## **Economic Realities Of Contemporary Confederation:**

**A History of Canadian Economic Thought** Robin Neill, 1991-06-06 A History of Canadian Economic Thought investigates the relationship between the evolution of economic theory and the particular geographical and political context of that theory Theories and policies are critiqued by testing them against both the conditions to which they were applied and against competing theories Not surprisingly Canadian economics reflects a number of significant issues in Canadian history Neill argues that there were distinctive economic movements in nineteenth century Ontario and in early twentieth century Quebec but that these have been displaced by an emerging North American discourse The book includes full accounts of the work of all the major figures in Canadian economics including John Rae H A Innis and Harry Johnson Federal State, National Economy Peter Leslie, 1987-12-15 As free trade talks continue uncertainly as Ottawa and Washington toss protective tariffs at each other s goods and as the provinces continue to disagree among themselves and with the federal government the search for a national economic policy goes on A critical element in that search is the balance between regional needs and federal priorities Peter Leslie s interpretive essay provides a context in which to view the political and economic forces that make up that delicate balance including those highlighted in the report of the Macdonald Commission He discusses the nature of Canada s federal system and its relevance to policy especially in the economic sphere where differential effects among regions are often difficult to avoid Leslie offers a thoughtful appraisal of a historically complex set of relationships and suggests the ways in which it will determine strategy in an area that will continue to occupy political centre stage in Canada for some time to come **Strength in Adversity: A Study of the Alberta Economy** Robert L. Mansell, Michael B. Percy, 1990 After a decade of exceptionally strong performance the Alberta economy experienced large swings in activity in the 1980s and ranked among the most unstable in Canada and the United States This detailed study of the course of the Alberta economy from the early 1970s to the late 1980s assesses the causes for this instability and explores ways in which federal and provincial government policies and market forces could lessen the volatile nature of the economy *The Secession of Quebec and the Future of Canada* Robert Andrew Young, 1998 Based on the premises that Quebecers vote for independence in a referendum and Canada accepts this result *The Secession of Quebec and the Future of Canada* is a timely examination of the implications of separation for Quebec and the rest of Canada The New Practical Guide to Canadian Political Economy Daniel Drache, Wallace Clement, 1985-01-01 The New Practical Guide to Canadian Political Economy is a handy reference to the vast range of research and writing that political economists in Canada have completed to the date of publication The book is divided into twenty five subject bibliographies each one compiled and introduced by an expert in the field The overall range of subjects includes economic development in Canada Canada s external economic relations regional disparities and regional development social and economic classes women Native peoples politics and the Canadian state nationalism culture and political thought The book is indexed by author and includes a helpful shortlist of the staples in

Canadian political economy Published in 1985 The New Practical Guide to Canadian Political Economy remains a useful reference to some of the classic literature of the discipline *Intergovernmental Relations in Canada: Politics and policy* Ronald James Zukowsky,1981 **Secession of Quebec and the Future of Canada** Robert Young,1995-01-23 Robert Young discusses the ways in which Canadians might reconstitute their country after Quebec separates and considers possible political and economic arrangements between Quebec and Canada the association aspect of sovereignty association including the breakdown of economic cooperation Arguing that the long term future of Canada and the shape of Canada Quebec relations will depend on how the transition to sovereignty takes place Young provides a clear and detailed analysis of how the transition is likely to occur His discussion addresses major issues to be negotiated during the secession citizenship national debt borders armed forces and public service commercial and economic relations currency First Nations minority rights mobility and immigration and environmental matters For comparison Young draws on the experiences of other countries where peaceful secession has occurred including Czechoslovakia The second edition includes a new preface and concluding chapter that discuss to what extent the situation has changed since the referendum of 1995 **Western Canada in the International Economy** Edward J. Chambers,Michael Percy,1992 The international competitive position of Western Canada and each of the four western provinces within a Canadian context are the focus of this study Through trade profiles of major commodity exports and their spatial markets a situational assessment of the region and its continued heavy dependence on natural resources is offered Fiscal Federalism in Theory and Practice Mrs.Teresa Ter-Minassian,1997-09-10 Over the past few decades a clear trend has emerged worldwide toward the devolution of spending and to a lesser extent revenue raising responsibilities to state and local levels of government One view is that the decentralization of spending responsibilities can entail substantial gains in terms of distributed equity and macroeconomic management The papers in this volume edited by Teresa Ter Minassian examine the validity of these views in light of theoretical considerations as well as the experience of a number of countries *Canada Since 1945* Robert Bothwell,Ian Drummond,John English,1989-12-15 From the preface A visitor seeing Canada for the first time since 1939 might well conclude that Canada even more than nations devastated by war has become another country On the surface so much remains the same the Liberals prevail in Ottawa the provinces quarrel with Ottawa and among themselves and we worry about Americans in our future But most of the pieces have been rearranged and the effect of the picture is quite different This is a book about our own times and as such it expresses definite views No reader will agree with everything we say We have not tried to end debate we have tried to clarify and broaden We trust that our readers will be encouraged to seek for themselves a better understanding of where Canadians have been and what they have become Electronic Format Disclaimer Images removed at the request of the rights holder Intergovernmental Fiscal Relations Ronald C. Fisher,2012-12-06 The main objective of this book is to restate the important theories and evidence from economic analysis concerning intergovernmental fiscal issues More importantly the

