Election And Consensus In The Church:

Election and Consensus in the Church Giuseppe Alberigo, Antonius Gerardus Weiler, 1972-01-01 Electing Our Bishops Joseph O'Callaghan, 2007-03-09 How does one become a bishop in the Catholic Church Electing our Bishops How the Catholic Church Should Choose Its Leaders explains how history politics and religious tradition converge to produce the episcopacy The book gives an historical overview from the earliest times when bishops were elected by the clergy and people of the diocese to the present day where they are normally appointed by the pope In light of the current clergy sexual abuse scandal many distinguished theologians canonists and church historians have called for greater popular participation in the selection of bishops and Electing our Bishops discusses ideas for new forms of election that involve both clergy and laity This book is an important tool for Catholics who want to understand the history and process of the election of bishops as well as how the process might change in the future *Democracy in the Christian Church* , 2012-04-12 A survey of historical theological and philosophical arguments for a democratization of the Christian church Koinonia and the Quest for an Ecumenical Ecclesiology Lorelei F. Fuchs, 2008 The word koinonia has gained prominence in recent ecumenical discussions In this original and substantial work Lorelei Fuchs proposes the theological idea of koinonia commonly translated as communion or fellowship as the key to moving fractured churches toward a future unity Fuchs challenges churches to move beyond mere dialogue and to apply ecumenical insights at the local level She begins by relating the exegetical meaning of koinonia to its ecumenical meaning tracing the place of koinonia both within the churches and between the churches She then examines the concept of koinonia in the extensive and fruitful dialogues that have taken place between Lutherans Anglicans and Roman Catholics finally articulating a symbolic competence for communiality that provides a rich and workable way forward for church unity at all levels Encompassing the latest in ecumenical thought Koinonia and the Quest for an Ecumenical Ecclesiology provides a broad thoughtful framework for realizing Christ's prayer that all may be one so that the world may believe *Episcopal Elections in Late Antiquity* Johan Leemans, 2011 The election of a new bishop was a defining moment for local Christian communities in Late Antiquity This volume contributes to a reassessment of the phenomenon of episcopal elections from the broadest possible perspective examining the varied combination of factors personalities rules and habits that played a role in the process Building on the state of the art regarding late antique bishops and episcopal election this interdisciplinary volume of collected studies by leading scholars offers fresh perspectives by focussing on specific case studies and opening up new approaches **Episcopal Elections in the Churches** , 2024-12-16 This work explores the procedures norms doctrines and implications of episcopal elections in Christian churches The evolution of episcopal elections reveals the political and social tensions and dynamics that influence the selection of bishops The text analyses how such elections reflect the complexity of ecclesiastical structure from its origins in the New Testament to the present day Election procedures never followed a fixed pattern but were influenced by pre existing traditions and

contingent needs The history of episcopal elections highlights the need for authority and consensus in the Christian community exploring specific instances and historical developments that have shaped the current practice

Sensus

Fidelium Daniel J. Finucane, 2016-02-19 Daniel J. Finucane's original work assesses the long history of the understanding and use of the concept of *sensus fidelium* and develops criteria from its history and the teachings of Vatican II to critique the postconciliar use of the concept This a comprehensive work in both its scope of history and its treatment of contemporary theologies of the concept as well as suggesting a significant role for hermeneutical issues The variety of views on the *sensus fidelium* challenges the traditional understanding of the concept In this study criteria are offered here for reassessing the *sensus fidelium* in the light of Vatican II's teaching and the concept's history Major theological perspectives on this topic since Vatican II are surveyed and explicated Among the theologians and philosophers discussed are Newman Congar Rahner John Coulson Jean Guitton Guenter Biemer Samuel D. Electing Our Own Bishops Petrus Huizing, Knut Walf, Marcus Lefébure, 1980

Receptive Ecumenism and the Call to Catholic Learning Paul Murray, 2010-05-06 This volume proposes a fresh strategy for ecumenical engagement Receptive Ecumenism that is fitted to the challenges of the contemporary context and has already been internationally recognised as making a distinctive and important new contribution to ecumenical thought and practice Beyond this the volume tests and illustrates this proposal by examining what Roman Catholicism in particular might fruitfully learn from its ecumenical others Challenging the tendency for ecumenical studies to ask whether explicitly or implicitly What do our others need to learn from us this volume presents a radical challenge to see ecumenism move forward into action by highlighting the opposite question What can we learn with integrity from our others This approach is not simply ecumenism as shared mission or ecumenism as problem solving and incremental agreement but ecumenism as a vital long term programme of individual communal and structural conversion driven like the Gospel that inspires it by the promise of conversion into greater life and flourishing The aim is for the Christian traditions to become more not less than they currently are by learning from or receiving of each other's gifts The 32 original essays that have been written for this unique volume explore these issues from a wide variety of denominational and disciplinary perspectives drawing together ecclesiologists professional ecumenists sociologists psychologists and organizational experts

Grzymała-Busse,2023-01-31 How the medieval church drove state formation in Europe Sacred Foundations argues that the medieval church was a fundamental force in European state formation Existing accounts focus on early modern warfare or contracts between the rulers and the ruled In contrast this major study shows that the Catholic Church both competed with medieval monarchs and provided critical templates for governing institutions the rule of law and parliaments The Catholic Church was the most powerful wealthiest and best organized political actor in the Middle Ages Starting in the eleventh century the papacy fought for the autonomy of the church challenging European rulers and then claiming authority over people territory and monarchs alike Anna Grzymała-Busse demonstrates how the church shaped distinct aspects of the European state Conflicts with the papacy fragmented territorial authority in Europe for centuries to come propagating urban autonomy and ideas of sovereignty Thanks to its organizational advantages and human capital the church also developed the institutional precedents adopted by rulers across Europe from chanceries and taxation to courts and councils Church

innovations made possible both the rule of law and parliamentary representation Bringing to light a wealth of historical evidence about papal conflict excommunications and ecclesiastical institutions Sacred Foundations reveals how the challenge and example of powerful religious authorities gave rise to secular state institutions and galvanized state capacity
