BY ELEANOR DARK.** Eleanor Dark, 1945      **Backgazing: Reverse Time in Modernist Culture** Paul Giles, 2019-02-14 This volume traces ways in which time is represented in reverse forms throughout modernist culture from the beginning of the twentieth century until the decade after World War II Though modernism is often associated with revolutionary or futurist directions this book argues instead that a retrograde dimension is embedded within it By juxtaposing the literature of Europe and North America with that of Australia and New Zealand it suggests how this antipodean context serves to defamiliarize and reconceptualize normative modernist understandings of temporal progression Backgazing thus moves beyond the treatment of a specific geographical periphery as another margin on the expanding field of New Modernist Studies Instead it offers a systematic investigation of the transformative effect of retrograde dimensions on our understanding of canonical modernist texts The title backgazing is taken from Australian poet Robert G Fitzgerald's 1938 poem *Essay on Memory* and it epitomizes how the cultural history of modernism can be restructured according to a radically different discursive map Backgazing intellectually reconfigures US and European modernism within a planetary orbit in which the literature of Australia and the Southern Hemisphere far from being merely an annexed margin can be seen substantively to change the directional compass of modernism more generally By reading canonical modernists such as James Joyce and T S Eliot alongside marginalized writers such as Nancy Cunard and others and relatively neglected authors from Australia and New Zealand this book offers a revisionist cultural history of modernist time one framed by a recognition of how its measurement is modulated across geographical space      *Storm Of Time* Eleanor Dark, 2013-08-01 Book two of *The Timeless Land* trilogy *The Storm of Time* continues Eleanor Dark's sweeping saga of colonial Sydney under governors Hunter King and Bligh Sydney Cove 1799 and three years since Governor Phillip departed Against a background of continuing convict settlement hunger rebellion and the terrifying force of a barely understood land the saga of Ellen Prentice and the Mannion family continues Stephen Mannion marries the lovely Conor Moore and brings her back for Ellen to serve Johnny Prentice goes bush and re-emerges for one last confrontation with his old master      **The Art of Time Travel** Tom Griffiths, 2017-07-03 No matter how practised we are at history it always humbles us No matter how often we visit the past it always surprises us Winner of the Ernest Scott Prize and shortlisted for the NSW Premier's Literary Award for Non-fiction A

rare feat of imagination and generosity Mark McKenna With every sentence they write historians must walk the tightrope between discipline and imagination empathy and evidence In this landmark work eminent historian and award winning author Tom Griffiths shares his passion for the fascinating complex craft of history or as he calls it the art of time travel In fourteen portraits Griffiths illuminates how historians such as Inga Clendinnen Judith Wright Geoffrey Blainey and Henry Reynolds have approached their craft In prose both earthy and elegant he shows the new insights they have brought to Australian history and in so doing reshapes our shared knowledge of this continent The Art of Time Travel is an exhilarating book that will forever change the way you think of Australia s past If the past is a foreign country Tom Griffiths makes the perfect travelling companion Let him be your eyes and ears on our shared history Most of all follow his heart Clare Wright

*The Literature of Connection* David Trotter, 2020-06-10 This book is about some of the ways in which the world got ready to be connected long before the advent of the technologies and the concentrations of capital necessary to implement a global network society It investigates the prehistory not of the communications revolution brought about by advances in electronic digital computing from 1950 onwards but of the principle of connectivity which was to provide that revolution with its justification and rallying cry Connectivity s core principle is that what matters most in any act of telecommunication and sometimes all that matters is the fact of its having happened During the nineteenth century the principle gained steadily increasing traction by means not only of formal systems such as the telegraph but of an array of improvised methods and signalling devices These methods and devices fulfilled not just an ever more urgent need but a fundamental recurring desire for near instantaneous real time communication at a distance Connectivity became an end in itself a complex vivid unpredictable romance woven through the enduring human desire and need for remote intimacy Its magical enhancements are the stuff of tragedy comedy satire elegy lyric melodrama and plain description of literature in short The book develops the concepts of signal medium and interface to
