Is Heaven for Real? 2 Personal Stories of Visiting Heaven Patrick Doucette,2013-05-18 This second volume delivers more fascinating stories of people from all walks of life who have experienced the afterlife and heaven in some way The accounts documented in this book are from different people at different times and in different places They are all sincere they all had a story to tell and they attempted to share their experience to the best of their ability They each have unique aspects even though they share some similarities Some of these stories will likely resonate and encourage and inspire you Some may be difficult to relate to or to understand if that is the case I would suggest you skip that particular story for the time being and move on to the next one Perhaps the afterlife is revealed to us in such a way that allows each of us to understand and comprehend the process of passing in a way that we can accept The uniqueness of each experience may be in part due to the individual their ability to take in the awesomeness of such an event may be reflected in their memory of the event In any case these incidents are presented to the reader in the hopes that they will encourage and inspire my hope is that you will find as I did a common theme within these experiences which seem to reflect the powerful love of God towards humanity towards each one of us
