McFarland, 1991-10-07 invites readers to re examine their own paradigmatic assumptions and rethink the causes and cures for the malaise that is pervasive in our political economy Rick Tilman University of Nevada Las Vegas [International Bibliography of Economics](#) British Library of Political and Economic Science, 1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

liberalism's deep complicity with fascism. The Japanese Ideology provides a materialist analysis of the reactionary ideology then overtaking Japan with profound significance for anywhere fascism has taken root. Modeled after Marx and Engels's The German Ideology, it critiques idealism as the common ground for liberalism and fascism against which only historical materialism can suffice. Tosaka demonstrates how liberal and fascist ideas at once justified and concealed Japan's colonization of East Asia and he investigates the many traces of fascism in Japanese thought and society. The Japanese Ideology makes an important intervention in Marxist theory by criticizing reliance on the East-West binary and the notion of the Asiatic mode of production. Robert Stolz's translation introduces Anglophone readers to a classic of twentieth-century Marxist thought by an unsung peer of Gramsci and Benjamin with striking relevance today.
