California** Kenneth P. Miller, 2020 Texas and California are the leaders of Red and Blue America As the nation has polarized its most populous and economically powerful states have taken charge of the opposing camps These states now advance sharply contrasting political and policy agendas and view themselves as competitors for control of the nation's future Kenneth P. Miller provides a detailed account of the rivalry's emergence present state and possible future First he explores why despite their many similarities the two states have become so deeply divided As he shows they experienced critical differences in their origins and in their later demographic economic cultural and political development Second he describes how Texas and California have constructed opposing comprehensive policy models one conservative the other progressive Miller highlights the states contrasting policies in five areas tax labor energy and environment poverty and social issues and also shows how Texas and California have led the red and blue state blocs in seeking to influence federal policy in these areas The book concludes by assessing two models strengths vulnerabilities and future prospects The rivalry between the two states will likely continue for the foreseeable future because California will surely stay blue and Texas will likely remain red The challenge for the two states and for the nation as a whole is to view the competition in a positive light and turn it to productive ends Exploring one of the primary rifts in American politics Texas vs California sheds light on virtually every aspect of the country's political system

Madden,2017-06-09 The rotary jail was a very unusual architectural design In response to a need for better control over prisoners 18 of the revolving escape proof structures were erected in the United States from 1882 through 1889 There were problems There were mechanical difficulties due to the extreme weight of the components Unwary prisoners lost digits or limbs when carousels were rotated without warning one lost his life Because inmates could only be let out of their cells one at a time some rotary jails were closed as fire hazards This book describes in detail their construction operation and eventual demise as well as some of the colorful inmates that were held in them     **The Wireless Age** ,1924     **Park Science** ,1981     **God's Hand, My Choices** Robert Coombs,2020-03-23 The drive from Texas to Florida without God s hand would not have happened My choices showed me it was not just about me but about my mom and dad too My mother instinctively knew her son was spiraling out of control The automobile crash brought him to the brink of death God showed him heaven and then sent him back to give this testament God watches over us giving us free will to choose This is about my choices and the miracles from God The 240Z flipped three times crushing down on my visibly dead body I was pinned between the console and roof The crash results three skull fractures an induced stroke partial paralysis on my left side and permanent deafness in my left ear After a mastoidectomy surgery in Paris Texas things did not improve Talking and walking were difficult and each day of my recovery had my mother getting more distraught With each troubled conversation she sensed my frustrations Mom was stressed with me and at home She did the only thing she could do She called me in an uncharacteristic panic telling I had to come home My normally stoic father was worried about her so I had to make a choice stay or go to Florida God gives us choices all our lives I had been making the wrong choices but it was time for God to intervene My first good choice was to give up almost all I had in Texas and go home to be with my mother and father I am human so there was doubt when it seemed hopeless Pushing doubt aside and trusting God this trip was filled with miracles others would consider luck or coincidences     **Catalog of Copyright Entries.
