Heaven And Earth The Last Farmers Of The North Fork:

Heaven and Earth the Last Farmers of the North Fork Steve Wick,1996 A Farm Family on Long Island's North Fork Richard A. Wines,2024-11-01 In A Farm Family on Long Island's North Fork Richard A Wines traces the history of a vital agricultural community on the North Fork of Long Island through the story of the last family to live in the old Homestead at the Hallockville Museum Farm For well over two centuries community members were almost all descendants of the same group of seventeenth century Puritan founders Yet despite their shared heritage and complex interrelationships cultural wars raged Family members and the community divided bitterly on issue after issue ranging from whether to allow a melodeon into the church to supporting abolitionism The community weathered many changes the Civil War the emergence of new agricultural technologies the arrival of Eastern European immigrants even an attempt to build a string of nuclear power plants in the twentieth century Wines's deep dives into one community's history uncover stories about slavery racism and prejudice that many have chosen to forget as well as stories of compassion or human tragedy we want to remember A Farm Family on Long Island's North Fork will appeal to those interested in Long Island regional history and the larger history of rural communities throughout New York and the United States **The End of the Hamptons** Corey Dolgon,2006-06 From polo players to migrant workers an inside peek at one of America's most exclusive communities *Part-time Farming, Small Farms, and Small-scale Farming in the United States* ,1997 Peconic Bay Marilyn E. Weigold,2015-04-03 Bordered on the south by the Atlantic Ocean and on the north by Long Island Sound the Peconic Bay region including the North and South Forks has only recently been recognized for its environmental and economic significance The story of the waterway and its contiguous land masses is one of farmers and fishermen sailing vessels and submarines wealthy elite residents and award winning vineyards Peconic Bay examines the past 400 years of the region's history tracing the growth of the fishing industry the rise of tourism and the impact of a military presence in the wake of September 11 Weigold introduces readers to the people of Peconic Bay's colorful history from Albert Einstein and Captain Kidd to Clara Barton and Kofi Annan as well as to the residents who have struggled and continue to struggle over the well being of their community and their estuarine connection to the planet Throughout Weigold brings to life the region's rich sense of place and shines a light on its unique role in our nation's history *Crabgrass Crucible* Christopher C. Sellers,2012-06-18 Although suburb building created major environmental problems Christopher Sellers demonstrates that the environmental movement originated within suburbs not just in response to unchecked urban sprawl Drawn to the countryside as early as the late nineteenth century new suburbanites turned to taming the wildness of their surroundings They cultivated a fondness for the natural world around them and in the decades that followed they became sensitized to potential threats Sellers shows how the philosophy science and emotions that catalyzed the environmental movement sprang directly from suburbanites lives and their ideas about nature as well as the unique ecology of the neighborhoods in which they dwelt Sellers focuses on the spreading edges of New

York and Los Angeles over the middle of the twentieth century to create an intimate portrait of what it was like to live amid suburban nature As suburbanites learned about their land became aware of pollution and saw the forests shrinking around them the vulnerability of both their bodies and their homes became apparent Worries crossed lines of class and race and necessitated new ways of thinking and acting Sellers argues concluding that suburb dwellers through the knowledge and politics they forged deserve much of the credit for inventing modern environmentalism **Long Island Migrant Labor**

Camps Mark A Torres,2020-08-17 The little known history of the Suffolk County camps where migrant workers lived in squalor during and after WWII includes photos During World War II a group of potato farmers opened the first migrant labor camp in Suffolk County to house farmworkers from Jamaica Over the next twenty years more than one hundred camps of various sizes would be built throughout the region Thousands of migrant workers lured by promises of good wages and decent housing flocked to Eastern Long Island where they were often cheated out of pay and housed in deadly slum like conditions Preyed on by corrupt camp operators and entrapped in a feudal system that left them mired in debt laborers whether Jamaican or Mexican Polish or Chinese struggled and in some cases perished in the shadow of New York s affluence In this book Mark A Torres reveals the dreadful history of Long Island s migrant labor camps from their inception to their peak in 1960 and their steady decline in the following decades I urge folks to read this book Fire Island News [Long Island Forum](#) ,1995 [The Long Island Historical Journal](#) ,2000 **The Long Night** Steve Wick,2011-08-02 The story of

legendary American journalist William L Shirer and how his first hand reporting on the rise of the Nazis and on World War II brought the devastation alive for millions of Americans When William L Shirer started up the Berlin bureau of Edward R Murrow s CBS News in the 1930s he quickly became the most trusted reporter in all of Europe Shirer hit the streets to talk to both the everyman and the disenfranchised yet he gained the trust of the Nazi elite and through these contacts obtained a unique perspective of the party s rise to power Unlike some of his esteemed colleagues he did not fall for Nazi propaganda and warned early of the consequences if the Third Reich was not stopped When the Germans swept into Austria in 1938 Shirer was the only American reporter in Vienna and he broadcast an eyewitness account of the annexation In 1940 he was embedded with the invading German army as it stormed into France and occupied Paris The Nazis insisted that the armistice be reported through their channels yet Shirer managed to circumvent the German censors and again provided the only live eyewitness account His notoriety grew inside the Gestapo who began to build a charge of espionage against him His life at risk Shirer had to escape from Berlin early in the war When he returned in 1946 to cover the Nuremberg trials Shirer had seen the full arc of the Nazi menace It was that experience that inspired him to write The Rise and Fall of the Third Reich the magisterial definitive history of the most brutal ten years the modern world had known which has sold millions of copies and has become a classic Drawing on never before seen journals and letters from Shirer s time in Germany award winning reporter Steve Wick brings to life the maverick journalist as he watched history unfold and first shared it with the world