second objective of the book is to identify gaps in knowledge empirical uncertainties and missing theoretical structures and then to establish a preliminary agenda for new research on this topic The book is organized in two sections The first covers the core body of intergovernmental fiscal relations including optimal size for jurisdictions and assignment of public sector functions the formulation and execution of tax policy in an intergovernmental setting and the appropriate structure and use of intergovernmental transfers In the second section the core knowledge is applied to four major policy areas education welfare fiscal interaction in urban areas and economic development In thinking about a new research agenda the authors call for more current and authoritative estimates of fiscal incidence including interjurisdictional spillovers for more fundamental research about the federation process and effects of consolidation for new evidence about the long run general equilibrium effects of interjurisdictional competition and for basic research about the choice process and establishment of intergovernmental fiscal institutions and policies by federal and subnational governments

*Common Ground for the Canadian Common Market* Frank Flatters, Richard G. Lipsey, 1983

Financing the Future Arthur Donner, 1982-01-01 In this study first published in 1982 Arthur Donner examines capital market issues that have significant economic impact and are affected by public policy In addition to interest rates inflation energy concern the author also examines the financing of pension funds the state of housing finance and the interaction between inflation and capital markets Donner finds that at the root of all capital market problems are the same factors high inflation high and volatile interest rates and saving and investment distortions caused by the interaction of inflation and the tax system Financing the Future is an immediate and detailed analysis of the state of Canadian capital markets in the early 1980s

**New Nationalisms of the Developed West** Edward Tiryakian, Ronald Rogowski, 2020-03-13 Originally published in 1985 New Nationalisms in the Developed West is a collection of interdisciplinary and insightful essays on modern nationalist movements The book argues that these movements have challenged the power of Western nation states not from without but from within their frontiers The book's focus remains predominately on Western societies and the nationalist movements of nations against states The essays in this book are detailed and innovative and analyse nationalism through theory methodology and empirical evidence The book's use of research methods deepens the comparative explanation of nationalist movements and advances understanding of Western nationalisms as social movements and examples of social change in the developed world This book will appeal to social scientists in political science and sociology

Market Rules Douglas Brown, 2003 Federalism is about dividing and sharing government often in complex ways that involve some tasks being done jointly Are federal systems capable of effective joint policy making Is this possible in the fast moving context of globalization In Market Rules Douglas Brown examines these questions through a comparative study of Australia and Canada looking at recent major reforms to the economic union in the two federations and comparing them with the evolving European Union EU Brown argues that internal barriers to trade and competition in these countries were significant obstacles to competition in the global economy and shows that the old market

rules were rooted in longstanding political and regional compromises He describes the process of detailed and difficult intergovernmental collaboration required for the EU and now Canada and Australia to produce new market rules The resulting reforms created new regimes that provide deeper and broader national economic integration in Canada and Australia than in the EU The new rules entrench neo liberal values retaining some room for diversity and flexibility for equity goals Built on a careful analysis of the differences and similarities in political economy constitutional design federal culture and history of intergovernmental relations in Canada and Australia Market Rules provides fresh evidence that federal states can be strong and autonomous in the global society while underscoring the conditions for effective collaboration that make this sustainable Rich in detail broad in scope Market Rules makes a significant contribution to knowledge about federalism and economic policy making in the era of globalization

