and how it all connects to the world Celebrated folklorist Dorothy Noyes offers an unforgettable glimpse of her craft and the many ways it matters Folklore is the dirty linen of modernity carrying the traces of working bodies and the worlds they live in It is necessary but embarrassing not easily blanched and made respectable for public view although sometimes this display is deemed useful The place of folklore studies among modern academic disciplines has accordingly been marginal and precarious yet folklore studies are foundational and persistent Long engaged with all that escapes the gaze of grand theory and grand narratives folklorists have followed the lead of the people whose practices they study They attend to local economies of meaning they examine the challenge of making room for maneuver within circumstances one does not control Incisive and wide ranging the fifteen essays in this book chronicle the humble theory of both folk and folklorist as interacting perspectives on social life in the modern Western world Tying folklore to larger trends in Western cultural thought leaving behind narrow concerns with genre or fossilized expressive forms Humble Theory showcases the potential of folkloristics to contribute meaningfully to interdisciplinary conversations about culture Journal of Folklore Research Humble Theory is a big book From a small scholarly field it announces the most substantial far seeing insights into the world's social life By writing it Noves becomes the kind of public intellectual the United States needs Journal of American Folklore Church Music Through the Lens of Performance Marcell Silva Steuernagel, 2021-03-14 This book is an investigation into church music through the lens of performance theory both as a discipline and as a theoretical framework Scholars who address religious music making in general and Christian church music in particular use performance in a variety of ways creating confusion around the term A systematized performance vocabulary for the study of church music can support interdisciplinary investigations of Christian congregational music making in today s complex interconnected world From the perspective of performance theory all those involved in church musicking are performing be it from platform or pew The book employs a hybrid methodology that combines ethnographic research and theory from ritual studies ethnomusicology theology and church music scholarship to establish performance studies as a possible next step in church music studies It demonstrates the feasibility of studying church music as performance by analyzing ethnographic case studies using a developmental framework based on the concepts of ritual embodiment and play change This book offers a fresh perspective on Christian congregational music making It will therefore be a key reference work for scholars working in Congregational Music Studies Ethnomusicology Ritual Studies and Performance Studies as well as practitioners interested in examining their own church Encyclopedia of American Folklife Simon J Bronner, 2015-03-04 American folklife is steeped in world music practices cultures or invented as new culture always evolving yet often practiced as it was created many years or even centuries ago This fascinating encyclopedia explores the rich and varied cultural traditions of folklife in America from barn raisings to the Internet tattoos and Zydeco through expressions that include ritual custom crafts architecture food clothing and art Featuring more than 350 A Z entries Encyclopedia of American Folklife is wide ranging and inclusive Entries cover major

Morgan-Ellis, Kay Norton, 2024 The Oxford Handbook of Community Singing shows in abundant detail that singing with others is thriving Using an array of interdisciplinary methods chapter authors prioritize participation rather than performance and provide finely grained accounts of group singing in community music therapy religious and music education settings Themes associated with protest incarceration nation hymnody group bonding identity and inclusivity infuse the 47 chapters Written almost wholly during the 2020 21 COVID 19 pandemic the Handbook features a section dedicated to collective singing facilitated by audiovisual or communications media mediated singing some of it quarantine mandated The last of eight substantial sections is a repository of new theories about how group singing practices work Throughout the authors problematize the limitations inherited from the western European choral music tradition and report on workable new remedies to counter those **Transforming Ethnohistories** Sebastian Felix Braun, 2013-08-26 Anthropologists need history to constraints understand how the past has shaped the present Historians need anthropology to help them interpret the past Where anthropologists and historians needs intersect is ethnohistory. The contributors to this volume have been inspired in large part by the teaching and writing of distinguished ethnohistorian Raymond J DeMallie whose exemplary combination of ethnographic and archival research demonstrates the ways anthropology and history can work together to create an understanding of the past and the present Transforming Ethnohistories comprises ten new avenues of ethnohistorical research ranging in topic from fiddling performances to environmental disturbance and spanning places from North Carolina

