Economic Independence and Zambian Copper Mark Bostock, Charles Harvey, 1972 **Economic Independence and Zambian Copper** Mark Bostock, 1972 **Recent Developments in the Zambian and Zairian Copper Industries** Raymond Frech Mikesell, 1972 **Economic Independence and Zambian Copper** Mark Bostock, Charles Harvey (M.A.), 1972 The legacy of the British South Africa Company the historical background Prospecting and mining activity 1895 1970 Growth and the structure of the economy The background to participation Tax reform in the mining industry The takeover The prospects for new mine investment **Copper Empire** Larry Butler, 2007-10-11 This is a study of the evolving relationship between the British colonial state and the copper mining industry in Northern Rhodesia from the early stages of development to decolonization encompassing depression wartime mobilization and fundamental changes in the nature and context of colonial rule **Zambia's Foreign Policy** Douglas G Anglin, 2021-12-12 This volume examines Zambia's role in the search for African independence unity and development particularly in the context of southern Africa It also analyses the problems of dependence and underdevelopment and their impact on foreign policymaking By concentrating on the key issues and major crises that confronted Zambia's decision makers during the nation's first years the authors explain the country's current preoccupations and future prospects Although their primary focus is on Zambia they also treat a range of substantive and theoretical issues *Indigenization of African Economies* Adebayo Adedeji, 2023-08-18 Originally published in 1981 this book examines the progress of a number of national efforts to move towards economic self reliance It consists of case studies from Egypt Zambia Ghana Nigeria Kenya Tanzania Ethiopia Botswana Lesotho and Swaziland and Senegal The studies are set in a framework that outlines the historical background to African economic dependence and they discuss the theoretical and practical implications of that dependence It makes an important contribution to the study of indigenization bringing together a group of African specialists writing from the inside and articulating the continent's challenges with convincing authority **Copper King in Central Africa** Hyden Munene, 2022-01-31 Copper King in Central Africa offers a detailed account of the corporate history of the Rhokana Rokana Corporation and its Nkana mine Thematically and chronologically organised it explores the discovery of viable ores on the Northern Rhodesian Zambian Copperbelt in the late 1920s which attracted foreign capital from South Africa Britain and the USA prompting the development of the Nkana mine and the formation of the Rhokana Corporation in the early 1930s It follows through the evolution of the copper mining industry up to the re privatisation of the Zambian mining sector in 1991 The book ties into a single narrative the disparate themes of corporate organisation labour relations and profitability of Rhokana demonstrating how the firm was for a time the most important mining entity in the Northern Rhodesian Zambian mining industry Rhokana was both an investment firm on the Copperbelt and a mining company through Nkana mine Thus the Corporation was central to the development and profitability of the copper industry in Zambia Its corporate and labour policies influenced the Copperbelt as a whole

Employing the largest labour force in the mining sector Rhokana spearheaded the labour movement on the Copperbelt Its Nkana mine was also the largest producer of copper in the Northern Rhodesian mining industry between 1940 and 1953 and contributed hugely to the war economies of Britain and the USA Throughout its history Nkana was also a major source of cobalt After nationalisation of the mining sector in 1970 Rhokana surrendered its investments in the wider copper industry but remained central to the Copperbelt's smelting and refining operations owning the biggest metallurgical facilities in the industry

The Politics and Economics of Decolonization in Africa Andrew Cohen, 2017-05-26 The slow collapse of the European colonial empires after 1945 provides one of the great turning points of twentieth century history With the loss of India however the British under Harold Macmillan attempted to enforce a second colonial occupation supporting the efforts of Sir Andrew Cohen of the Colonial Office to create a Central African Federation Drawing on newly released archival material The Politics and Economics of Decolonization offers a fresh examination of Britain's central African territories in the late colonial period and provides a detailed assessment of how events in Britain Africa and the UN shaped the process of decolonization The author situates the Central African Federation which consisted of modern day Zambia Zimbabwe and Malawi in its wider international context shedding light on the Federation's complex relationships with South Africa with US Presidents Dwight Eisenhower and John F Kennedy and with the expanding United Nations The result is an important history of the last days of the British Empire and the beginnings of a more independent African continent
