*Así terminó la Guerra de España* Angel Bahamonde Magro,Javier Cervera Gil,Javier Cervera,2000      **The Francoist**

**Military Trials** Peter Anderson,2009-09-10 In Spain between 1936-1945 the Franco regime carried out one Europe's more brutal but less remembered programs of mass repression. Many were murdered by the regime's death squads and in some areas Francoists also subjected up to 15% of the population to summary military trials. Here many suffered the death sentence or jail terms up to thirty years. Although historians have recognised the staggering scale of the trials they have tended to overlook the mass participation that underpinned them. In contrast to the discussion in other European countries little attention has been paid to the wide scale collusion in the killings and incarcerations in Spain. Exploring mass complicity in the trials of hundreds of thousands of defeated Republicans following the end of the Spanish Civil War. The Francoist Military Trials probes local Francoists' accusations whereby victims were selected for prosecution in military courts. It also shows how insubstantial and hostile testimony formed the bedrock of investigations secured convictions and shaped the harsh sentencing practices of Franco's military judges. Using civil court records it also documents how grassroots Francoists continued harassing Republicans for many years after they emerged from prison. Challenging the popularly prevalent view that the Franco regime imposed a police state upon a passive Spanish society the evidence Anderson uncovers here illustrates that local state officials and members of the regime's support base together forged a powerful repressive system that allowed them to wage war on elements of their own society to a greater extent than perhaps even the Nazis managed against their own population.

**The Spanish Holocaust** Paul Preston,2012-06-04 Long neglected by European historians the unspeakable atrocities of Franco's Spain are finally brought to tragic light in this definitive work. Evoking such classics as Anne Applebaum's Gulag and Robert Conquest's The Great Terror The Spanish Holocaust sheds light on one of the darkest and most unexamined eras of modern European history. As Spain finally reclaims its historical memory a full picture can now be drawn of the atrocities of Franco's Spain from torture and judicial murders to the abuse of women and children. Paul Preston provides an unforgettable account of the systematic terror carried out by Spain's fascist government.

**Socialism and War** Helen Graham,1991-06-28 This book recovers the lost history of Spanish socialism during the turbulent years of the Civil War 1936-39. Just as the energy of the socialist movement had sustained the pre-war Second Republic as an experiment in reform so too it underwrote the Republican war effort in the crucial years of the conflict which would determine Spain's long term future. Leading Socialist Party PSOE cadres formed the bedrock of the government while thousands of Party and union militants helped bear the tremendous weight of the war effort. The role of the PSOE in the construction of Republican political unity during the Civil War was pivotal. Yet paradoxically previous accounts of wartime Republican politics have virtually written the PSOE out of the script by concentrating exclusively on the fierce ideological dispute between anarchists and communists. But the key issues of revolution and State power marked all the forces in Republican Spain none more so

than the Socialist movement As the traditional party of the working class and the only mass party in Spain as late as 1931 PSOE militants were to be found on both sides of the revolutionary reformist divide which split fatally the Republican forces during the Civil War The PSOE's disintegration was a function of that of the Republic itself but the reverse was no less true The book investigates the responses of organised socialism to the complex issues raised by the conflict as it charts the PSOE's devastating experience of political power and desperate crisis in a war it could not win     *The Franco Regime, 1936-1975* Stanley G. Payne, 2011-09-27 The history of modern Spain is dominated by the figure of Francisco Franco who presided over one of the longest authoritarian regimes of the twentieth century Between 1936 and the end of the regime in 1975 Franco's Spain passed through several distinct phases of political institutional and economic development moving from the original semi fascist regime of 1936-45 to become the Catholic corporatist organic democracy under the monarchy from 1945 to 1957 Distinguished historian Stanley G Payne offers deep insight into the career of this complex and formidable figure and the enormous changes that shaped Spanish history during his regime     *The Spanish Civil War* Burnett Bolloten, 1991 A detailed account of the war describes Republican political life during the period and recounts the rise of the Spanish Communist Party

### **Creación de Constitución, destrucción de Estado: la defensa**

**extraordinaria de la II República española (1931-1936).** Rubén Pérez Trujillano, 2018-09-03 Esta investigación aborda el proceso de constitucionalización de la II República española desde la perspectiva de la función desempeñada por los estados de excepción y demás instrumentos de protección extraordinaria del orden. Esta aproximación pretende enmarcar el derecho republicano no sólo dentro del clima político de la España de los años treinta sino también en el seno de la cultura constitucional de entreguerras por una parte y al hilo de la peculiar trayectoria histórica del Estado español y sus prácticas institucionales por otra. El análisis de ese lado oscuro del constitucionalismo en la hora de su democratización contribuye a calibrar las transformaciones y continuidades que se produjeron en las categorías relativas al ejercicio del poder y la garantía de los derechos en la transición del Estado liberal y autoritario forjado en la Restauración hacia el Estado constitucional y democrático inaugurado por la República. Asimismo este enfoque aporta algunas claves acerca de los problemas de consolidación y desarrollo por los que atravesó el régimen constitucional entre 1931 y 1936

**Heterodoxos** Emilia Landaluce, 2025-06-05 Una decena de escritores han aceptado el reto de retratar desde distintas disciplinas y experiencias vitales a diez personajes de la historia de España a los que el paso del tiempo ha resultado incapaz de clasificar. En las páginas de Heterodoxos se recuerdan las figuras políticas como la de Julián Besteiro que cosechó igual el odio tanto de la izquierda como de la derecha sacerdotes como José María Albareda fundador del CSIC prominentes falangistas como Mercedes Formigas y todo impulsora de grandes reformas jurídicas en favor de las mujeres o nacionalistas catalanes como Francisco Cambó que soñó con gobernar el país. Como advierte Andrés Trapiello desde el mismo principio hay algo común a todos estos personajes la fuerte personalidad de cada uno de ellos propia de quienes sobrevivieron algunos ni eso en una época del siglo XX caracterizada por su encarnizada voracidad para aquellos que se salían de la secta y buscaban el bien de la comunidad en el sentido común
