Electrogravitics Systems Reports On A New Propulsion Methodology:

Electrogravitics Systems Thomas Valone,1993 Discovered in 1918 by a professor electrogravitics has been put to the test decade after decade by aviation industries and the military It is an anomalous propulsion force from a high voltage capacitive charge similar to an electrokinetic force In the 1950s T Townsend Brown recommended a flying wing model to the Naval Research Lab for its implementation and years later the B 2 bomber fulfilled this vision Electrogravitics Systems includes historical documents patents and an exciting article by Dr Paul LaViolette on how the B 2 uses such an energy efficient futuristic propulsion concept today **Electrogravitics II, 2nd Edition** Thomas Valone,2005 A companion volume to **Electrogravitics Systems Reports on a New Propulsion Methodology** this book delivers 1 the scientific validation from three different authorities 2 the compelling public history of gravity research conducted by the aviation industry before it became unacknowledged and 3 testimonials which eye witnesses have provided In total this anthology attests to the validity of the Biefeld Brown high voltage force effect The book s Science Section includes a well known electrokinetic force and how it works the proposed ion mobility explanation and how electricity and gravity may couple The Historical Section contains seven articles about T T Brown gravity research etc Also included are a Testimonial Section and Patent Section

Electrogravitics Systems Thomas Valone,2004 **Infinite Energy Technologies** Finley Eversole,2012-12-14 Clean sustainable energy solutions from the geniuses of our past and the visionaries of our future Explores five great but nearly forgotten minds of the past John Worrell Keely Nikola Tesla Viktor Schauberger Royal Raymond Rife and T Townsend Brown and their revolutionary discoveries Reveals information from leading experts on cold fusion zero point energy power from water antigravity and the free energy potential of the Searl Effect Generator As the global need for clean renewable energy grows and the shortage of viable large scale solutions continues it is time to look to the geniuses of our past and the visionaries of our future for answers Taking inspiration from Albert Einstein s statement that Problems cannot be solved by the same level of thinking that created them Finley Eversole explains that the key to a pollution and poverty free future of infinite energy lies not in pursuing one single method but in investigating all the possibilities in uniting as a world in creative pursuit of global transformation Exploring five nearly unknown geniuses of our past John Worrell Keely Nikola Tesla Viktor Schauberger Royal Raymond Rife and T Townsend Brown and their revolutionary discoveries about free energy electricity water vortex motion electric ray and super microscope technology and antigravity this book helps to restore their long suppressed scientific legacies and bring us one step closer to the destiny they foresaw Eversole has gathered research from leading experts on cold fusion zero point energy power from water and the free energy potential of the Searl Effect Generator to reveal technologies that work with Nature s laws and that if fully implemented could establish sustainable energy systems in a single generation *Genesis of the Cosmos* Paul A. LaViolette,2004-04-15 Provides compelling evidence that creation myths from the dawn of civilization correspond to cutting edge astronomical discoveries Exposes the

contradictions in current cosmological theory and offers a scientific basis for the ancient myths and esoteric lore that encode a theory of continuous creation By the scientist who was the first to disprove the Big Bang theory on the basis of observational data Recent developments in theoretical physics including systems theory and chaos theory are challenging long held mechanistic views of the universe Many thinkers have speculated that the remnants of an ancient science survive today in mythology and esoteric lore but until now the scientific basis for this belief has remained cloaked in mystery Paul LaViolette reveals the remarkable parallels between the cutting edge of scientific thought and creation myths from the dawn of civilization With a scientific sophistication rare among mythologists LaViolette deciphers the forgotten cosmology of ancient lore in a groundbreaking scientific tour de force In direct nontechnical language he shows how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from the surrounding subquantum chaos Exposing the contradictions that bedevil the big bang theory LaViolette offers both the specialist and the general reader a controversial and highly stimulating critique of prevailing misconceptions about the seldom questioned superiority of modern science over ancient cosmology By restoring and reanimating this ancient scientific worldview Genesis of the Cosmos leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century

