Economic Liberalization Democratization And Civil Society In The Developing World:

Mipes;Econ Lib Democ Civil Soci NA NA,2014-01-14 This 12 country comparative volume examines the impact of economic structural adjustment programs upon grassroots civil associations and the implications for political liberalization and democratization in the developing countries of Latin America Africa Asia and the Middle East The authors take an in depth look at the impact of economic reform upon women s groups human rights organizations social welfare non governmental organizations unions and business associations They challenge the prevailing assumption that economic reform will automatically lead to greater democratization **Economic Liberalization, Democratization and Civil Society in the Developing World** R. Bensabat-Kleinberg,J. Clark,2000-06-22 This twelve country comparative volume examines the impact of economic structural adjustment programmes upon grassroots civil association and the implications for political liberalisation and democratization in the developing countries of Latin America Africa Asia and the Middle East The authors take an in depth look at the impact of economic reform upon women s groups human rights organisations social welfare non governmental organisations unions and business associations They challenge the prevailing assumption that economic reform will automatically lead to greater democratization **Economic Liberalization and Authoritarianism** Christian

Neugebauer,2021-11-29 Contrary to other world regions political regimes in the Middle East and North Africa MENA remain largely authoritarian While the search for explanations is still ongoing Christian Neugebauer draws attention to a hitherto underresearched factor economic liberalization Being part of a global shift from state led development towards structural adjustment in the economy these policies also deeply affected the countries of the MENA region This makes the resilience of authoritarianism in the region all the more puzzling as a large part of the scientific community expected economic liberalization to undermine authoritarian regimes Neugebauer strives to solve the puzzle with a comparative case study that covers four countries Egypt Tunisia Jordan and Morocco and their political regimes from independence in the 1950s to the Arab Spring in 2011 He shows that two specific policies of economic liberalization might in fact have been relevant for regime stability consumer price liberalization and privatization *The Role of Civil Society in Africa's Quest for Democratization* Abadir M. Ibrahim,2016-12-08 This book tests many of the assumptions hypotheses and conclusions connected with the presumed role of civil society organizations in the democratization of African countries Taking a comparative approach it looks at countries that have successfully democratized those that are stuck between progress and regression those that have regressed into dictatorship and those that are currently in transitional flux and evaluates what role if any civil society has played in each instance The countries discussed South Africa Ghana Nigeria Ethiopia Egypt and Tunisia represent a diverse set of social and political circumstances and different levels of democratic achievement providing a rich set of case studies Each sample state also offers an internal comparison as each has historically experienced different stages of democratization Along the course of each case study the book also considers the effect that other traditionally

studied factors such as culture colonization economic development and foreign aid may have had on individual attempts at democratization The first extensive work on civil society and democratization in Africa the book adds new insights to the applicability of democratization theory in a non Western context both filling a gap in and adding to the existing universal scholarship This book will be useful for scholars of political science economics sociology and African studies as well as human rights activists and policy makers in the relevant geographical areas

Civil Society and Women Activists in the Middle East Wanda Krause, 2012-05-27 In the Middle East and in Egypt in particular there has always been a tendency to accord complete supremacy to the authority and might of the state and to see society as a separate powerless entity However after the uprising of 2011 this assumption was turned on its head And it is the wide range of political activity beyond the remit of the official state where Wanda Krause locates a dynamic potential for political change from the bottom up She looks in particular at the influential role of women s private voluntary organisations in Egypt in shaping concepts of civil society and democracy Exploring both secular and Islamist organisations she offers a steadfast critique of the view that Islamic women activists are insignificant backward or uncivil Krause s examination of women activists in Egypt today is vital for those interested in Middle East and Gender Studies as well as those researching the wider issues of civil society and democratisation

Development, Civil Society and Faith-Based Organizations G. Clarke, M. Jennings, T. Shaw, 2007-11-28 This book examines the role of faith based organizations in managing international aid providing services defending human rights and protecting democracy It argues that greater engagement with faith communities and organizations is needed and questions traditional secularism that has underpinned development policy and practice in the North

The Illusion of Civil Society Jon Shefner, 2012-05-31 Much has been written about how civil society challenges authoritarian governments and helps lead the way to democratization These studies show that neoliberal economic policies have harmed many sectors of society weakening the state and undermining clientelistic relationships that previously provided material benefits to middle and low income citizens who are then motivated to organize coalitions to work for greater social justice and equality Recognizing this important role played by civil society organizations Jon Shefner goes further and analyzes the variegated nature of the interests represented in these coalitions arguing that the differences among civil society actors are at least as important as their similarities in explaining how they function and what success or lack thereof they have experienced Through an ethnographic examination extending over a decade Shefner tells the story of how a poor community on the urban fringe of Guadalajara mobilized through an organization called the Uni n de Colonos Independientes UCI to work for economic improvement with the support of Jesuits inspired by liberation theology Yet Mexico s successful formal democratic transition won with the elections in 2000 was followed by the dissolution of the coalition Neither political access for the urban poor nor their material well being has increased with democratization The unity and even the concept of civil society has thus turned out to be an illusion

