Economic And Management Methods For Tourism And Hospitality Research:

Economic and Management Methods for Tourism and Hospitality Research Tom Baum,Ram Mudambi,1999-03-12

The tourism and hospitality sector is arguably one of the largest components of the global economy with a growth rate in consumption that supersedes that of most other goods and services As a consequence the profile of tourists is changing as consumers become more experienced more demanding and more likely to treat tourism purchases in very much the same way as they do any other item of consumption This coupled with the globalisation of communications transport and technology are creating a new environment for tourism professionals The challenge is now to recognise the breadth of the information environment and to be able to manage it successfully This book is designed to provide managers and researchers with insights into the practical application of tools for gathering and analysing information These tools can be used in understanding tourism phenomena and in planning responses Although quantitative in focus the methods presented here draw on a variety of disciplinary origins and have application across the range of decision making contexts that arise in tourism and hospitality A collection of well regarded international authors have contributed to this book giving the reader a broad coverage of area whilst focusing on some key specific topics A basic knowledge of quantitative and economic concepts and techniques is required to fully appreciate the book and to be able to apply the techniques in real or simulated contexts Tourism professionals within policy planning research and statistics will find this book a useful and practical guide to the subject Final year undergraduates and postgraduate students will find it a rich source of information for research in the area

The Spread of Yield Management Practices Fabiola Sfodera, 2006-01-16 Yield management has always been considered a

technique for large companies whether these be airlines railroad car rental or hotel companies Its application to the small and medium sized businesses that characterise the tourism industry in many countries Italy in the first place has never been totally excluded but its implementation and subsequent actuation has always been considered too expensive for this type of business In recent years all this has been changing Technology and research have opened up new possibilities for its application at costs and following methods that are acceptable even to those who cannot access sophisticated statistics or mathematics instruments The evolution and the rapid changes in the reference scenarios both of the demand and the offer have done the rest It has become clear that to compete in a market as vast as the tourism one one must apply the principles and techniques of marketing to produce and deliver a service that can satisfy the needs of the client better than the competition In the same way however a deeper knowledge of the processes of the clientele s choice acquisition and consumption permits the formulation of increasingly accurate forecasts of their behaviour and an understanding of the significance and importance that each client segment attaches to the purchase and consumption of a particular service In this way the application of the yield management technique has assumed a new and more important position as well as a greater and constant spread