The Anti-Gravity Files David Hatcher Childress, 2017-04-11 In the tradition of The Anti Gravity Handbook and the Time Travel Handbook comes this all new compilation of material on anti gravity free energy flying saucers and Tesla technology With plenty of technical drawings and explanations this suppressed technology will change the world in ways we can only dream of Chapters on anti gravity mercury gyros the motionless electromagnet generator patent the Tesla pyramid engine anti gravity patents rare photos of the machines in flight and tons more The book that finally blows the lid on suppressed technology and anti gravity Heavily illustrated

Secrets of Antigravity Propulsion Paul A. LaViolette, 2008-07-10 A complete investigation of the development and suppression of antigravity and field propulsion technologies Reveals advanced aerospace technologies capable of controlling gravity that could revolutionize air travel and energy production Reviews numerous field propulsion devices that have thrust to power ratios thousands of times greater than a jet engine Shows how NASA participates in a cover up to block adoption of advanced technologies under military development In Secrets of Antigravity Propulsion physicist Paul LaViolette reveals the secret history of antigravity experimentation from Nikola Tesla and T Townsend Brown to the B 2 Advanced Technology Bomber He discloses the existence of advanced gravity control technologies under secret military development for decades that could revolutionize air travel and energy production Included among the secret projects he reveals is the research of Project

Skyvault to develop an aerospace propulsion system using intense beams of microwave energy similar to that used by the strange crafts seen flying over Area 51 Using subquantum kinetics the science behind antigravity technology LaViolette reviews numerous field propulsion devices and technologies that have thrust to power ratios thousands of times greater than that of a jet engine and whose effects are not explained by conventional physics and relativity theory He then presents controversial evidence about the NASA cover up in adopting these advanced technologies He also details ongoing Russian research to duplicate John Searl s self propelled levitating disc and shows how the results of the Podkletnov gravity beam experiment could be harnessed to produce an interstellar spacecraft

LaViolette,2006-04-21 A new interpretation of nearly 40 years of interstellar signals and the prophetic message they contain Contains extensive analysis of pulsar data revealing new ideas about the origins and functions of pulsars Provides proof of an extraterrestrial communication network Includes information about the formation of crop circles and force field beaming technology In 1967 astronomers began receiving and cataloging precisely timed radio pulses from extraterrestrial sources which they called pulsars These pulsars emit laserlike radio beams that penetrate through space much like searchlight beams Paul LaViolette who has been researching pulsars for over 25 years shows that while these pulsars have long been assumed to be spinning stars the true nature of these radio sources has been grossly misunderstood In Decoding the Message of the Pulsars LaViolette shows that pulsars are distributed in the sky in a nonrandom fashion often marking key galactic locations and that their signals are of intelligent origin Using extensive scientific data to corroborate his theory he presents evidence of unusual geometric alignments among pulsars and intriguing pulse period relationships Equally compelling is the message LaViolette contends is being sent by these extraterrestrial beacons a warning about a past galactic core explosion disaster that could recur in the near future The Secret History of Extraterrestrials Len Kasten,2010-11-11 Explores the role of ETs in the military government technology history and the coming new age Surveys contact with ETs abductions alien technology and exopolitics genetic tampering by ETs and the history behind the Nazis and UFOs Contains interviews with Jesse Marcel Michael Salla Paul LaViolette Robert Bauval Helen Wambach and others at the forefront of the ET derived New Science movement The extraterrestrial presence on Earth is widening and as we enter the Aquarian Age will be admitted officially causing shock and an urgent universal need to understand the social and technological changes derived from our space brothers A primer for the explosive advances humanity will experience scientifically and spiritually in the coming years this compendium explores the ET phenomenon and its influence on humanity past and present The book surveys contact with ETs and abduction accounts unexplained public and undisclosed military technology from aliens including anti gravity devices exopolitics the influence of ETs in human affairs the Iraqi Stargate the Hybrid Project of alien interbreeding by abduction Nazi ties to UFOS and their secret underground base in Antarctica government cover ups of alien interactions including Roswell and the transformation triggered by the Hale Bopp comet Based on interviews with people who are witnessing the coming changes as well as those visionaries who are actually bringing them about including John Mack Major Jesse Marcel Paul LaViolette Robert Bauval Michael Salla and Helen Wambach this book sketches out a breathtaking vision of the planetary revolution just around the corner Zero Point (Faster than Light Speed) J.
