Hughes, Kim Paffenroth, 2005-01-01 The study of Augustine's political teachings has suffered from a history of misreadings both ancient and modern It is only in recent years that the traditional lines of Augustinian pessimism have been opened to question Scholars have begun to explore the broader lines of Augustine's political thought in his letters and sermons and thus have been able to place his classic text *The City of*

God in its proper context The essays in this volume take stock of these recent developments and revisit old assumptions about the significance of Augustine of Hippo for political thought They do so from many different perspectives examining the anthropological and theological underpinnings of Augustine's thought his critique of politics his development of his own political thought and some of the later manifestations or uses of his thought in the Middle Ages the Renaissance and today This new vision is at once more bracing more hopeful and more diverse than earlier readings could have allowed **The Essential City of God** Gregory W. Lee, 2025-04-01 Augustine is the most influential thinker of Western Christianity and *City of God* is arguably his greatest work After the sack of Rome in 410 many Romans despaired about the future of the empire Critics of Christianity blamed the devastation on the empire's conversion to the faith *City of God* is Augustine's monumental response to these challenges developed through analysis of Roman society engagement with classical philosophy and extended commentary on Scripture These sprawling discussions yield Augustine's theology of the two cities according to which all people are divided into two communities according to their ultimate loves whether of God or of self Christians are called to love eternal goods over temporal goods even as they seek the peace of the earthly city The length and complexity of *City of God* make its argument difficult to follow even for specialists This resource abridges Augustine's work and makes it accessible for a wide readership The selections focus on his social and political thought while indicating the larger shape of his work They are accompanied by explanatory notes essays on critical and complex topics and an outline of the entire text These aids will enable readers to experience Augustine's work for themselves *The Essential City of God* retrieves ancient wisdom for the modern world offering an enduring vision for faithfulness and hope in times of social instability

Augustine's City of God Gerard O'Daly, 1999-04-02 *The City of God* is the most influential of Augustine's works which played a decisive role in the formation of the Christian West This book is the first comprehensive modern guide to it in any language *The City of God's* scope embodies cosmology psychology political thought anti-pagan polemic Christian apologetic theory of history biblical interpretation and apocalyptic themes This book is therefore at once about a single masterpiece and at the same time surveys Augustine's developing views through the whole range of his thought The book is written in the form of a detailed running commentary on each part of the work Further chapters elucidate the early fifth-century political social historical and literary background the work's sources and its place in Augustine's writings The book should prove of value to Augustine's wide readership among students of late antiquity theologians philosophers medievalists Renaissance scholars and historians of art and iconography **City and Cosmos** Keith D. Lilley, 2009-09-01 In *City and Cosmos* Keith D. Lilley argues that the medieval mind considered the city truly a microcosm much more than a collection of houses a city also represented a scaled-down version of the very order and organization of the cosmos Drawing upon a *The City in the Valley* Dieter Georgi, 2005 **Sabbath in the City** Bryan P. Stone, Claire E. Wolfteich, 2008-01-01 Drawing on their research involving urban pastors from across the United States Bryan Stone and Claire Wolfteich identify and examine spiritual

practices that foster excellence in urban ministry After discussing the specific challenges facing urban pastors and presenting the kinds of excellence required of them Stone and Wolfteich explore several practices that help sustain ministers working in urban contexts such as cultivating holy friendships practicing Sabbath maintaining lives of prayer and study and setting appropriate boundaries Throughout the authors weave together stories from urban pastors from a variety of denominations with insights from the history of Christian spirituality and theology to chart a theological course for the formation and renewal of pastors in diverse contemporary contexts

Pagans and Christians in the City Steven D. Smith, 2018-11-15 Traditionalist Christians who oppose same sex marriage and other cultural developments in the United States wonder why they are being forced to bracket their beliefs in order to participate in public life This situation is not new says Steven D Smith Christians two thousand years ago faced very similar challenges Picking up poet T S Eliot s World War II era thesis that the future of the West would be determined by a contest between Christianity and modern paganism Smith argues in this book that today s culture wars can be seen as a reprise of the basic antagonism that pitted pagans against Christians in the Roman Empire Smith s *Pagans and Christians in the City* looks at that historical conflict and explores how the same competing ideas continue to clash today All of us Smith shows have much to learn by observing how patterns from ancient history are reemerging in today s most controversial issues

The Heart of Catholic Social Teaching David Matzko McCarthy, 2009-03 Seasoned teachers introduce the Catholic social tradition with distinctive attention to the Bible liturgy and the thought of Augustine and Aquinas

Religions in Antiquity Jacob Neusner, 2004-07-09 These essays were originally intended for presentation to Professor Erwin Ramsdell Goodenough on the occasion of his seventy fifth birthday Before his death in March 1965 he knew of our plans for this volume and was gladdened by them The editor hopes that these papers many of which fruitfully utilize Goodenough s scholarship may contribute to the critical discussion of some problems of concern to him during his lifetime He can conceive no higher nor more appropriate act of reverence for the memory of a beloved teacher and friend From the Foreword by Jacob Neusner

