Brown,2019-02-01 Based on extensive fieldwork in Afghanistan and eight years of interviews this book reviews the dynamics between Afghan and U S journalists and the global diplomatic power of the American press within the context of the post 9 11 era The African and Conscientization Christian C. Anyanwu,2012-01-10 The withdrawal of imperial colonizers from Africa in the second half of the 20th century precipitated the need for newly independent African nations to establish political economic and social structures that would ensure the development of cohesive stable and functional nations While Africans yearned for independence once granted the challenges of nation building became apparent immediately Nigeria like many African nations has stumbled through the early postcolonial period with no clear post colonial direction dashing the hopes of its people and undermining confidence in its future This book makes the case that the protracted decades of underdevelopment in Africa and especially Nigeria is traceable to a crisis of leadership that has crystallized in the institutionalization of organized corruption as part of its professional ethos It argues that as a direct consequence of such practices over several decades the population has been dehumanized The situation of Africa in general and Nigeria in particular has been deemed so inimical and colossal that Justice Oputas panel advised a program of moral action from kindergarten right through to the entire polity Report of the Human Rights Violations Investigation Commission 2002 This is an indictment on the Nigerian population and rightly so because for more than 40 years after independence the country has been through a spiraling crisis in leadership and corruption such that massive looting of the national treasure is unprecedented in the history of developing countries So many attempts have been made in search of national ideology that might spur development This writer is proposing in this vein the implementation of a Conscientization philosophy similar to Paulo Freires as a viable ideology that would arrest and reverse the deteriorating situation Freires thought was influenced largely by socio Economic and political situations in Brazil These same ugly and dehumanizing conditions are now generally characteristic of Nigeria Hence Freires education as practice of freedom is very relevant to the Nigerian situation This dissertation elaborates how to develop and implement the Conscientization philosophy and shows why it would be extraordinarily appropriate in Nigeria in such a way as to contribute to the good society **The Press and the Decline of Democracy** Robert G. Picard,1985-12-06 The author discusses the role of economic concentration in limiting public access to information and reducing opportunities for public discourse Picard examines the government policies that have contributed

to the erosion of democratic participation and have permitted the growth of large commercial press entities unobstructed by anti trust provisions He relates recent public policy responses to this problem to democratic socialist ideology and develops a social democratic theory of the press which draws upon ideas and policies found throughout the Western world Picard provides a democratic framework for understanding the changing nature of media economics and state press relations and offers proposals for achieving both a democratically functioning press and broader popular participation **Routledge**

**Handbook of Cosmopolitanism Studies** Gerard Delanty,2012-05-23 Over the past two decades there has been great interest in cosmopolitanism across the human and social sciences Where earlier it had largely been a term associated with moral and political philosophy cosmopolitanism has now become a widely used term in the social sciences It is now integral to much of cultural political and social analysis This is the first comprehensive survey in one volume of the interdisciplinary field of cosmopolitan studies With over forty chapters written by leading scholars of cosmopolitanism this book reflects the broad reception of cosmopolitan thought in a wide variety of disciplines and across international borders Both comprehensive and innovative in the topics covered the Handbook of Cosmopolitanism Studies is divided into four sections major theoretical debates where the emphasis is on recent developments cultural topics in the social sciences the politics of cosmopolitanism major world varieties of cosmopolitanism The Handbook answers the need to take modern cosmopolitanism out of its exclusive western context and relate it to the historical experiences of other world cultures This is a major work in defining the emerging field of cosmopolitanism studies Throughout there is a strong emphasis on interdisciplinarity with essays covering philosophy literary theory history international relations anthropology communications studies and sociology The Handbook s clear and comprehensive style will appeal to a wide undergraduate audience across the social sciences and humanities **Globalization, Development and the Mass Media** Colin Sparks,2007-11-20 Globalization Development

and the Mass Media gives a comprehensive and critical account of the theoretical changes in communication studies from the early theories of development communication through to the contemporary critiques of globalization It examines two main currents of thought Firstly the ways in which the media can be used to effect change and development It traces the evolution of thinking from attempts to spread modernity by way of using the media through to alternative perspectives based on encouraging participation in development communication Secondly the elaboration of the theory of media imperialism the criticisms that it provoked and its replacement as the dominant theory of international communication by globalization
