Germanic psyche contained the necessary tension to birth a new collective psycho spiritual attitude In racializing his religiously inflected psychological theory Jung combined religious and scientific discourses in a particularly seductive way masterfully weaving together the objective language of science with the eternal language of myth Dohe concludes the book by examining the use of these ideas in modern Germanic religion in which members claim that religion is a matter of race This in depth study of Jung s views on psychology race and spirituality will be fascinating reading for all academics and students of Jungian and post Jungian studies religious studies and the history of religion
