DIANE Publishing Company, Detailed account of creating an economy which will enable all Americans to have a chance to develop their talents have access to better jobs higher incomes have the capacity to build the kind of life for themselves their children that is the heart of the American dream This economic strategy involved putting the Federal Government in order expanding opportunities for education training expanding the frontiers of free fair trade Extensive tables charts The Social Health of the Nation Marc Miringoff, Marque-Luisa Miringoff, 1999-07-01 This book is written for people who are skeptical and uneasy when they hear politicians economists and reporters tell Americans You re never had it so good as they recite lists of leading economic indicators The Social Health of a Nation as its subtitle indicates tell us How America is Really Doing The facts in this book confirm what many American know intuitively they are not better off now not with income inequality at its worst level in fifty years not with more and more Americans dropped from insurance rolls not with thousands of Americans feeling the effects of corporate downsizing not with real wages on a long term decline This book provides the facts to see the rest of the picture the condition of the American national spirit that can never be revealed by economic indicators alone It also provides a forceful argument that without the social side of the picture Americans are in the dark about the nation s progress This book as not an ideological tract however It s purpose is portrayal not prescription Not everything reported is bad news an entire chapter is devoted to indicators of improving social performance Because it does not advocate for example a return to big government or any quick fix solution this book will be welcomed by readers from all parts of the political spectrum or of no particular political persuasion It will appeal to concerned individuals from business government clergy and other professions and to those who represent no interest group It will also be widely used as supplemental text in a variety of sociology economics and political science courses The Social Health of the Nation is written by two sociologists Marc and Luisa Miringoff Marc is currently the Professor of Social Welfare Policy at Fordham University Graduate Center and the founder and Director of the Fordham Institute for Innovation in Social Policy Luisa is Professor of Socioogy at Vassar College where she has served as Department Chair and Director of its Urban Studies Program Both earned Ph D degrees from the University of Chicago Since 1987 Marc has headed a research team to develop the Index of Social Health a nationally recognized social barometer that has been featured in ten New York Times and four Washington Post articles This index has commanded increasingly large electronic and print media attention because of its powerful presentation of trends in family life income health housing child poverty and other social indicators of everyday life in the United States The Social Health of the Nation will include the previously unreleased and very newsworthy Index for 1998 But it will contain much more Influenced by the effectiveness of the Index of Social Health in the summer of 1996 the Ford Foundation approached the authors with a plan Alarmed by a lack of government attention in the United States to monitoring

the nation's social health the Foundation had a vision of creating a book building on the Index of Social Health to show what is needed to advance this field and deepen its impact To that end the Foundation provided financial assistance for the book's development by funding Miringoff's Fordham Institute for Innovation in Social Policy to convene a twenty five member team the Working Group on Social Indicators including nationally known pollster Daniel Yankelovich and Director of Research and Vice President of CNN Judy Milestone Each member of the Working Group was motivated to improve social reporting in the United States They came from the media universities and government representing fields as diverse as law medicine sociology and economics The vision of the Ford Foundation with the assistance of this working group has now become a reality in The Social Health of the Nation a nine chapter book written by Marc and Marque Luisa Miringoff This book does show the other side of the Official Portrait of How America is Doing providing comprehensive coverage of improving shifting and worsening social performance It fills in the blanks after all the economic indicators are posted The book contains surprises the same kind that have been made the yearly release of the Social Index of Health a subject of media attention for twelve years an index whose 1998 figures will be released exclusively in this book While some of the indicators will shock other will give reason for hope as we see evidence of improved performance in unlikely places For those whose livelihoods and well being depend on the social health of the United States this book provides the information necessary to find creative solutions for improved performance For students in a wide range of courses this book will become required reading