### **The State, Business, and Industrial Change in Canada**

Michael M. Atkinson, William D. Coleman, 1989-12-15 The late twentieth century has seen profound changes in the character of the international economic order According to the authors of this study Canada has failed to come to terms with those changes Our industrial policy is diffuse ad hoc and sectoral Michael Atkinson and William Coleman argue that in order to analyse Canada's industrial policy effectively particular attention must be given to industry organization state structures and systems of interest intermediation at the sectoral level To make such an analysis they introduce the concept of policy network and apply it to three types of industrial sectors the research intensive sectors of telecommunications manufacturing and pharmaceuticals the rapidly changing sectors of petrochemicals and meat processing and the contracting and troubled sectors of textiles clothing and dairy processing Through the lens of these sectors Coleman and Atkinson shed considerable light on the intersection of political considerations and policy development and offer a new base on which to move forward in planning for economic growth

### **Trade and Transitions** Marsha Chandler, Robert Howse, Michael Trebilcock, 2004-01-14

Faced with increased levels of international competition and mounting budget deficits some developed Western economies have responded by introducing trade restrictions This book uses a comparative analysis of eight leading industrial nations including Japan the United States West Germany and Britain to demonstrate that such policies are mistaken Alternatives to trade restrictions including subsidies for industries and labour market policy instruments are also shown to have their drawbacks and the book emphasises the need for countries to find and exploit policies which fulfil their own political and social needs but which are least injurious to their trading partners

### *Transition to Market* Mr. Vito Tanzi, 1993-06-15

The IMF has been a major participant in the challenge of transforming many African Asian and European countries from centrally planned to market economies The authors of this book mainly staff members of the IMF have distilled their firsthand experience with fiscal reform in transition economies into 15 case studies of these countries In doing so they analyze issues of privatization fiscal federalism social safety nets and the net worth of the Soviet Union The editor of the volume is Vito Tanzi Director of the IMF's Fiscal Affairs Department

### **First among Unequals** Alex Marland, Matthew Kerby, 2014-04-01

Canadians are told that provincial premiers wield considerable sway Critics decry premiers as autocrats and dictators while supporters label them as altruists and great leaders In Newfoundland and Labrador the premier is expected to be the province's overlord a patriotic defender of provincial interests and the decision maker who brokers competing policy priorities But does a premier have as much power over government policy decisions as is popularly believed First among Unequals a detailed enquiry into the administration of Premier Danny Williams and the first year of his successor Kathy Dunderdale suggests that the power of the premier is exaggerated by the media critics political parties the public service and the leaders themselves With perspectives from economics education geography health policy history and political science contributors explore how dominant Williams was and test theories to show how power operates in provincial governments They examine politics and government through case studies of the healthcare sectors education the fisheries rural and regional development hydroelectric projects and the labour market Focusing on an era of political populism and rapid economic growth First among Unequals reasons that there is not enough evidence to suggest that the Premier's Office even with someone like Danny Williams at the helm independently shapes public policy Contributors include Karlo Basta Memorial Sean Cadigan Memorial Angela Carter Waterloo Christopher Dunn Memorial Jim Feehan Memorial Gerald Galway Memorial Ryan Gibson Memorial James Kelly Concordia Royce Koop Manitoba Mario Levesque Mount Allison Maria Mathews Memorial John Peters Laurentian Michelle Porter Memorial Kate Puddister McGill Val-rie Vézina UQAM and Kelly Vodden Memorial Grenfell

**Provinces** Christopher Dunn, 2016-01-01 Provinces is now established as the most comprehensive yet accessible exploration of Canadian provincial politics and government The authors of each chapter draw on their particular expertise to examine themes and issues pertaining to all the provinces from a comparative perspective The book is organized into four major sections political landscapes the state of democracy in the provinces political structures and processes and provincial public policy The third edition features eleven new chapters including province building provincial constitutions provincial judicial systems plurality voting in the provinces voting patterns in the provinces provincial public service provincial party financing provincial health policy social policy climate change and labour market policy All other chapters have been thoroughly revised and updated