Urban Space in the Middle Ages and the Early Modern Age Albrecht Classen, 2009-12-15 Although the city as a central entity did not simply disappear with the Fall of the Roman Empire the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social economic and religious framework Whereas some poets projected urban space as a new utopia others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully As today the premodern city was the locus where different social groups and classes got together sometimes peacefully sometimes in hostile terms The historical development of the relationship between Christians and Jews for instance was deeply determined by the living conditions within a city By the late Middle Ages nobility and bourgeoisie began to intermingle within the urban space which set the stage for dramatic and far reaching changes in the social and economic make up of society Legal historical aspects also find as much consideration as practical questions

concerning water supply and sewer systems Moreover the early modern city within the Ottoman and Middle Eastern world likewise finds consideration Finally as some contributors observe the urban space provided considerable opportunities for women to carve out a niche for themselves in economic terms

The Human Being Hans Schwarz,2013-12-20 This overview of Christian anthropology by Hans Schwarz uniquely emphasizes three things 1 the biblical testimony 2 the historical unfolding of Christian anthropology through the centuries and 3 the present affirmation of Christian anthropology in view of rival options and current scientific evidence Schwarz begins by elucidating the special place occupied by human beings in the world then ponders the complex issue of human freedom and concludes by investigating humanity as a community of men and women in this world and in the world beyond While maintaining a strong biblical orientation Schwarz draws on a wide range of resources including philosophy and the natural sciences in order to map out what it means to be human Schwarz's Human Being will interest anyone who is concerned with how in the face of fascinating scientific insights we can intelligently talk today about human sinfulness human freedom and human beings as children of the God who created us

A Pentecostal Political Theology for American Renewal Steven M. Studebaker,2016-10-26 This book argues that Christians have a stake in the sustainability and success of core cultural values of the West in general and America in particular Steven M Studebaker considers Western and American decline from a theological and specifically Pentecostal perspective The volume proposes and develops a Pentecostal political theology that can be used to address and reframe Christian political identity in the United States Studebaker asserts that American Christians are currently not properly engaged in preventing America's decline or halting the shifts in its core values The problem he suggests is that American Christianity not only gives little thought to the state of the nation beyond a handful of moral issues like abortion but its popular political theologies lead Christians to think of themselves more as aliens than as citizens This book posits that the proposed Pentecostal political theology would help American Christians view themselves as citizens and better recognize their stake in the renewal of their nation The foundation of this proposed political theology is a pneumatological narrative of renewal a biblical narrative of the Spirit that begins with creation proceeds through Incarnation and Pentecost and culminates in the new creation and everlasting kingdom of God This narrative provides the foundation for a political theology that speaks to the issues of Christian political identity and encourages Christian political participation

New Testament Theology Thomas R. Schreiner,2008-06 This comprehensive survey of New Testament theology is arranged thematically and includes careful exegesis of key passages

The City Lament Tamar M. Boyadjian,2018-12-15 Poetic elegies for lost or fallen cities are seemingly as old as cities themselves In the Judeo Christian tradition this genre finds its purest expression in the book of Lamentations which mourns the destruction of Jerusalem in Arabic this genre is known as the ritha al mudun In The City Lament Tamar M Boyadjian traces the trajectory of the genre across the Mediterranean world during the period commonly referred to as the early Crusades 1095-1191 focusing on elegies and other expressions of loss that address the spiritual and

strategic objective of those wars Jerusalem Through readings of city laments in English French Latin Arabic and Armenian literary traditions Boyadjian challenges hegemonic and entrenched approaches to the study of medieval literature and the Crusades The City Lament exposes significant literary intersections between Latin Christendom the Islamic caliphates of the Middle East and the Armenian kingdom of Cilicia arguing for shared poetic and rhetorical modes Reframing our understanding of literary sources produced across the medieval Mediterranean from an antagonistic orientalist model to an analogous one Boyadjian demonstrates how lamentations about the loss of Jerusalem whether to Muslim or Christian forces reveal fascinating parallels and rich cross cultural exchanges

Theology, Political Theory, and Pluralism

Kristen Deede Johnson, 2007-01-25 How can we live together in the midst of our differences This is one of the most pressing questions of our time Tolerance has been the bedrock of political liberalism while proponents of agonistic political thought and radical democracy have sought an answer that allows a deeper celebration of difference Kristen Deede Johnson describes the move from tolerance to difference and the accompanying move from epistemology to ontology within political theory Building on this ontological turn in search of a theological answer to the question she puts Augustine into conversation with recent political theorists and theologians This theological option enables the Church to envision a way to engage with contemporary political society without losing its own embodied story and practices It contributes to our broader political imagination by offering a picture of rich engagement between the many different particularities that constitute a pluralist society

The New World of Politics Neal Riemer, Douglas Simon, Douglas W.