Contesting the Repressive State Kira D. Juliet, 2018

This book advances research on the collective action dilemma in protest movements by examining protest mobilization leading up to and during the 2011 Egyptian Revolution and 2013 June 30th Coup in Cairo Egypt The book is organized chronologically and touches on why and how people make the decision to protest or not protest during different periods of the revolutionary process The overarching question is Why and how do individuals who are not members of political groups or organizers of political movements choose to engage or not engage in anti government protest under a repressive regime In answering the question the book argues that individual decisions to protest or not protest are based on the intersection of the following three factors political opportunity structures mobilizing structures and framing processes It further demonstrates that the way these decisions to protest or not protest take place is through emotional mechanisms that are activated by specific combinations of these factors The goal of the book is to investigate the relationship between key structural factors and the emotional responses they produce By examining 170 interviews with individuals who either protested or did not protest it explores how social media violent government repression changes in political opportunities and the military influenced individual decisions to protest or not protest

The ASEAN Intergovernmental Commission on Human Rights Hsien-Li Tan, 2011-07-07 This assessment of progress in Southeast Asia on human rights begins in the wake of the Asian values debate and culminates in the formal regional institutionalisation of the ASEAN Intergovernmental Commission on Human Rights AICHR Chapters examine the arduous negotiation of AICHR the evolving relationship between ASEAN states and the international human rights system and the historical and experiential reasons for hesitancy The text concludes with a discussion of how the evolving right to development impacts upon AICHR and international human rights in general and how their preference for economic social and development rights could help ASEAN states shape the debate

Women in Civil Society W. Krause, 2008-10-13 Women in Civil Society The State Islamism and Networking in the UAE investigates how women in an Arab Gulf country prove to play a key role in how civil society takes shape with and against one another through case studies on women in state run organizations Islamic organizations and networks

American Wars, American Peace Philip D. Beidler, 2007 As a writer Philip D Beidler has often drawn on his combat experience in Vietnam and his deep engagement with American popular culture His essays tap these sources in powerful truth telling ways In American Wars American Peace another voice emerges distinct yet also tied to Beidler s wartime memories and his love of literature film and music It is the voice of one of the baby boom progeny of the Greatest Generation who at home and abroad became the foot soldiers not just in Vietnam but in the Peace Corps the civil rights movement the women s movement and beyond Beidler has experienced enough of history to question the kinds of peace that one empire after another has tried to impose on the world at whatever immense costs As he reflects on terrorism patriotism geopolitics sacrifice propaganda and more Beidler revisits his generation s inherited vision of national purpose and he asks what happened These essays are a sobering wake up call for even the most informed and conscientious citizen

Handbook of Federal Countries, 2002 Ann

Griffiths, Ann L. Griffiths, 2003-03 For more than two centuries federalism has provided an example of how people can live together even as they maintain their diversity While the implosion of the former Yugoslavia illustrates that federalism is not and cannot be a panacea its abiding success in other countries shows that it is a system worth examining The Handbook of Federal Countries 2002 a project of the Forum of Federations an international network that seeks to strengthen democratic governance by promoting dialogue on and understanding of the values practices principles and possibilities of federalism does exactly this incorporating available information about existing federations in one place for easy convenient reference The Handbook of Federal Countries 2002 includes articles on the twenty one countries that classify themselves as federations as well as four whose systems incorporate sufficient elements of federalism that it is useful to include them These articles written by authors around the world examine the development institutions constitutions and dynamics of federalism and include tables containing current political geographic and economic social information The Handbook also includes four comparative papers each of which examines a theme of concern to federal countries foreign policy in an era of globalization that increasingly encroaches on the jurisdiction of constituent units and demands their active participation use of federalism to accommodate minorities distribution of resources and power fiscal federalism and issues relating to regional autonomy and federalism in a European context

Arab Spring Kjetil Fosshagen, 2014-03 The events of the Arab Spring presented a dramatic reconstitution of politics and the public sphere through their aesthetic and performative uses of public space Mass demonstrations have become a new global political form grounded in the localization of globalizing processes institutions and relationships This volume delves beneath the seemingly chaotic nature of events to explore the structural dynamics underpinning popular resistance and their support or suppression It moves beyond what has usually been defined as Arab Spring nations to include critical views on Bahrain the Palestinian territories and Turkey The research and analysis presented explores not just the immediate protests but also the historical realization appropriation and even institutionalization of these critical voices as well as the role of international criminal law and legal exceptionalism in authorizing humanitarian interventions Above all it questions whether the revolutions have since been hijacked and the broad popular uprisings already overrun suppressed or usurped by the upper classes

Youth Activism in Egypt Ahmed Tohamy, 2016-08-24 In this book Ahmed Tohamy analyses the often neglected trajectory that led up to the protests in Egypt that culminated in the fall of Hosni Mubarak in February 2011 Tohamy's assertion is that by examining the decade preceding this momentous event we see that the youth movement far from being inert was extremely active Tohamy uses the Social Movements Theory to argue how Egyptian youth became a new agent of change in the Middle East By positioning the youth activists as dynamically engaging with their social and political contexts within a framework of opportunities and constraints his analysis strikes at the heart of the debates concerning the nature and substance of revolution and its effects on state and society

Contemporary Capitalism and Its Crises Terrence McDonough, Michael Reich, David M. Kotz, 2010-01-11 This

volume analyses contemporary capitalism and its crises based on a theory of capitalist evolution known as the social structure of accumulation SSA theory It applies this theory to explain the severe financial and economic crisis that broke out in 2008 and the kind of changes required to resolve it The editors and contributors make available new work within this school of thought on such issues as the rise and persistence of the neoliberal or free market form of capitalism since 1980 and the growing globalization and financialization of the world economy The collection includes analyses of the U S economy as well as that of several parts of the developing world Regime Hegemony in Museveni's Uganda J.
