Egyptian Earth 'Abd al-Rahmān Sharqāwī, 1990 *Egyptian Earth* A. R. Sharkawi, 1972 **The Novel and the Rural Imaginary in Egypt, 1880-1985** Samah Selim, 2004-04-01 The book locates questions of language genre textuality and canonicity within a historical and theoretical framework that foregrounds the emergence of modern nationalism in Egypt The ways in which the cultural discourses produced by twentieth century Egyptian nationalism created a space for both a hegemonic and counter hegemonic politics of language class and place that inscribed a bifurcated narrative and social geography are examined The book argues that the rupture between the village and the city contained in the Egyptian nationalism discourse is reproduced as a narrative dislocation that has continued to characterize and shape the Egyptian novel in general and the village novel in particular Reading the village novel in Egypt as a dynamic intertext that constructs modernity in a local historical and political context rather than rehearsing a simple repetition of dominant European literary critical paradigms this book offers a new approach to the construction of modern Arabic literary history as well as to theoretical questions related to the structure and role of the novel as a worldly narrative genre **The Watkins Dictionary of Symbols** Jack Tresidder, 2012-01-01 Traditional symbols form a visual shorthand for ideas yet their functions and meaning extend far beyond that for thousands of years they have enabled artists and craftsmen to embody and reinforce beliefs about human life in immediate and powerful images This accessible and comprehensive guide features more than 2 000 major themes from Absinthe to the Zodiac figures and symbols found in myth literature and art as well as those that have entered into the mainstream of everyday life Covering classical and other mythologies Biblical themes and traditional symbols from cultures across the world this wonderful dictionary has thorough yet concise entries on individual animals plants objects supernatural creatures mythical episodes miracles and many other topics *What Men Know That Women Don't* Rich Zubaty, 2001-10 Here s a book for both men and women that is guaranteed to start some heated discussions FOR WOMEN Eavesdrop on the secret codes of masculinity Discover what makes men tick Penetrate the brain fog of masculine thinking Peel the cerebral onion of guy hood Find out how to get your way with your man FOR GUYS Here s a fishing trip down the river of your natural self A vacation from relationships A holiday from all things feminine A trout stream for your brain

Beckh,2020-06-03 In the early part of the last century Professor Hermann Beckh began a search to discover the truth about the Mystery wisdom of antiquity As a recognized authority on Buddhist texts he knew that complete knowledge of such Mysteries was not to be found within the limitations of waking consciousness sense perception and logic Beckh was already aware that Gautama Buddha had indicated the stages of higher knowledge Furthermore his studies of Rudolf Steiner s anthroposophical teachings revealed that such knowledge could be experienced directly given disciplined meditation Clairvoyant cognition included the conscious penetration of sleep consciousness the dream state and an experience of pre natal consciousness Both the Mysteries and Rudolf Steiner s major books he concluded were founded on the same perceptions Beckh a worldwide expert on Tibetan Sanskrit Pali and Avestan texts quickly became disenchanted with Madame Blavatsky s Theosophy as it displayed little precise academic knowledge of primary records At the same time university departments showed scant trace of understanding the texts they analysed through philology and sociology Thus based on comprehensive studies and personal experience he resolved to present his own perceptions and vision to the public The results are to be found in this invaluable book bringing together for the first time in English three groundbreaking publications Our Origin in the Light Genesis 1 9 1924 Zarathustra 1927 and From the World of the Mysteries 1927 as well as five of Beckh s articles from contemporary periodicals **Esoteric Egypt** J. S. Gordon,2015-01-30 A study of the 100 000

