It demonstrates how for managers to be successful they need to employ a range of key communication skills, styles and strategies. The contents are based upon the authors' considerable experiences of researching, teaching and consulting in a range of private and public sector organisations. From their academic and real world involvement they have identified the core skills of effective management presented in an academically rigorous yet student friendly way. The reader is encouraged to interact with the material covered. Each chapter contains a series of boxed text, diagrams, tables and illustrations which summarise core points. Exercises are also provided to enable managers to put the material reviewed into practice. All of this is underpinned and supported by a firm foundation of research findings.
