Electing To Fight Why Emerging Democracies Go To War Bcsia Studies In International Security:

Electing to Fight Edward D. Mansfield, Jack Snyder, 2007-01-26 Does the spread of democracy really contribute to international peace Successive U S administrations have justified various policies intended to promote democracy not only by arguing that democracy is intrinsically good but by pointing to a wide range of research concluding that democracies rarely if ever go to war with one another To promote democracy the United States has provided economic assistance political support and technical advice to emerging democracies in Eastern and Central Europe and it has attempted to remove undemocratic regimes through political pressure economic sanctions and military force In *Electing to Fight* Edward Mansfield and Jack Snyder challenge the widely accepted basis of these policies by arguing that states in the early phases of transitions to democracy are more likely than other states to become involved in war Drawing on both qualitative and quantitative analysis Mansfield and Snyder show that emerging democracies with weak political institutions are especially likely to go to war Leaders of these countries attempt to rally support by invoking external threats and resorting to belligerent nationalist rhetoric Mansfield and Snyder point to this pattern in cases ranging from revolutionary France to contemporary Russia Because the risk of a state s being involved in violent conflict is high until democracy is fully consolidated Mansfield and Snyder argue the best way to promote democracy is to begin by building the institutions that democracy requires such as the rule of law and only then encouraging mass political participation and elections Readers will find this argument particularly relevant to prevailing concerns about the transitional government in Iraq *Electing to Fight* also calls into question the wisdom of urging early elections elsewhere in the Islamic world and in China *Electing to Fight* Edward D. Democratic Peace Across the Middle East Yakub Halabi, 2016-05-24 From Tunisia to Egypt and from Israel to Iran the debates surrounding the concept of democracy in the Middle East are never straightforward This has been particularly evident since the events of 2009 in Iran and the uprisings across the Arab world in late 2010 and 2011 Against this backdrop Democratic Peace across the Middle East critically analyses the prospects for democracy throughout the region specifically asking whether political and social modernisation are absolute preconditions for democratic peace to take hold in the region or whether democracy without modernisation might be enough It explores the dynamics between neo patriarchy and Islam on the one hand and democratisation and modernisation on the other and also considers the prospect of the political accommodation of opposition groups Incorporating an analysis of a variety of key dynamics which affect each Middle Eastern country in turn such as tribal and sectarian identity Islamism and the structure of political party systems this book will appeal to those researching the Middle East and its patterns of rule

Civilizing Missions in the Twentieth Century, 2020-09-25 The civilizing mission associated with nineteenth century colonialism became harder to justify after the First World War In an increasingly anti imperialist culture elites reformulated schemes for the improvement of inferior societies Nation building social engineering humanitarianism modernization or the spread of democracy were used to justify

outside interventions and the top down transformation of non western international or even domestic societies The contributions in *Civilizing Missions in the Twentieth Century* discuss how these justifications influenced Polish nation building Scandinavian disarmament proposals and technocratic social policies in the interwar years Treatment of the second half of the century covers the changing cultural context of European humanitarianism as well as the influence of American social science on US foreign policy more particularly democracy promotion Contributors are Boris Barth Rolf Hobson J rgen Osterhammel Frank Ninkovich Bianka Pietrow Ennker Karen Gram Skjoldager Esther Moeller and Jost D lffer

Informal Order and the State in Afghanistan Jennifer Brick Murtazashvili,2016-04-21 Despite vast efforts to build the state profound political order in rural Afghanistan is maintained by self governing customary organizations *Informal Order and the State in Afghanistan* explores the rules governing these organizations to explain why they can provide public goods Instead of withering during decades of conflict customary authority adapted to become more responsive and deliberative Drawing on hundreds of interviews and observations from dozens of villages across Afghanistan and statistical analysis of nationally representative surveys Jennifer Brick Murtazashvili demonstrates that such authority enhances citizen support for democracy enabling the rule of law by providing citizens with a bulwark of defence against predatory state officials Contrary to conventional wisdom it shows that traditional order does not impede the development of the state because even the most independent minded communities see a need for a central government but question its effectiveness when it attempts to rule them directly and without substantive consultation

Regime Change and Ethnic Politics in Indonesia Taufiq Tanasaldy,2012-01-01 When the Indonesian New Order regime fell in 1998 regional politics with strong ethnic content emerged across the country In West Kalimantan the predominant feature was particularly that of the Dayaks This surge however was not unprecedented After centuries of occupying a subordinate place in the political and social hierarchy under the nominal rule of the Malay sultanates Dayaks became involved in an enthusiastic political emancipation movement from 1945 The Dayaks secured the governorship as well as the majority of the regional executive head positions before they were shunned by the New Order regime This book examines the development of Dayak politics in West Kalimantan from the colonial times until the first decade of the 21th century It asks how and why Dayak politics has experienced drastic changes since 1945 It will look at the effect of regime change the role of the individual leaders and organizations the experience of marginalization and conflicts on the course of Dayaks politics It will also examine ethnic relations and recent political development up to 2010 in the province

Agency Change John Robert Kelley,2014-10-08 John Robert Kelley puts forth that modern diplomatic efforts derive not from states whose centuries long power is loosening but

rather from a new breed of diplomats exit the diplomacy of institutions enter the diplomacy of individuals competing for power Moving beyond standard concepts of traditional and new diplomacy Agency Change illustrates how parallel yet disparate diplomatic systems emerge statesmen seeing power vis vis non state actors seeking solutions to problems and examines different mutually beneficial solutions to this phenomenon Kelley examines how different factor impact diplomatic action Idea entrepreneurshipAgenda settingMobilizationGate keeping He concludes that the time has come for governments to innovate their diplomatic efforts in order to find a way to coexist with non state actors while maintaining accountability legitimizing the use of state strength and leveraging permanent presence in diplomatic relationships This thorough survey shows how states can embrace change by first recognizing sources of power in today s diplomatic affairs and presents a case for what states can do now to respond to a world in which diplomacy has gone public Review of International Studies ,2005 *The Book Review Digest* ,2007 **Bibliographie International de Science Politique** The British Library of Political and Economic Science,2007-10-31 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers librarians 01-01-2018,0000000000 **The British National Bibliography** Arthur James Wells,2005
