeat back what you understood just to be sure This shows that you are attentive and offers the opportunity to correct any misunderstandings Find out more in this ideal guide book that will give you solutions and results quickly Scroll up and click the Buy Now button to get started instantly Order the Paperback version and receive the Kindle version for FREE today *Effective*
