The Economics of Immigration Örn B. Bodvarsson, Hendrik Van den Berg, 2009-06-12
The inspiration for this book came from a collaborative research project on immigration begun in 2001 when we were colleagues at University of Nebraska Lincoln Bodvarsson was a Visiting Professor there in 2001-05 Our project dealt with the application of Say's Law to the supply of immigrant labor meaning that when the supply of immigrant labor grows in an area the new immigrants being consumers bolster labor demand and help to offset the lower wages they may bring about Our test case was the seemingly obscure Dawson County Nebraska where the meatpacking industry experienced a relatively huge increase in Hispanic born labor supply around 1990 We found for Dawson County this demand effect to be significant and our results for this test case generalizable to other more prominent test cases This inspired us to study the famous Mariel Boatlift where Miami's labor force grew suddenly by 7% due to the arrival of nearly 125 000 Cuban refugees in the spring of 1980 In that study we showed that the Marielitos exerted a significant demand effect which we argue helps to account for the stylized fact that the Mariel influx had a relatively benign effect on the Miami labor market We had the privilege of presenting both studies at various conferences in the USA Norway Taiwan and Israel and these studies have been published in *Labour Economics* and the *Research in Labor Economics* series both studies are discussed in detail in this book

Haines, Karen Rosenblum, 1999-10-30 Few issues have provoked as much controversy over the last decade as illegal immigration While some argue for the need to seal America's borders and withdraw all forms of social and governmental support for illegal migrants and their children others argue for humanitarian treatment including legalization for people who fill widely acknowledged needs in American industry and agriculture and have left home country situations of economic hardship or political persecution The study of illegal immigration necessarily confronts a broad range of migrants from the familiar border crossers to those who enter illegally and overstay their visas to the many unrecognized refugees who enter the country to seek protection under U S asylum law The subject also demands attention to American society's responses to these newcomers responses that often focus on limited elements of a complex issue A comprehensive up to date review of this volatile subject this book provides an accessible balanced introduction to the subject Covering the full range of illegal immigrants from Mexican border crossers to Central American refugees illegal Europeans and smuggled Chinese the book considers the kind of work the migrants do and the public response to them The work is divided into four parts Concepts Policies and Numbers The Migrants and Their Work The Responses and Illegal Immigration in Perspective Economic and Demographic Consequences of Immigration United States. increased debates about the effect of these immigrants on the cost of public services and states have begun to enact policies that limit the public services available to illegal immigrants The central issues are how many illegal immigrants reside in particular local areas and states and their effect on public expenditures and revenues and the economy in general The Local Fiscal Effects of Illegal Immigration workshop selected six studies for analysis The six case studies focused on one specific aspect of the complex question of the demographic economic and social effects of immigration the net public services costs of illegal immigrants to selected geographical regions **Regionalism and Globalization** Sajal Lahiri,2001 This volume brings together articles on three primary elements of globalization multilateralism regionalism and unilateralism Expert contributors investigate the substantive issues of commodity and factor trade capital movements and monetary and fiscal policies from both theoretical and empirical perspectives **The Romanian Journal of European Studies no.5-6/2007 ,**