to the Yukon The authors seek to understand communities by finding and interpreting their stories in a variety of different texts some of which lie outside academic understanding and research methodology It is exactly those stories conventionally labeled myths or oral tradition that ethnohistorians demand we pay attention to Although historians cannot see or talk to their informants as anthropologists do both anthropologists and historians can listen to oral histories and written documents for the essential stories they contain The essays assembled here use DeMallie's approach to contribute to the history and anthropology of Native North America and address issues of literary criticism and contexts sociolinguistics performance theory identity and historical change historical and anthropological methods and theory and the interpretation of histories cultures and stories Debates over the legitimacy of ethnohistory as a specialization have led some scholars to declare its decline This volume shows ethnohistory to be alive and well and continuing to attract young scholars **German Literature** Robert Blankenship, 2017 The many fictional suicides in the literature of the German Democratic Republic have been greatly misunderstood The common assumption is that authoritarian oppression in East Germany led to an anomalous abundance of real suicides so that fictional suicides in GDR literature constitute a simple realistic reflection of East German society Robert Blankenship challenges this assumption by providing both a history of suicide in GDR literature and close readings of individual texts revealing that suicides in GDR literature rather than simply reflecting historical suicides contain rich literary attributes such as intertextuality haunting epistolarity and unorthodox narrative strategies Such literariness offered subversive potential beyond suggesting that real people killed themselves in a communist country This first book length study of fictional suicides in East German literature provides insight into the complex and dynamic rhetoric of the GDR Blankenship's underlying claim is that GDR literature ought to be read as literature with literary methodology not despite the country's politically and rhetorically charged nature but precisely because of it Suicide in East German Literature will be of interest to scholars of GDR literature humanities oriented scholars of suicide and those who are interested in the complex relationship between literature and history ROBERT BLANKENSHIP is Assistant Professor of German at California State University Long Beach Framing Sukkot Gabrielle Anna Berlinger, 2017-09-20 An important and timely study of the Jewish holiday s temporary shelters and the meaning of home Journal of Folklore Research The sukkah the symbolic ritual home built during the annual Jewish holiday of Sukkot commemorates the temporary structures that sheltered the Israelites as they journeyed across the desert after the exodus from Egypt Despite the simple Biblical prescription for its design the remarkable variety of creative expression in the construction decoration and use of the sukkah in both times of peace and national upheaval reveals the cultural traditions political convictions philosophical ideals and individual aspirations that the sukkah communicates for its builders and users today In this ethnography of contemporary Sukkot observance Gabrielle Anna Berlinger examines the powerful role of ritual and vernacular architecture in the formation of self and society in three sharply contrasting Jewish communities Bloomington Indiana South Tel Aviv Israel and Brooklyn New York Through vivid

description and in depth interviews she demonstrates how constructing and decorating the sukkah and performing the weeklong holiday s rituals of hospitality provide unique circumstances for creative expression social interaction and political struggle Through an exploration of the intersections between the rituals of Sukkot and contemporary issues such as the global Occupy movement Berlinger finds that the sukkah becomes a tangible expression of the need for housing and economic justice as well as a symbol of the longing for home Berlinger's rich and nuanced ethnography sheds light on many sukkot from Bloomington to Tel Aviv Jaffa and Jerusalem and back to Brooklyn like the wandering in the Sinai desert this journey is crucial Journal of American Folklore Body and Tradition in Nineteenth-Century France William G. Pooley, 2019-12-05 The moorlands of Gascony are often considered one of the most dramatic examples of top down rural modernization in nineteenth century Europe From an area of open moors they were transformed in one generation into the largest man made forest in Europe Body and Tradition in Nineteenth Century France explores how these changes were experienced and negotiated by the people who lived there drawing on the immense ethnographic archive of F lix Arnaudin 1844 1921 The study places the songs stories and everyday speech that Arnaudin collected as well as the photographs he took in the everyday lives of agricultural workers and artisans It argues that the changes are were understood as a gradual revolution in bodily experiences as men and women forged new working habits new sexual relations and new ways of conceiving of their own bodies Rather than merely presenting a story of top down reform this is an account of the flexibility and creativity of the cultural traditions of the working population William G Pooley tells the story of the folklorist Arnaudin and the men and women whose cultural traditions he recorded then uncovers the work carried out by Arnaudin to explore everyday speech about the body stories of werewolves and shapeshifters tales of animal cunning and exploitation and songs about love and courtship The volume focuses on the lives of a handful of the most talented storytellers and singers Arnaudin encountered showing how their cultural choices reflect wider patterns of behaviour in the region and across rural Europe
