**A.D. 2000** Iqbal Narain, Surendra K. Gupta, 1989 **The UN and Transnational Corporations** Tagi Sagafi-nejad, John H.

Dunning, 2008-10-16 Are transnational corporations TNCs and foreign direct investment beneficial or harmful to societies around the world Since the birth of the United Nations more than 60 years ago these questions have been major issues of interest and involvement for UN institutions What have been the key ideas generated by the UN about TNCs and their relations with nation states How have these ideas evolved and what has been their impact This book examines the history of UN engagement with TNCs including the creation of the UN Commission and Centre on Transnational Corporations in 1974 the failed efforts of these bodies to craft a code of conduct to temper the revealed abuses of TNCs and with the advent of globalization in the 1980s the evolution of a more cooperative relationship between TNCs and developing countries resulting in the 1999 Global Compact **Apostles of Development** David C. Engerman, 2025-05-30 The battle against global poverty

that began after World War II was a major undertaking engaging economists engineers and organizations Featuring front and centre were six remarkable economists Amartya Sen Manmohan Singh Mahbub ul Haq Jagdish Bhagwati Rehman Sobhan and Lal Jayawardena all born as colonial subjects in the British Empire and studied at Cambridge University They represented a new figure on the world scene the Third World development expert and played a crucial role in global debates about poverty and development Apostles of Development examines their different economic doctrines and the ongoing debate surrounding economic theory in poor countries compared to rich ones The lives of these apostles reveal how development did not begin with textbooks but with real world attempts to solve very specific and pressing problems Finally the book emphasizes that development was a Global South project first and foremost aiming to improve the conditions of the world's poorest countries It challenges the conventional wisdom that sees development only as a tool of rich countries to dominate or as proof of their humanitarian spirit It argues that development succeeds not when it follows ideological prescriptions but when it looks for what works The fading of grand visions shaped by ideological concerns has been one of the lasting effects of the end of the Cold War The book argues that the best way forward is determined modesty focusing on practical matters such

as addressing gross inequality and insisting that development means more than just economic growth Given the salience of questions of economic inequality and the constant visibility of the promises and problems of economic development in the world today this is a timely and important read

Scrase, 2021-12-12 First Published in 1997 In much of the comparative education literature questions of educational inequality and lack of educational opportunity in the developing world stand as perplexing complex and difficult problems Yet while inequality in education remains one of the most researched and written about topics in the discipline the question of social justice and its relationship to education remains implicit This volume aims to reverse this trend to make the issue of social justice both in theory and practice central and explicit **The Making of Modern Japan** Myles Carroll, 2021-10-18 In The Making of Modern Japan Myles Carroll offers a sweeping account of post war Japanese political economy exploring the transition from the post war boom to the crisis of today and the connections between these seemingly discrete periods Carroll explores the multifarious international and domestic political economic social and cultural conditions that fortified Japan's post war hegemonic order and enabled decades of prosperity and stability Yet since the 1990s a host of political economic social and cultural changes has left this same hegemonic order out of step with the realities of the contemporary world a contradiction that has led to three decades of crisis in Japanese society Can Japan make the bold changes required to reverse its decline
