Guardians of Discourse Kevin M. Anzzolin, 2024-05 Honorable Mention for the 2025 LASA Mexico Section for Best Book in the Humanities During Porfirio Díaz's thirty year rule Mexico dealt with the press in disparate ways in hopes of forging an informed and

above all orderly citizenry Even as innumerable journalists were sent to prison on exaggerated and unfair charges of defamation or slander Díaz's government subsidized multiple newspapers to expand literacy and to aggrandize the image of the regime In *Guardians of Discourse* Kevin M Anzzolin analyzes the role and representation of journalism in literary texts from Porfirian Mexico to argue that these writings created a literate objective refined and informed public By exploring works by Porfirian writers such as Emilio Rabasa Angel del Campo Rafael Delgado Laura M ndez de Cuenca and Salvador Quevedo y Zubieta Anzzolin demonstrates that a primary goal of the lettered class was to define and shape the character of public life establish the social position of citizens and interrogate the character of civil institutions These elite *letrados* whom Anzzolin refers to as guardians of discourse aimed to define the type of discourses that would buttress the transformed Mexico of the Díaz regime to forge a truly national literature that could be discussed among an expanded coterie of lettered thinkers In addition these Porfirian guardians hoped to construct an extensive and active public able to debate political and social issues via a press befitting a modern nation state and create a press that would be independent illuminating and distinguished Through an innovative look at Mexico's public sphere via literary fiction in the Porfirian era Anzzolin contributes to our knowledge of Mexican and Latin American political cultural and literary history in the late nineteenth and early twentieth centuries

Diversification of Mexican Spanish Margarita Hidalgo, 2016-10-24 This book offers a diversification model of transplanted languages that facilitates the exploration of external factors and internal changes The general context is the New World and the variety that unfolded in the Central Highlands and the Gulf of Mexico herein identified as Mexican Colonial Spanish MCS Linguistic corpora provide the evidence of re transmission diffusion metalinguistic awareness and select focused variants The tridimensional approach highlights language data from authentic colonial documents which are connected to socio historical reliefs at particular periods or junctions which explain language variation and the dynamic outcome leading to change From the Second Letter of Hern n Cort s Seville 1522 to the decades preceding Mexican Independence 1800 1821 this book examines the variants transplanted from the peninsular tree into Mesoamerican lands leveling of sibilants of late medieval Spanish direct object masc sing pronouns LO and LE pronouns of address vos tu vuestra merced plus plurals imperfect subjunctive endings in SE and RA and Amerindian loans Qualitative and quantitative analyses of variants derived from the peninsular tree show a gradual process of attrition and recovery due to their saliency in the new soil where they were identified with ways of speaking and behaving like Spanish speakers from the metropolis The variants analyzed in MCS may appear in other regions of the Spanish speaking New World where change may have proceeded at varying or similar rates Additional variants are classified as optimal residual e g dizque and popular residual e g vide Both types are derived from the medieval peninsular tree but the former are vital across regions and social strata while the latter may be restricted to isolated and or marginal speech communities Each of the ten chapters probes into the pertinent variants of MCS and the stage of development by century Qualitative and quantitative analyses reveal the trails followed by each select variant from the years of the Second Letter 1520 1522 of Hern n Cort s to the end of the colonial period The tridimensional historical sociolinguistic model offers explanations that shed light on the multiple causes of change and the outcome that eventually differentiated peninsular Spanish tree from New World Spanish Focused attrition variants were selected because in the process of transplantation speakers assigned them a social meaning that eventually differentiated the

European from the Latin American variety The core chapters include narratives of both major historical events e g the conquest of Mexico and tales related to major language change and identity change e g the socio political and cultural struggles of Spanish speakers born in the New World The core chapters also describe the strategies used by prevailing Spanish speakers to gain new speakers among the indigenous and Afro Hispanic populations such as the appropriation of public posts where the need arose to file documents in both Spanish and Nahuatl forced and free labor in agriculture construction and the textile industry The examples of optimal and popular residual variants illustrate the trends unfolded during three centuries of colonial life Many of them have passed the test of time and have survived in the present Mexican territory others are also vital in the U S Southwestern states that once belonged to Mexico The reader may also identify those that are used beyond the area of Mexican influence Residual variants of New World Spanish not only corroborate the homogeneity of Spanish in the colonies of the Western Hemisphere but the speech patterns that were unwrapped by the speakers since the beginning of colonial times popular and cultured Spanish point to diglossia in monolingual and multilingual communities After one hundred years of study in linguistics this book contributes to the advancement of newer conceptualization of diachrony which is concerned with the development and evolution through history The additional sociolinguistic dimension offers views of social significant and its thrilling links to social movements that provoked a radical change of identity The amplitude of the diversification model is convenient to test it in varied contexts where transplantation occurred
