Dreamweaver in a Nutshell Heather Williamson, Bruce Epstein, 2002 A quick desktop reference for both new and

experienced Dreamweaver developers Dreamweaver in a Nutshell distills all of the software's features, commands, and shortcuts into one indispensable book. This is the most succinct and useful Dreamweaver reference available and the only one in the compact In a Nutshell style. With this book, you will learn everything from document management to site management and all the details in between. You'll also benefit from the author's years of hands-on experience through the power user tips and tricks. All the information you need is here, from basics to advanced topics including navigation bars, frames, layers, tables, image maps, modifications with XML style sheets, positioning elements, HTML cleanup tools, and ways to extend Dreamweaver functions and functionality. Provided throughout the book are useful examples to clarify difficult techniques or solve common problems. Dreamweaver in a Nutshell focuses exclusively on Dreamweaver rather than distracting readers with explanations of HTML and web design. That said, the book is equally useful to Dreamweaver UltraDev, which is based on the Dreamweaver platform. Dreamweaver in a Nutshell is the perfect companion to our best-selling Web Design in a Nutshell and it complements the O'Reilly HTML, JavaScript, and Cascading Style Sheet books available in electronic format within the Dreamweaver Reference panel. This book's quick style and compact format make it the perfect reference for web site professionals who rely on Dreamweaver daily.

Making the Transition to E-Learning: Strategies and Issues Bullen, Mark, Janes, Diane, 2006-09-30 Higher education institutions around the world are increasingly turning to e-learning as a way of dealing with growing and changing student populations. Education for the knowledge society means new skills and knowledge are needed, and it means that lifelong learning has become a necessity. Higher education institutions are looking to e-learning to provide convenient and flexible access to high quality education and training that is needed to meet these emerging demands. As they implement e-learning, however, institutions are struggling with the many pedagogical, organizational, and technological issues. *Making the Transition to E-learning: Strategies and Issues* provides insights and experiences from e-learning experts from around the world. It addresses the institutional, pedagogical, and technological issues that higher education institutions are grappling with as they move from conventional face-to-face teaching to e-learning in its diverse forms. *Forthcoming Books* Rose Arny, 2003 [Books in Print Supplement](#), 2002 **E-effective**

Writing for E-learning Environments Katy Campbell, 2004-01-01 *E-effective Writing for E-Learning Environments* integrates research and practice in user-centered design and learning design for instructors in post-secondary institutions and learning organizations who are developing e-learning resources. The book is intended as a development guide for experts in areas other than instructional or educational technology; in other words, experts in cognate areas such as Biology or English or Nursing, rather than as a learning design textbook. The organization of the book reflects the development process for a resource course or program, from planning and development through formative evaluation, and identifies trends and issues that faculty or developers might encounter along the way. The account of the process of one faculty member's course development journey illustrates the suggested design guidelines. The accompanying practice guide provides additional