Federal Register ,2000-02-08 The American Dream Joseph L. Daleiden, Can each of us achieve our own American dream while recognizing needs of other individuals society and future generations Not if our present national policies continue warns long term planning expert Joseph L Daleiden He persuasively argues that if present socioeconomic trends remain our nation faces social disaster before the middle of the 21st century These trends can be reversed he insists but only if we are willing to 1 reject failed policies both liberal and conservative directed at population growth the environment the national debt trade poverty crime race relations education healthcare social security and tax reform 2 accept that all of these areas of concern are intertwined and 3 take responsibility for our decisions Avoiding ideology and platitudes Daleiden's pragmatic approach relies on actual evidence of how prospective policies will influence human behavior and whether their outcomes will increase or decrease human happiness in the long run Joseph L Daleiden Evanston IL is also the author of The Final Superstition A Critical Evaluation of the Judeo Christian Legacy and The Science of Morality The Individual Community and Future Generations 105-2 Joint Committee Print: Compendium of Staff Studies on Monetary Policy, November 1998 ,1998 **Handbook of Monetary and Fiscal Policy** Alan A. Pierre,2021-11-18 First Published in 1999 This book addresses one such needed change in the corporate arena the continuing inequality of opportunities for success that blacks experience relative to their similarly qualified white peers in the U S Through interviews and research the author tries to find the answers that still need explanation due to the the stereotypes of blacks and other minorities that were kept alive through various media *OECD Reviews of Regulatory Reform: Regulatory Reform in the United States 1999* OECD,1999-10-10 This report presents an integrated assessment of regulatory reform in framework areas such as the macroeconomic context the quality of the public sector competition policy and enforcement and integration of market openness principles in regulatory processes

confines of mainstream economic thinking to find a solution to these critical issues *Monthly Energy Review: January 1998*
, *Social Security* John Attarian, Treating the Social Security crisis in unusually broad perspective Attarian is critical of both the status quo and the privatization camps and his recommendations offer an alternative to both The book will be of interest to policy makers as well as citizens concerned about the future of Social Security BOOK JACKET The Price of Citizenship Michael B. Katz, 2002-03 Katz shows how these changes are propelling America toward a future of increased inequality and decreased security as individuals compete for success in an open market with ever fewer protections against misfortune power and greed And he shows how these trends are transforming citizenship from a right of birth into a privilege available only to the fully employed Jacket *Operation of the Trade Agreements Program, The Year in Trade, 48th Report 1996* , The American Untouchables: America & the Racial Contract Andre Smith, 2019-02-15 The issue of race is often a scab Americans choose to ignore However social science has a responsibility and an obligation to examine not simply the amenable subjects but also the controversial This work in a word is controversial Thomas Franks 2004 argued that cultural differences led white Kansans to abandon the Democratic Party for the Republican Party during the 1980s He specifically argued that abortion was the unifying issue in this ideological migration Simultaneously future President Ronald Reagan opened his campaign for the presidency in Philadelphia Mississippi the sight of the massacre of four young civil rights activists over a decade earlier Race has and is a factor in the American experience Franks premise is simply that the absence of the concentration of African Americans in the Kansas area negated the influence of the black threat hypothesis on the observed ideological switch of white Kansans This work argues that Franks premise fails to incorporate the over arching ideological switch of white voter migration to the Republican party that was occurring during the same period and that Reagan s speech in Philadelphia Mississippi was an overt cue that he was rejecting the civil rights consensus for an historically established race based social contract that positioned people of color outside the traditional bounds of the social contract The study is a sociopolitical analysis of the African American experience utilizing the racial contract framework developed by Charles Mills The racial contract holds that the social contract explicitly dictates interactions and transaction costs between citizens and government Mills supposition is that historically non Western Europeans were excluded from the penalties for violations of the social contract and a tacit race based contract dictated transaction costs and interactions between Europeans and non Europeans The work utilizes the framework to trace the sociopolitical environment from the first appearance of Africans in America to the present It has the supposition that the initial sociopolitical status of Africans in America was as a result of the reformation of the Western feudal agrarian culture with African captives attached to the land as the neo serfs but that the reformation of feudalism was only possible within the context that Africans were implicitly viewed as outside the bounds of the codified social contract It traces American sociopolitical conflict over the expansion of the racial contract which was the basis of the American Civil War and the establishment of an implicit sociopolitical order

within the bounds of the racial contract at the end of the Civil War with codified sanctions for violations of commensality and endogamy