year old spiritual science of ancient Egypt Examines the metaphysical structure of our universe as seen by the ancient Egyptians Greeks and Celts showing that each is based on the same central concepts from time immemorial Reveals that the ancient Egyptians believed in reincarnation and a spiritual evolutionary process Explains the connections between the movements of Orion and Sirius and the story of Osiris and Isis the importance of the Pleiades and circumpolar stars to the Egyptians and the fundamental unity of the Egyptian pantheon Investigates the people who colonized greater Egypt 100 000 years ago descendants of the Atlanteans In Esoteric Egypt J S Gordon reveals how the sacred science and wisdom tradition of ancient Egypt the Land of Khem stems from an advanced prehistoric worldwide civilization Examining the metaphysical structure of our universe as seen by the ancient Egyptians Greeks and Celts he shows that each tradition is merely a variation on the central concepts of the precession of the equinoxes and the obliquity of the ecliptic pole He explores the connections between the cyclical movements of Orion and Sirius and the story of Osiris and Isis the importance of the Pleiades and the circumpolar stars and the ancient tradition of man as a divine being born from the substance of the stars He investigates the people who colonized greater Egypt 100 000 years ago the progenitors of ancient Egyptian civilization descended from the 4th and 5th Root Race Atlanteans Gordon explores the magical and esoteric meanings behind Egyptian

sacred ritual and temple art drawing parallels to the Mystery School process of initiation Explaining the fundamental unity of the Egyptian pantheon and the structure of the after death state he shows that the Egyptians clearly believed in reincarnation and a spiritual evolutionary process Revealing the ancient sacred science of the Land of Khem teachings passed down from the earliest times he examines the psychospiritual nature of the human being and the function of our spiritual identity and our souls Losing Touch with Nature Mary Thomas Crane,2014-11-24 Aristotelian naturalism and its discontents Losing touch with nature Spenser and the new science Shakespeare New forms of nothing Matter and power Epilogue What about Bacon **Ancient Egypt Light Of The World 2 Vol set** Gerald Massey,2013-10-15 First published in 2005 This expansive and fascinating treatment of ancient Egyptian mythology and its influence on the traditions that followed from it includes explorations of sign language in mythological representation totemism fetishism spirits and Gods the Egyptian Book of the Dead and Egyptian wisdom in the Hebrew Genesis Readers will enjoy the wealth of information offered by Massey as well as his clear and readable style Sexual Personae Camille Paglia,1991-08-20 The fiery provocative and unparalleled work of feminist art criticism that launched the exceptional career of one of our most important public intellectuals a remarkable book at once outrageous and compelling fanatical and brilliant One must be awed by Paglia s vast energy erudition and wit The Washington Post Is Emily Dickinson the female Sade Is Donatello s David a bit of pedophile pornography What is the secret kinship between Byron and Elvis Presley between Medusa and Madonna How do liberals and feminists as well as conservatives fatally misread human nature This audacious and omnivorously learned work of guerrilla scholarship offers nothing less than a unified field theory of Western culture high and low since Egyptians invented beauty making a persuasive case for all art as a pagan battleground between male and female form and chaos civilization and daemonic nature With 47 photographs *The Equality of Flesh* Brent Dawson,2024-06-15 The Equality of Flesh traces a new genealogy of equality before its formalization under liberalism While modern ideas of equality are defined through an inner human nature Brent Dawson argues that the sixteenth and seventeenth centuries conceptualized equality as an ambivalent and profoundly bodily condition Everyone was made from the same lowly matter and as a result shared the same set of vulnerabilities needs and passions Responding to the political upheavals of colonialism and the intellectual turmoil of new natural philosophies leading figures of the English Renaissance including Edmund Spenser and William Shakespeare anxiously imagined that bodily commonality might undermine differences of religion race and class As the period progressed later authors developed the revolutionary possibilities of bodily equality even as new ideas of fixed racial inequality emerged Some like the utopian radical Gerrard Winstanley and the republican poet John Milton challenged political absolutism through the idea of humans as base embodied creatures Others like the heterodox philosopher Margaret Cavendish the French theologian Isaac La Peyr re and the libertine Cyrano de Bergerac offered limited yet important interrogations of racial paradigms This moment Dawson shows would pass as bodily equality was marginalized in the liberal theories of John

Locke and Thomas Hobbes In its place during the Enlightenment pseudoscientific racism would come to anchor inequality in the body Contending with the lasting implications of material equality for modernity The Equality of Flesh shows how increasingly vehement notions of racial difference eclipsed a nascent sense of human commonality rooted in the basic stuff of life
