Abstract Economies across the world are undergoing a transition from a centrally planned system to a free market system since late 1980s. The ultimate aim of every nation was to accomplish economic security but in the due process, they had to confront certain transient negative impacts too. All the economies that were under the transition process had enforced various reforms and had undergone major structural changes for embracing a market economy. Indeed, even today, many developing countries and regions are under a transition process. Lately, the nations and regions are trying to attain sustainable economic development by giving due regard to the environment under the current climate change scenario taking into consideration the overexploitation of resources and greenhouse gas emissions. Many have adopted and have executed the concept of bioeconomy as a part of sustainability by adopting appropriate policies and strategies in order to combat various environmental as well as societal issues. Thus, under the scenario of transition economy, prospects of bioeconomy are higher when seen from an economic, environmental and social perspective. This article reviews the prospects of bioeconomy in transition economies. The article will firstly discuss the characteristics of transition economies with an emphasise on China and India, and move towards global perspective of bioeconomy, and the efforts of various countries to include it as an inclusive governance mechanism to avert the detrimental effects of global change. Following this, the biotechnology, biomass and

bio refinery aspect of bioeconomy are elaborated, and the impacts bioeconomy can make in employment generation, ensuring food and health securities, and safeguarding environment and climate are discussed with an emphasis on various sectors such as agriculture, forestry, fishery and industry. The article invites the importance of proper policy framework, and close collaboration between public and private sectors by considering economic, environmental, institutional, technological and social challenges.

Keywords: Bioeconomy, Low-emission development, Sustainable developments goals, Transition economy

1. Introduction

Economic transitions have been taking place since a long period of time which has brought wider changes across the globe leading to the development of many major economies. Along with these transitions, various environmental as well as societal changes are also taking place. The dependence on fossil resources and derived fuels for a considerably long period of time has generated impediments in the economic sector as well as in the environment in the form of global warming, climate change, air, water and soil pollution, and so on. It, in turn, has irreversible impacts on societies including mass migration from rural regions to cities, and immigration from poor to rich countries due to economic hardships, and so forth. For promoting sustainable development, bioeconomy is

Economies In Transition Conception Status And Prospects:

Economies In Transition: Conception, Status And Prospects Peter Koveos,Ivan Teodorovic,Allan Young,2002-12-16 To date the record of economic transition has decidedly been mixed The worldwide political climate is still in favor of economic reform and the process continues to have considerable momentum On the other hand this process now faces a number of formidable obstacles There appears to be general agreement that in many countries the promise of a better standard of living which economic transition offers to the mass of the citizenry has failed to produce the rapid and dramatic results hoped for There is an increasing conflict of interest between multinational firms and the national business community Moreover many transition economies have experienced a slowing of economic growth in real terms and social services have been severely cut This book deals with the development of those forces that have played a major role in the successes and failures of economic transition Its distinctive feature is that it does this from the perspective of economic political and social analysis taking into account both theoretical constructs and economic realities for those countries which have attempted the grand experiment with economic transition

State Capitalism Reforms and the Path for Belarus Kiryl Rudy,2020-10-12 This book is an insightful study of the transition economy using the little known case of Belarus a country trapped in transition for almost three decades The model of state capitalism so widely internationally known has different specific roots metrics and instruments in Belarus The book outlines several pitfalls facing by the Belarusian economy all of which lead to long term economic recession in Belarus

Croatia and the European Union Pero Maldini, Davor Paukovi?, 2016-03-09 The accession of Croatia to the EU marked the end of a long and arduous period of transition Croatia had to meet significantly higher criteria than previous states with suspicion and concerns among existing members about further enlargement increasing Meanwhile initially strong public support in Croatia declined as inconsistencies in EU policy entry criteria and problems caused by the economic crisis all combined with fears about the loss of national identity and the ability to realize national interests The successful Croatian accession to the EU in 2013 shows

that despite concerns on both sides the EU continues to have meaning and significance and that membership remains highly desirable Through nine mutually interrelated chapters the contributors speak not only about the political and social situation in Croatia but also prospects for the European Union itself **Slovenia** Mojmir Mrak, Matija Rojec, Carlos Silva-Jauregui, 2004-01-01 Thirteen years after independence from the former Socialist Republic of Yugoslavia Slovenia has become one of the most advanced transition economies in Central and Eastern Europe and will become a member of the EU in May 2004 This publication examines the country's recent political and socio-economic history its transition to a market economy and the challenges that lie ahead It includes contributions from Slovenia's president a former vice prime minister the current and previous ministers of finance the minister of European Affairs the current and former governors of the Bank of Slovenia as well as from leading development scholars in Slovenia and abroad Syracuse Journal of International Law and Commerce ,2003 **Pluralistic Economics and Its History** Ajit Sinha, Alex M. Thomas, 2019-05-24 This volume is a history of economics as it was interpreted discussed and established as a discipline in the 20th century It highlights the pluralism of the discipline and brings together leading voices in the field who reflect on their lifelong work The chapters draw on a host of traditions of economic thought including pre-classical classical Marxian neoclassical Sraffian post Keynesian Cantabrigian and institutionalist traditions in economics Further the volume also looks at the history of economics in India and its evolution as a discipline since the country's independence This book will appeal to students researchers and teachers of economics and intellectual history as well as to the interested general reader **Bibliography of Sources on the Region of Former Yugoslavia Volume III** Rusko Matuli?, 1998 *Forthcoming Books* Rose Arny, 2002 *Solar Energy Update* ,1978 **Land Use Transitions and Rural Restructuring in China** Hualou Long, 2020-05-27 Intended as a comprehensive guide to the study of land use and rural development this book offers detailed descriptions of land use transitions and rural restructuring To do so it chiefly focuses on three main aspects the first of which is the application of geographical perspectives in order to understand rural issues in connection with urbanization industrialization globalization and rural vitalization strategies in contemporary China Secondly it presents a rich blend of regional and national analyses detailed explorations of local cases and critical and theoretically informed discussions that address historical paths and future projections Lastly it adapts concepts derived from western literature to situations and experiences in rural China and provides empirical evidence from an insider perspective Given its scope the book offers a valuable resource for researchers and for graduate students courses in geography and sociology **Fossil Energy Update** ,1978 Studies in Globalization and Economic Transitions K. Griffin, 1996-10-11 This volume is about development policy since the end of the Cold War One set of essays under the heading of globalization includes a critique of foreign aid proposals for a new framework for development cooperation and an assessment of arguments for regulating world markets within a liberal global economy Another set focuses on various types of economic transitions namely from central planning to a market oriented system from

capitalism to socialism and from an inward to an outward oriented strategy Throughout the volume the human development approach is used to illuminate some of the major issues of our time
