**Gothic Europe 1200-1450** Derek Pearsall,2014-06-11 This uniquely ambitious history offers an account of all aspects of cultural activity and production throughout the world of Latin Christendom 1200 1450 Beginning with a detailed description of the political and economic circumstances that allowed the Gothic Moment to flourish the body of the book is both a celebration of the Gothic cultural achievement in cathedral building in manuscript illumination in chivalric love romance in stained glass and in many other arts and an investigation of its social origins and systems of production **Gothic Europe**

Derek Albert Pearsall,2001 *Gothic Europe 1200-1450* Derek Pearsall,2014-06-11 This uniquely ambitious history offers an account of all aspects of cultural activity and production throughout the world of Latin Christendom 1200 1450 Beginning with a detailed description of the political and economic circumstances that allowed the Gothic Moment to flourish the body of the book is both a celebration of the Gothic cultural achievement in cathedral building in manuscript illumination in chivalric love romance in stained glass and in many other arts and an investigation of its social origins and systems of production *A Blessed Shore* Alfred Thomas,2007 Thomas shows that the relationship between the two cultures was never

a straightforward one but a mirror like formation in which each saw the other through the distorted and subjective effect of its own reflection **BOOK JACKET** **The Cult of St Ursula and the 11,000 Virgins** Jane Cartwright,2016-06-15 The cult of St Ursula and the 11 000 virgins was one of the most popular and relic rich of all saints cults in the medieval period This volume constitutes the first interdisciplinary collection of essays in English to explore the development and transmission of the legend of St Ursula in detail considering a wealth of different sources including physical remains literary texts artistic representations and medieval music **Mental Health, Spirituality, and Religion in the Middle Ages and Early**

**Modern Age** Albrecht Classen,2014-07-28 This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health spirituality melancholy mystical visions medicine and well being The contributors who originally had presented their research at a symposium at The University of Arizona in May 2013 explore a wide range of approaches and materials pertinent to these issues taking us from the early Middle Ages to the eighteenth century capping the volume with some reflections on the relevance of religion today Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world **The Ricardian** ,2004 **The Goths** David M. Gwynn,2017-11-15 The Goths are truly a lost civilization

Sweeping down from the north ancient Gothic tribes sacked the imperial city of Rome and set in motion the decline and fall of the western Roman empire Ostrogothic and Visigothic kings ruled over Italy and Spain dominating early medieval Europe Yet after the last Gothic kingdom fell more than a thousand years ago the Goths disappeared as an independent people Over the centuries that followed as traces of Gothic civilization vanished its people came to be remembered as both barbaric destroyers and heroic champions of liberty In this engaging history David M Gwynn brings together the interwoven stories of the original Goths and the diverse Gothic heritage a heritage that continues to shape our modern world From the ancient migrations to contemporary Goth culture through debates over democratic freedom and European nationalism and drawing on writers from Shakespeare to Bram Stoker Gwynn explores the ever widening gulf between the Goths of history and the popular imagination Historians students of architecture and literature and general readers alike will learn something new about this great lost civilization

*The European Renaissance 1400-1600* Robin Kirkpatrick, 2014-10-17 With Italy at its centre but encompassing the whole of Renaissance Europe this evocative history challenges some of the popularly held views on the Renaissance period In particular whilst always acknowledging the brilliance and exuberance of Renaissance culture Robin Kirkpatrick draws equal attention to the strangeness and often unresolved tensions that lay beneath the surface of that culture Insisting on a European rather than purely Italian viewpoint he embraces Renaissance thinking and culture in all its diversity from Northern thinkers such as Cusanus Luther and Calvin to the painting of Van der Weyden and El Greco and the music of the Flemish musicians Josquin des Prez and Orlando Lassus Special attention is also paid to the unique contribution made by Marguerite of Navarre to the development of humanist culture The book concludes with a study of Shakespeare in which his plays are viewed as a searching critique of some of the main principles of Renaissance culture

*Imaginations of Time in Lydgate and Hoccleve's Verse* Dr Karen Elaine Smyth, 2013-05-28 Using empirical research to explore medieval writers' imaginations of time this study presents a new morphology by which to study narratives of time in fifteenth century literary culture focusing on poems of John Lydgate and Thomas Hoccleve Karen Smyth begins with an overview of medieval time keeping devices and considers collective and individual attitudes and perceptions of time She then examines a range of Middle English authors' appropriations and innovations in relation to such perceptions identifying competitions of tradition and innovation allowing for an interrogation of commonly accepted medieval theories of time An empirically based morphology emerges and is used to examine narratives of time in Lydgate and Hoccleve's work Through a series of close readings of selected short poems and Lydgate's *Troy Book* *Fall of Princes* and *Siege of Thebes* and of Hoccleve's *Regiments of Princes* and *Series* Karen Smyth looks at expressions of time and examples of the authors' negotiation of time consciousness illustrating how both poets manipulate a range of cultural narratives of time in order to create multiple and sometimes competing temporalities within a single poem Smyth simultaneously draws attention to Lydgate's and Hoccleve's underestimated artistic skills and lays out a means to re-evaluate medieval cultural attitudes towards time
