Election 1994 South Africa The Campaigns Results And Future Prospects:

Reflections on the 2019 South African General Elections Joleen Steyn Kotze, Narnia Bohler-Muller, 2020-12-17

Reflections on the 2019 South African General Elections is a critical reflection on the key lessons of Elections 2019 in South Africa focusing on the future of the country's electoral democracy. The volume engages questions on land election campaigns, voter turnout, voter apathy, and how opposition parties will be forced to co-exist in the context of declining electoral dominance the ANC once comfortably held. An important reflection on the lessons of the 2019 South African General Elections, the contributors ask: Quo Vadis South Africa? The 2019 General Elections marked a watershed in South Africa's political landscape. The ANC, under the banner of a narrative of regeneration and getting back on the moral path, dipped below the 60 % mark for the first time in South Africa's democratic history. This decline in electoral support for the party may be interpreted as a degeneration of the ANC through the loss of its moral stature, the erosion of its integrity, and disillusionment with its performance as a governing party. Opposition political parties could not capitalise on this seeming disillusionment with the ruling ANC. Caught in their own factional battles and in the midst of corruption scandals, opposition parties were unable to successfully increase their share of the vote and capture the undecided and disillusioned voter. Considering the future of South Africa's electoral democracy at 25 years of democracy, Reflections on the 2019 South African General Elections will be of great interest to scholars of African Studies, South Africa Governance and Elections. The chapters in this book were originally published as a special issue of *Politikon: South African Journal of Political Studies*. *The Uncertain Promise of Southern Africa* York W. Bradshaw, Stephen N. Ndegwa, 2000. In the 1970s and 1980s, Indiana University Press published a series of books edited by Gwendolen Carter and others on economic and political conditions in Southern Africa during the apartheid era. *The Uncertain Promise of Southern Africa* is a return to that successful format in the post-apartheid era. Leading scholars analyze the economic, political, social, and cultural conditions in Southern Africa and the prospects for the region. The first part of the book examines the current political and development situation in six countries: South Africa, Namibia, Botswana, Zimbabwe, Angola, and Mozambique. The second part focuses on issues of enduring importance in the region: education, health, gender, the law, intra and inter-regional power relations, international commerce, and popular culture.

This book is written by seasoned scholars of African Studies and is intended to make a significant contribution to the debate on democracy and democratization in the continent. The New Colored People Jon M. Spencer, 2000-08 Most Americans remain oblivious of a new racial phenomenon that may radically alter the political landscape of the United States In recent years dramatic increases in racial intermarriage have given birth to a generation of mixed race children whose interracially married parents refuse to allow them to be shoehorned into neat pre existing racial categories The parents through organizations they have founded or joined have lobbied aggressively for the category multiracial to be added to official racial classifications at the state and federal levels including the United States census Since a nonracial society is one of the stated goals of the multiracialists Spencer suggests that the undoing of racial classification will come not by initiating a new classification which will only give Americans the impression that mixed race people can be neatly classified but by our increased recognition that there are millions of people who simply defy classification

on the road to South Africa's freedom As well as South Africa's ejection from the Commonwealth apartheid's increasing isolation was sustained by the Commonwealth's pioneering work in boycotting apartheid sport as well as campaigning to stop arms sales It also played an important role in internationalising economic and financial sanctions credited by some as the final nail in apartheid's coffin and was able to make an important and distinctive contribution to the transition to democracy At the same time critical debates within the Commonwealth about racial and political equality transformed the association from a docile post imperial organisation led by the UK and in its own interests to a modern multiracial North South forum for reconciling global difference and overcoming the legacies of colonialism This comprehensive and authoritative account of the Commonwealth's engagement with apartheid South Africa is intended for all those who study and research the modern Commonwealth its structure and influence and for those with a general interest in contemporary post war history

The South African State Transformed? Louis A. Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994
